Subject Guide to Books in Print, 1993      **A Short Introduction to World Religions** Tim Dowley, 2018-07-01 This leading textbook for world religions is now available in a more concise version. Many of the features of *Introduction to World Religions* are retained in this volume but with focus on the religious traditions themselves. The section on religions of antiquity has been removed and key content in each chapter streamlined to increase accessibility for students in their study and research of the world's religious traditions. Known and valued for its balanced approach, this book offers an arresting layout with rich illustrations. It continues to provide broad coverage of diverse religions including indigenous religions: Hinduism, Buddhism, Jainism, Judaism, Christianity, Islam, Sikhism, and Chinese, Korean, and Japanese religions. The user-friendly content is enhanced by charts of religious festivals, historic timelines, updated maps of the world's religions, and a useful glossary. Both historical overviews and modern perspectives for each religion are included. This edition includes several updates made to the new third edition, including a new design, a new section on women and religion, and a newly revised section on religions in today's world.

Reading and Writing in the Global Workplace Beatrice Quarshie Smith, 2012-06-14 *Reading and Writing in the Global Workplace: Gender, Literacy, and Outsourcing in Ghana* by Beatrice Quarshie Smith explores the conditions that underlie the outsourcing of US data processing work in Ghana. Here Beatrice Quarshie Smith describes the convergence and interplay of at least four different socio-economic forces: 1) the digital and satellite technology enabling virtual environments for global outsourced data processing; 2) the historical development of Ghana as a politically stable Anglophone society with a relatively strong tradition of public education; 3) the neoliberal economic restructuring policies advanced by the World Bank and the International Monetary Fund; and 4) the ready availability of women seeking to enter the formal wage economy either to seek independence from their roles within traditional families or in order to support their families. The author's comparative study of two distinctly different workplaces reveals significant insights about problems of organizational hierarchy and management, employee relations in the cross-cultural environments of outsourced business and IT process work. Through extensive interviews, the book sheds light on the educational backgrounds, day-to-day struggles, fears, and aspirations of the workers. Quarshie Smith develops this multi-faceted analysis with keen insights into the representational limitations and ethical responsibilities of the researcher. This pioneering study about outsourced data processing work in West Africa opens up a new area for research and offers a fresh perspective from which to consider outsourcing in other regions of the globe.
