autobiographical postscript a select bibliography of O'Neill's many publications and an extensive introduction by the editors A challenging and innovative collection *Writing the Body Politic: A John O'Neill Reader* will appeal to critical social theorists and sociologists with interests in the work of one of sociology's great critical readers of classical and contemporary texts

**Interdisciplinary Phenomenology** D. Ihde, Richard M. Zaner, 2013-06-29 Historically philosophy has been the point of origin of the various sciences However once developed the sciences have increasingly become autonomous although often taking some paradigm from leading philosophies of the era As a result in recent times the relationship of philosophy to the

sciences has been more by way of dialogue and critique than a matter of spawning new sciences This volume of the Selected Studies brings together a series of essays which develop that dialogue and critique with special reference to the insights of phenomenological philosophy Phenomenology in its own way has been interfaced with the sciences from its outset Perhaps the most widely noted relation due in part to Edmund Husserl's characterization of the beginning steps of phenomenology as a descriptive psychology has been with the various psychologies It is well known that the early Gestaltists were influenced by Husserl and later the Existential psychologies acknowledged the impact of Martin Heidegger and Jean Paul Sartre to mention but two philosophers And of course Husserl's lifetime concern for the foundations of logic and mathematics especially as these the former in particular were developed into a foundational theory of science has figured prominently in these dialogues

2 INTRODUCTION Less directly but more currently the impact of phenomenology upon the disciplines has begun to be felt in a whole range of the sciences

**Life Sentences** Zohreh Bayatrizi, 2008-08-23 Death has popularly had the reputation of being the last of life's great mysteries a subject of speculation and as a foreboding event both inevitable and feared In Life Sentences Zohreh Bayatrizi examines the many concerted attempts from the last 350 years to strip death of its mystery and to order manage and transform it from an individualized and fatalistic event to a social phenomenon that allows intervention She examines the process that has caused death to be understood in five quasi biblical commandments thou shalt not die violently thou shalt not die prematurely thou shalt not kill thyself and thou shalt not die an undignified death so that thou shalt die an orderly death Beginning with John Graunt's Natural and Political Observations Made upon the Bills of Mortality 1662 considered the first book of statistics and philosopher Thomas Hobbes's declaration that society must minimize the greatest evil of unsanctioned violent deaths Bayatrizi traces the pivotal moments that have changed our understanding of death While illuminating the history of our increasingly rationalized understanding of death she also examines some of our most contradictory reactions to controversial topics such as suicide euthanasia suicide bombing collateral damage and how our moral values have been shaped by an understanding of the proper place of a well ordered death in modern society Both historically rigorous and vigorously engaged in contemporary debates Life Sentences will be of interest to anyone interested in how we deal with death before we die

Transversal Rationality and Intercultural Texts Hwa Yol Jung, 2011-07-26 Winner of the 2012 Edward Goodwin Ballard Prize sponsored by the Center for Advanced Research in Phenomenology Transversality

is the keyword that permeates the spirit of these thirteen essays spanning almost half a century from 1965 to 2009 The essays are exploratory and experimental in nature and are meant to be a transversal linkage between phenomenology and East Asian philosophy Transversality is the concept that dispels all ethnocentrism including Eurocentrism In the globalizing world of multiculturalism Eurocentric universalism falls far short of being universal but simply parochial at the expense of the non Western world Transversality is intercultural interspecific interdisciplinary and intersensorial Transversal Rationality and Intercultural Texts means to transform the very way of philosophizing itself by infusing or hybridizing multiple traditions in the history of the world Like no other scholar Jung bridges the gap between Asian and Western cultures What is traditionally called comparative philosophy is not just a neglected branch of philosophy it is poised to radically transform the very conception of philosophy itself

friendship as a communicative and pedagogical practice in society literature and politics He shows how subjectivity is shaken by its internal weakness once we move inside the structure of domination in politics gender and race The Missing Child in Liberal Theory John O'Neill,1994-12-15 The Missing Child in Liberal Theory opens public discourse on what it is Canadians hold in common through their provision of civic assurances to children and families at risk John O'Neill presents a strongly worded critique of the dominant discourse of the market society He observes the link between duty free capitalism and minimal civic obligations This book calls for a covenant society where civility and reciprocity are underwritten by a second generation concept of the Canadian welfare state that will not abandon children to disastrous prospects in a market society Confronting the current call for a leaner and meaner response to global competitiveness O'Neill challenges concepts of liberalism and communitarianism In their place he proposes a covenant concept of state community and family assurances to derive from our common provision of a civic endowment that we undertake to sustain now and for future generations of Canadians O'Neill argues that if Canada is to survive as a national community capable of responding to the global market we must reaffirm the civic foundations of the state If we fail to do this we will not have a leaner society only a meaner one This society will be hostile to capitalism and socialism alike If we can rededicate the Canadian commons to the well being of the civic person Canada will contribute a model of survival and governance among the nations of the twenty first century
