Sociocultural Theory in Anthropology Merwyn S. History of Anthropological Theory Paul A. Erickson,Liam Donat Murphy,2010-01-01 This comprehensive anthology presents 40 readings that are critical to an understanding of anthropological theory and the development of anthropology as an academic discipline The readings have broad anthropological appeal emphasizing social and cultural anthropology The third edition has been completely revised throughout and organized to work more closely alongside the companion overview text A History of Anthropological Theory It includes six new readings as well as two original essays written by contemporary anthropologists on Why Theory Matters These new essays help ground the more abstract readings in the collection The glossary has been significantly expanded and the discussion questions have been revised The result is a volume that offers not only a strong foundation in the history of the discipline but also a good overview of developments in twentieth and twenty first century anthropological theory including feminist anthropology postmodernity medical anthropology globalization postcolonialism and public anthropology **Cultural Anthropology** Stephen A. Grunlan,Marvin K. Mayers,2016-11-22 This volume on cultural anthropology presents a Christian perspective for Bible school students of conservative evangelical backgrounds The hope is that a sympathetic approach to the problems of cultural diversity throughout the world will help young people overcome typical North American cultural biases and bring understanding and appreciation for the diversities of behavior and thought that exist in a culturally heterogeneous world Grunlan and Mayers take the position of functional creationism and though they discuss some of the problems implied in traditional interpretations of the age of the world and especially of the creation of the human race they do not attempt to deal with either physical anthropology or the origins of man They do however attempt to deal meaningfully with the problems posed by biblical absolutism and cultural relativism and their practice Concluding chapters with a series of thought provoking questions should prove to be of real help to both the professional and nonprofessional teacher of anthropology A History of Anthropological Theory, Fifth Edition Paul A. Erickson,Liam D. Murphy,2017-01-01 An accessible and engaging overview of anthropological theory that provides a comprehensive history from antiquity through to the twenty first century The fifth edition has been revised throughout with substantial updates to the Feminism and Anthropology section including more on Gender and Sexuality and with a new section on Anthropologies of the Digital Age Once again A History of Anthropological Theory will be published simultaneously with the accompanying reader mirroring these changes in the selection of readings so they can easily be used together in the classroom Additional biographical information about some of theorists has been added to help students A History of Anthropological Theory, Fourth Edition Paul A. Erickson,Liam D. Murphy,2013-04-26 In the latest edition of their popular

overview text Erickson and Murphy continue to provide a comprehensive affordable and accessible introduction to anthropological theory from antiquity to the present A new section on twenty first century anthropological theory has been added with more coverage given to postcolonialism non Western anthropology and public anthropology The book has also been redesigned to be more visually and pedagogically engaging Used on its own or paired with the companion volume *Readings for a History of Anthropological Theory* Fourth Edition this reader offers a flexible and highly useful resource for the undergraduate anthropology classroom For additional resources visit the Teaching Theory page at www.utpteachingculture.com *Readings for a History of Anthropological Theory, Fifth Edition* Liam D. Anthropology and Global History Robert M. Carmack, 2013-10-11 *Anthropology and Global History* explains the origin and development of human societies and cultures from their earliest beginnings to the present utilizing an anthropological lens but also drawing from sociology economics political science history and ecological and religious studies Carmack reconceptualizes world history from a global perspective by employing the expansive concepts of world systems and civilizations and by paying deeper attention to the role of tribal and native peoples within this history Rather than concentrating on the minute details of specific great events in global history he shifts our focus to the broad social and cultural contexts in which they occurred Carmack traces the emergence of ancient kingdoms and the characteristics of pre modern empires as well as the processes by which the modern world has become integrated and transformed The book addresses Western civilization as well as comparative processes which have unfolded in Asia the Middle East Latin America and sub Saharan Africa Vignettes opening each chapter and case studies integrated throughout the text illustrate the numerous and often extremely complex historical processes which have operated through time and across local regional and global settings *Readings for a History of Anthropological Theory, Fourth Edition* Paul A. Lydia Cabrera and the Construction of an Afro-Cuban Cultural Identity Edna M. Rodríguez-Plata, 2005-11-16 Lydia Cabrera 1900 1991 an upper class white Cuban intellectual spent many years traveling through Cuba collecting oral histories stories and music from Cubans of African descent Her work is commonly viewed as an extension of the work of her famous brother in law Cuban anthropologist Fernando Ortiz who initiated the study of Afro Cubans and the concept of transculturation Here Edna Rodríguez Mangual challenges this perspective proposing that Cabrera s work offers an alternative to the hegemonizing national myth of Cuba articulated by Ortiz and others Rodríguez Mangual examines Cabrera s ethnographic essays and short stories in context By blurring fact and fiction anthropology and literature Cabrera defied the scientific discourse used by other anthropologists She wrote of Afro Cubans not as objects but

as subjects and in her writings whiteness instead of blackness is gazed upon as the other As Rodriguez Mangual demonstrates Cabrera rewrote the history of Cuba and its culture through imaginative means calling into question the empirical basis of anthropology and placing Afro Cuban contributions at the center of the literature that describes the Cuban nation and its national identity The Making of Anthropology Jacob Pandian, Susan Parman, 2004 This book offers an interpretation of anthropology as a discourse that contrasts the western self and the non western other and shows that the organizing principle of this discourse was the Judeo Christian episteme of the Other in Us that the Christian Church Fathers developed to define why the pagan others were endowed with negative ungodly attributes of humanity It is pointed out that the anthropological application of this episteme to represent and explain the colonized non western others resulted in the emergence of eurocentric hierarchical models of humanity and that although these models of humanity were largely replaced by pluralistic models in the late 20 century anthropology has continued to be linked with the episteme of the other in us

Lansdown,2006-01-01 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaal islands at the far ends of the earth such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences after Darwin s momentous visit to the Galapagos Islands The Pacific produced other challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe As the century wore on the region presented opportunities and dilemmas for the imperial powers a process was accelerated by the Pacific War between 1941 and 1945 *Strangers in the South Seas* recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the
