

Sociology 111 – Study Notes

Chapter 1:

Introduction to Sociology:

- Sociologists notice social patterns. They recognize that our personal experiences are affected by our class, ethnicity, gender, age, and sexual orientation
- Sociological research enables us to discuss social issues in an informed and critical manner. It allows us to challenge perceptions such as stereotypes. For example, that all male nurses are gay (Meet the Parents [2000] movie)

Sociology and “Issues”:

- Sociology can’t say what is moral, or “right”
- But it can tell us about who tends to be in favour of or against an issue (e.g., same-sex marriage) -
- Sociology gives us the means to form considered opinions on social issues

Sociology as a Discipline:

- Sociology is a social science
- There is nothing natural about the boundaries between disciplines
- Sociology shares common interests with other social sciences such as psychology, anthropology, philosophy, social work, economics, and political science
- However, it does distinguish itself from other disciplines through its history, vocabulary, and tools

What is Sociology / Why Study Sociology:

- Sociology is difficult to define. It is more productive to explain what sociology does
- Sociology involves looking for and looking at social patterns in social variables, social institutions, and social interactions
- It tends to focus on social variables such as age, gender, “race,” ethnicity, religion, and sexuality -It is useful to study sociology to achieve a greater understanding of:
 - The social world (social practices, attitudes, institutions)
 - Oneself (how individuals relate to social patterns)
 - Others in the multicultural context of Canada

The Heart of Sociology: The Social Imagination

- C. Wright Mills coined the term **sociological imagination**. He was a non-conventional American sociologist who has been embraced by the discipline; Mills stated that the challenge of sociology is to make the connection between how society works and how it works in terms of our personal lives -The sociological imagination helps us to understand the connections between the political and the personal. In many ways, these are interlinked
- Henry Giroux (2006) warns of the consequences due to a lack of sociological imagination; Social issues become viewed as private problems devoid of their link to macro forces and consequently the suffering of individuals becomes personalized; It becomes difficult to develop the language that conveys the aforementioned; Without such an understanding, democracy will not be realized
