Socioeconomic Impacts Of Artisanal And Smallscale Mining In Developing Countries:

The Socio-Economic Impacts of Artisanal and Small-Scale Mining in Developing Countries G.M. Hilson, 2003-01-01 The purpose of this book is to examine both the positive and negative socioeconomic impacts of artisanal and small scale mining in developing countries In recent years a number of governments have attempted to formalize this rudimentary sector of industry recognizing its socioeconomic importance However the industry continues to be plagued by *Environment and Health in Sub-Saharan Africa: Managing an Emerging Crisis* Isaac N. Luginaah, Ernest K. Yanful, 2009-07-07 This book is the second edited compilation of selected refereed papers submitted to ERTEP 2007 The book is organized into 10 chapters along four of the key themes that were discussed at the conference Environmental Health Management Mining and Environment Environmental Monitoring and Policy Development and Sustainability and Social Responsibility It is hoped that the contents of the book will provide an insight into some of the environmental and health management challenges confronting the developing world and the steps being taken to address them The first three chapters under the Environmental Health and Management theme discusses issues related to food security and related environmental distress in sub Saharan Africa Chapter 1 argues that pervasive poverty and low agricultural productivity are important factors in understanding food insecurity in the region and broader global processes are examined This chapter maintains that while poverty undermines individual and household access to sufficient food through market purchase land inequalities corruption structural adjustment programs civil conflict HIV AIDS and the role of the World Trade Organization Agreement on Agriculture are decisive The authors argue that achieving food security in sub Saharan Africa requires policies and actions that are integrated with efforts to reduce poverty enhance livelihoods and incomes and increase agricultural output while also paying attention to underlying structural factors that bear on agriculture in the region *Corporate Social Responsibility and Canada's Role in Africa's Extractive Sectors* Nathan Andrews, J. Andrew Grant, 2020-01-28 With reference to global governance initiatives aimed at promoting ethical business practices this volume offers a timely examination of Canada Africa relations and natural resource governance *Impact of Water Pollution on Human Health and Environmental Sustainability* McKeown, A. Elaine, 2015-10-27 Water is at the core of all life on Earth and exists as one of the main components of the human body Because water is essential to life addressing water pollution and sustainability issues is of great concern to environmentalists and public health specialists alike *Impact of Water Pollution on Human Health and Environmental Sustainability* highlights several important water related issues and explores a number of potential solutions to the problem of water sustainability Focusing on research based perspectives on water availability industrial and agricultural pollution water contamination and their impacts on the human population as well as the environment this crucial publication is a necessary addition to academic and government libraries serving graduate level students environmental scientists public health workers policy makers and legislators seeking the latest information on sustainable and contaminant free water resources *Migration Conundrums,*

Regional Integration and Development Inocent Moyo, Christopher Changwe Nshimbi, Jussi P. Laine, 2020-07-08 This book examines Africa Europe relationships and intra Africa relationships vis vis migration It analyses the African integration project that is being used to effectively manage migration within Africa and across its RECs and harnessing it for development The book presents debates related to the EU s hardening and securitisation of its external border against migrants from Africa It shows that migration actually challenges Africa European relations which is discussed as an important theme in this book Authors in this book volume investigate several issues ranging from conundrums relating to migration between Africa and Europe to migration within Africa but also in relation to borders and boundaries its bearing on regional and continental integration and the significance of this in terms of relations between Africa and Europe This book volume brings into conversation issues relating to the governance of migration for development social cohesion and regional integration

The Routledge Handbook of Critical Resource Geography Matthew Himley, Elizabeth Havice, Gabriela Valdivia, 2021-07-12 This Handbook provides an essential guide to the study of resources and their role in socio environmental change With original contributions from more than 60 authors with expertise in a wide range of resource types and world regions it offers a toolkit of conceptual and methodological approaches for documenting analyzing and reimagining resources and the worlds with which they are entangled The volume has an introduction and four thematic sections The introductory chapter outlines key trajectories for thinking critically with and about resources Chapters in Section I Un knowing resources offer distinct epistemological entry points and approaches for studying resources Chapters in Section II Un knowing resource systems examine the components and logics of the capitalist systems through which resources are made circulated consumed and disposed of while chapters in Section III Doing critical resource geography Methods advocacy and teaching focus on the practices of critical resource scholarship exploring the opportunities and challenges of carrying out engaged forms of research and pedagogy Chapters in Section IV Resource making world making use case studies to illustrate how things are made into resources and how these processes of resource making transform socio environmental life This vibrant and diverse critical resource scholarship provides an indispensable reference point for researchers students and practitioners interested in understanding how resources matter to the world and to the systems conflicts and debates that make and remake it

The Routledge Handbook of Gender and Development Anne Coles, Leslie Gray, Janet Momsen, 2015-02-20 The Routledge Handbook of Gender and Development provides a comprehensive statement and reference point for gender and development policy making and practice in an international and multi disciplinary context Specifically it provides critical reviews and appraisals of the current state of gender and development and considers future trends It includes theoretical and practical approaches as well as empirical studies The international reach and scope of the Handbook and the contributors experiences allow engagement with and reflection upon these bridging and linking themes as well as the examining the politics and policy of how we think about and practice gender and

development Organized into eight inter related sections the Handbook contains over 50 contributions from leading scholars looking at conceptual and theoretical approaches environmental resources poverty and families women and health related services migration and mobility the effect of civil and international conflict and international economies and development This Handbook provides a wealth of interdisciplinary information and will appeal to students and practitioners in Geography Development Studies Gender Studies and related disciplines The Future of Mining in South Africa: Sunset or Sunrise?

Valiani, Salimah, 2018-12-28 The future of mining in South Africa is hotly contested Wide ranging views from multiple quarters rarely seem to intersect placing emphasis on different questions without engaging in holistic debate This book aims to catalyse change by gathering together fragmented views into unifying conversations It highlights the importance of debating the future of mining in South Africa and for reaching consensus in other countries across the mineral dependent globe It covers issues such as the potential of platinum to spur industrialisation land and dispossession on the platinum belt the roles of the state and capital in mineral development mining in the era of the Fourth Industrial Revolution the experiences of women in and affected by mining since the late 19th century and mine worker organising history and lessons and how post mine rehabilitation can be tackled It was inspired not only by an appreciation of South Africa's extensive mineral endowments but also by a realisation that while the South African mining industry performs relatively well on many technical indicators its management of broader social issues leaves much to be desired It needs to be deliberated whether the mining industry can play as critical a role going forward as it did in the evolution of the country's economy

Atmospheric Mercury Monitoring, Analysis, and Chemistry James Cizdziel, 2021-04-28 Mercury is a toxic global contaminant that is transported through the atmosphere is deposited in terrestrial and aquatic ecosystems and concentrates up the food chain reaching levels that can harm both humans and wildlife This book reports the latest findings describing the distribution deposition and measurement of this airborne pollutant as well as the human and environmental impacts of artisanal mining of mercury and gold The research originates from around the world and highlights the importance of atmospheric mercury research and the Minamata Convention on Mercury a global treaty to protect human health and the environment from anthropogenic emissions of mercury **Patriarchy and Gender in Africa** Veronica Fynn

Bruey, 2021-03-25 This timely and expansive multidisciplinary and transdisciplinary collection dissects precolonial colonial and post independence issues of male dominance power and control over the female body in the legal socio cultural and political contexts in Africa Contributors focus on the historical theoretical and empirical narratives of intersecting perspectives of gender and patriarchy in at least ten countries across the major sub regions of the African continent In these well researched chapters authors provide a deeper understanding of patriarchy and gender inequality in identifying misogyny resisting male supremacy reforming discriminatory laws embracing human centered public policies expanding academic scholarship on the continent and more Women Miners in Developing Countries Martha Macintyre, 2017-05-15

Contrary to their masculine portrayal mines have always employed women in valuable and productive roles Yet pit life continues to be represented as a masculine world of work legitimizing men as the only mineworkers and large mechanized and capitalized operations as the only form of mining Bringing together a range of case studies of women miners from past and present in Asia the Pacific region Latin America and Africa this book makes visible the roles and contributions of women as miners It also highlights the importance of engendering small and informal mining in the developing world as compared to the early European and American mines The book shows that women are engaged in various kinds of mining and illustrates how gender and inequality are constructed and sustained in the mines and also how ethnic identities intersect with those gendered identities *International Business, Trade and Institutional Sustainability* Walter Leal Filho, Paulo R. Borges de Brito, Fernanda Frankenberger, 2019-10-25 This book addresses the gap between innovative technologies and their adoption It showcases research feasibility studies and projects that demonstrate a variety of ways to implement environmental sustainability in globally operating firms as well as best practices in areas such as international management adoption of cleaner technologies global supply chains greenhouse gas emission reduction and transportation The book provides state of the art information on issues including Global sustainable management practices Global sustainable food and agricultural markets Global responsible mining and energy Global sustainable sourcing Global sustainable transportation Global conservation innovations and investments Presenting expert contributions from industry government and academia discussing a variety of themes and perspectives on the topic international business as a positive force of environmental sustainability it is a vital resource for stakeholders in the international business community

Gender Inequalities in Africa's Mining Policies Francis Onditi, 2022-04-17 This book develops a discursive equalitarian theoretical framework for studying African mining ecosystem issues and policy interventions The theory of equalitarianism is developed as an alternative to the reductionist approach that has dominated post colonial debates about the classical jus ad bellum requirements to empower women in development spaces However the classical approach narrows the debate down to women issues rather than the whole of society As a consequence of this reductionism women continue to be devalued in the mining sector characterized by poverty traps power struggles and a lack of capacity to engage in large scale mining LSM activities This book advances principles for a holistic approach and spells out the implications for women across the mining value chain Drawing on moral scholarship the book poses that for women to gain access to strategic spaces in the mining sector the drive for empowerment must be embedded within whole of society principles This book is of interest to scholars researching gender policy public policy political philosophy conflictology and human geography It also offers practitioners a guide for evaluating their policy work on mainstreaming gender in the mining sector presenting options for financing forging partnership and planning for an inclusive economic development in Africa and beyond

Fairness and Justice in Natural Resource Politics Melanie Pichler, Cornelia Staritz, Karin Küblböck, Christina Plank, Werner Raza, Fernando Ruiz

Peyré,2016-08-05 As demand for natural resources increases due to the rise in world population and living standards conflicts over their access and control are becoming more prevalent This book critically assesses different approaches to and conceptualizations of resource fairness and justice and applies them to the analysis of resource conflicts Approaches addressed include cosmopolitan liberalism political economy and political ecology These are applied at various scales local national international and to initiatives and instruments in public and private resource governance such as corporate social responsibility instruments certification schemes international law and commodity markets In doing so the contributions contrast existing approaches to fairness and justice and extend them by taking into account the interplay between political scales regions resources and power structures in glocalised resource politics Various case studies are included concerning agriculture agrofuels land grabbing water resources mining and biodiversity The volume adds to the academic and policy debate by bringing together a variety of disciplines and perspectives in order to advance both a research and policy agenda that puts notions of resource fairness and justice center stage Poverty Alleviation Pathways for Achieving Sustainable Development Goals in Africa Thokozani Simelane,2020-10-28 The inability to eradicate poverty among societies demands a synergistic approach This calls for the development of multi pronged pathways for transitioning towards sustainable development goals Many of these have been developed and tested across the world Some have proved to be effective in illuminating the underlying cause of the world s inability to eradicate poverty This is being driven by the fact that sustainable development as a global development concept represents a multidimensional phenomenon that includes many different indicators of human development This volume which derives from the papers presented at the seventh Africa Unity for Renaissance Conference that was held at Freedom Park Pretoria South Africa seeks to supplement existing pathways by highlighting Africa s approach to poverty alleviation which can possibly be attained through enhanced nutrition food security energy and gender equity Evidence presented reflects strengths weaknesses and opportunities on how Africa can transition towards sustainable development goals The information provided is useful to countries interested in assisting Africa to develop pathways for achieving sustainable development goals within the scope of Agenda 2063 The book is a good reference for policy makers academics government authorities and students interested in research and developmental studies

Contemporary Customary Land Issues in Africa J. Oloka-Onyango,Bridget Bwalya Umar,2018-07-26 This book examines current trends in customary land issues in Africa focusing on the practice of converting customary land into leasehold tenure particularly in Zambia Since the enactment of the 1995 Lands Act No 29 in Zambia conversion of customary land has become a controversial policy raising questions about the future of customary land and rural communities and the role of traditional authorities in a changing environment Alienating customary land into leasehold tenure has serious implications for local and national politics and gender dynamics Analysis of these trends suggests that the policy of creating land markets on customary land is subjecting customary systems to the forces of change However governments that have adopted this policy

have not by and large adopted measures to respond to these challenges Although customary tenure is widely believed to be resilient it is not clear how the customary system will navigate the current winds of change Chapters in this book draw from the Land Use and Rural Livelihoods in Africa Project LURLAP a collaborative research project undertaken by staff and students at the University of Cape Town and the University of Zambia

The Untold Story of Zama Zama Miners in South Africa Vidette Bester, 2025-04-30 This book results from a decade of in depth research on the complexities of Zama Zama mining in South Africa which has become a pressing issue of late It critiques the overly simplistic portrayal of the miners negatively and as illegal immigrants Through a sociological lens this book explores the broader socio economic conditions the profound impact of South Africa s mining history particularly the migrant labor system on today s Zama Zama miners and the role of women in the sector This book is not just about mining it interrogates issues around language poverty and power It challenges dominant societal narratives and examines how labels can further marginalize vulnerable groups Inspired by the works of Pierre Bourdieu and Michel Foucault on classification and language the book questions who holds the power to label and shape mainstream discourses Amplifying the voices of the Zama Zamas themselves the book transforms the conversation around Zama Zama mining in South Africa and beyond providing fresh insights into this complex and marginalized sector This book is more than an original and insightful study on informal mining it offers practical initiatives for businesses government and civil society to engage with and address this marginalized sector more sustainably

Mining, Materials, and the Sustainable Development Goals (SDGs) Cristian Parra, Brandon Lewis, Saleem H. Ali, 2020-10-13 Mining Materials and the Sustainable Development Goals SDGs 2030 and Beyond provides a systematic assessment of how the mining and materials sector contributes to the 17 sustainable development goals SDGs set forth by the United Nations in 2015 While the target date of 2030 is considered a benchmark for reaching these goals the book looks beyond this date and considers a longer term vision FEATURES Written by a consortium of authors from developing and developed countries Offers coverage of environmental economic and social dimensions of the SDGs Follows the 17 SDGs and includes a short chapter on each followed by a case example Includes longer conceptual chapters that consider cross cutting issues as well Aimed at those working in minerals mining and materials this work offers readers a practical vision of how these sectors can have a positive impact on meeting these vital global targets

Gold Michael John Bloomfield, Roy Maconachie, 2021-02-04 Gold remains a highly prized and impactful resource within the global economy From the insatiable demand for gold in the electronics that permeate our day to day lives to the environmental desolation driven by gold mining in the Amazon the gold trade continues to touch the lives and livelihoods of people across the world Bloomfield and Maconachie tell the intriguing story of the yellow metal tracing the seismic shifts in the industry over the past few decades They show how huge purchases of gold reserves by BRICS countries mark the shifting balance of power away from the West and how rising affluence in India and China has led to a surging demand for gold jewellery calling into question current approaches to make supply chains

more responsible Explaining why gold is so difficult to regulate and why it is only becoming more so the authors suggest ways we could collectively make practices work better for the countless workers and communities who suffer at the producer end of the supply chain Linking local to global producer to consumer and gold s extraction from the Earth to the financial centres that fuel it this book offers a probing analysis that reveals who wins and who loses and what this means for the future of gold

African Gold Roman Grynberg, Fwasa K. Singogo, 2021-03-19 The book explores the evolving economics of gold as a global commodity as well as the production and trade of gold in and from the African continent The growth of gold as an increasingly important and diverse source of African wealth is examined alongside the impact that the rise of China in the 21st century has had on the demand for gold The volatility of the gold price has increased as a result of the dramatic decline of gold demand for manufacturing purposes Gold is Africa s second largest export after oil and is a perfect metaphor for a continent rich in resources while so much of its population lives in such dire poverty The artisanal and small scale gold mining ASGM sector is surprisingly widely perceived as being beneficial to the development of Africa despite its exploitation and dreadful health and environmental consequences African Gold Production Trade and Economic Development considers policy issues regarding the gold mining sector the economics of beneficiation the retreat of jewelry manufacturing across the continent as well as Africa s golden future It is a relevant book for both academics and policymakers interested in Africa natural resource and development economics
