Barbara M. Birch, 2022-06-08 Timely and accessible this edited volume brings together leading scholars to discuss methods for supporting reconciliation peace and sustainable and social change in English language teaching Around the world peace and reconciliation are urgent themes that are inextricably connected to the study and practice of teaching English The book features a diversity of voices and addresses pedagogies of peace universal responsibility and global interdependence in the domain of English language education Organized in three strands Part 1 addresses policy and implementation Part 2 addresses teacher education and Part 3 addresses content and lesson planning With chapters drawn from a dozen countries and contexts this book paves the way for English language teachers to harness their social capital and pedagogical agency to create sustainable peace globally and locally and in and outside the classroom It is essential reading for scholars and students in TESOL applied linguistics and peace education

Non-Native Language Teachers Enric Llurda, 2006-06-09 As non natives are increasingly found teaching languages particularly English both in ESL and EFL contexts the identification of their specific contributions and their main strengths has become more relevant than ever This volume provides different approaches to the study of non native teachers NNS teachers as seen by students teachers graduate supervisors and by themselves It contributes seldom explored perspectives like classroom discourse analysis and social psychological framework to discuss conceptions of NNS teachers

Method and Postmethod in Language Teaching

Graham Hall, 2024-10-31 Method and Postmethod in Language Teaching provides a comprehensive accessible and engaging guide to the much debated notions of method methods and postmethod in language teaching Divided into three sections Contexts Concepts and Debates the book sets out traditional understandings of method s examines alternative accounts and critiques that inform and at times go beyond postmethod thinking within language teaching and finally relates these issues to key practical debates and dilemmas that teachers navigate in the classrooms Highlighting the importance of teachers understandings of their own professional contexts the volume uses the notion of method as a lens through which

teachers and other language teaching professionals can clarify their understandings of language teaching both in terms of pedagogic practices and classroom possibilities and with regard to the development of this diverse field more generally. Throughout, readers are encouraged to develop their own thinking and practice in contextually appropriate ways supported by discussion questions and key readings that accompany each chapter, a glossary of key terms and suggestions for additional reading. This book is an indispensable resource for language teachers and other language teaching professionals as well as postgraduate and upper level undergraduate students of Applied Linguistics, Language Teacher Education and ELT, TESOL and other language teaching programmes. Handbook of Teacher Education Tony Townsend, Richard Bates, 2006-08-09

This book has its origins in conversations that started when the International Council on Education for Teaching (ICET) and the Australian Teacher Education Association (ATEA) jointly agreed to co-sponsor a World Assembly of Teacher Educators in Melbourne in July 2003, hosted by Monash University. The editors of this book were not only intimately involved in the management of the conference but had also been key figures in the Associations involved. Tony Townsend had been secretary and on the national board of the South Pacific Association for Teacher Education (SPATE) which later became ATEA and had previously managed a SPATE conference in Frankston, Australia in the 1980s. He is currently the President of ICET and now works at Florida Atlantic University. Richard Bates has been a long time board member of ATEA and is currently President of that organization. He is also a Board member of ICET. The International Council on Education for Teaching (ICET) was founded in 1953 for the purpose of emphasizing international cooperation in educational development in order to improve the quality of teacher education as well as to expand global educational opportunities for people in teacher education. Since that time, ICET has developed into an international association of practitioners of teacher education, policy and decision makers in education, government and business dedicated to global development through education. ICET is a Non-Governmental Organization (NGO) and participates in NGO meetings and other UNESCO sponsored conferences around the world. *Reconceptualizing English Education in a Multilingual Society* Isabel Pefianco Martin, 2018-03-01. This book brings together chapters that describe, investigate and analyze the place of English in education in multilingual Philippines. Unlike most studies on languages in education which take a neutral, de-contextualized stance, this volume takes a pluricentric view of the English language by positioning it in relation to its varieties as well as to other languages in the country. Because of the changing realities of English in the Philippines, traditional assumptions about the language as monolithic and unchanging as well as about how it should be taught and learned need to be revisited and re-conceptualized. *The Handbook of Language Teaching* Michael H. Long, Catherine J. Doughty, 2011-07-05. Bringing together an international and interdisciplinary team of contributors, this Handbook is a wide-ranging and invaluable reference guide to language teaching. A comprehensive reference work on language teaching which combines the latest research findings, coverage of core topics and examples of teaching experience from a variety of languages and settings. Provides a unique breadth of coverage including the

psycholinguistic underpinnings of language learning social political and educational contexts program design materials writing and course design teaching and testing teacher education and assessment and evaluation Offers a balanced evaluation of the major positions and approaches including examining the increasingly important social and political context of language teaching Written by an international and interdisciplinary group of authors from a dozen different countries English is only one of the many languages used as examples throughout the volume Teaching About Dialect Variations and Language in Secondary English Classrooms Michelle D. Devereaux, 2014-10-17 Standardized tests demand Standard English but secondary students grades 6 12 come to school speaking a variety of dialects and languages thus creating a conflict between students language of nurture and the expectations of school The purpose of this text is twofold to explain and illustrate how language varieties function in the classroom and in students lives and to detail linguistically informed instructional strategies Through anecdotes from the classroom lesson plans and accessible narrative it introduces theory and clearly builds the bridge to daily classroom practices that respect students language varieties and use those varieties as strengths upon which secondary English teachers can build The book explains how to teach about language variations and ideologies in the classroom uses typically taught texts as models for exploring how power society and identity interact with language literature and students lives connects the Common Core State Standards to the concepts presented and offers strategies to teach the sense and structure of Standard English and other language variations so that all students may add Standard English to their linguistic toolboxes
