Decision-Aiding Software and Legal Decision-Making Stuart S. Nagel, 1989-09-26 The use of microcomputers as decision aids in law practice is increasing rapidly Nagel here shows how developments in software over the last few years are making

microcomputers practically indispensable to lawyers as decision aids This is in contrast to his earlier book on *Microcomputers as Decision Aids in Law Practice* It dealt speculatively with ways in which decision aiding software could be used by lawyers for judicial prediction litigation strategy allocating scarce resources and negotiation mediation The book is divided into three parts covering general developments specific lawyer skills and application to all fields of law The first part previews various uses of decision aiding software by practicing lawyers including a general discussion of the potential and actual benefits of such software How decision aiding software enhances specific lawyer skills comprises the second and largest part of the work Among the topics discussed are computer aided counseling computer aided mediation legal policy evaluation and computer aided advocacy law prediction and legal administration In the third part Nagel assesses applications of decision aiding software to all fields of law with an emphasis on contracts property torts family law criminal law constitutional law economic regulation international law civil procedure and criminal procedure In a provocative concluding chapter he deals with the thorny issues of individual ethics and professional responsibility in the context of microcomputers Because decision aiding software encourages decision makers to be much more explicit about their goals than they otherwise would be its use raises questions as to whose goals should be pursued and to what degree This is a nuts and bolts guidebook that will be a valuable tool for practicing attorneys with some knowledge of microcomputers and is recommended reading for legal scholars and law students The Fields and Methods of Social Planning James Midgley, David Piachaud, 1984

Urbanism Past & Present, 1983 Políticas públicas Wayne Parsons, 2013-09-10 El libro de Wayne Parsons ofrece uno de los más actualizados panoramas de los principales temas cuestiones corrientes debates y marcos analíticos de la disciplina de Política Pública Representa una contribución relevante a la evolución académica y profesional del análisis y diseño de políticas en nuestros países The Economic Approach to Social Policy Susan T. Charles, Adrian Webb, 1986 Textbook microeconomics social policy resource allocation economic models social norms decision making supply and demand competition efficiency political behaviour price policy rationing public expenditure income redistribution social services cost benefit analysis social planning Graphs references statistical tables **Housing Policy** Tony Newson, 1986

Computer-Aided Judicial Analysis Stuart S. Nagel, 1992-10-23 Decision aiding software the underpinning of computer aided judicial analysis can facilitate the prediction of how cases are likely to be decided prescribe decisions that should be reached in such cases and help administrate more efficiently the court process It can do so says Nagel by listing past cases on each row of a spreadsheet matrix by listing predictive criteria in the columns and in general by showing for each factual element the estimated probability of winning a case The software aggregates the information available and deduces likely outcomes But it can also prescribe judicial decisions by listing alternatives in the rows the goals to be achieved in the columns and by showing relations between alternatives in the cells By similar means decision aiding software can also help perform administrative tasks such as rationally assigning judges or other personnel to cases and by sequencing cases to

reduce the time consumed by each case In Part I Nagel provides an overview of computer aided analysis and the role of decision aiding software in the legal process In the second part he deals with judicial prediction from prior cases and from present facts and in the third part he emphasizes the prescribing role of judges particularly in deciding the rules that ought to be applied in civil and criminal procedures Nagel also covers computer aided mediation and provides a new perspective on judicial decisions Then in Part IV he treats at length the process of judicial administration and how to improve its efficiency Of particular interest to court personnel will be the benefits to be derived from reducing delays and in the docketing and sequencing of cases

Preliminary Program American Political Science Association, 1981 Issues for the 36th 37th annual meetings 1940 41 include the Annual meeting of the American Society for Public Administration 2d 3d 1940 41 The Organisational Analysis Ashok Kumar, 1995 *Bulletin of the Public Affairs Information Service* Public Affairs Information Service, 1982 *Using Remote Sensing in State and Local Government* National Research Council, Division on Engineering and Physical Sciences, Space Studies Board, Steering Committee on Space Applications and Commercialization, 2003-04-12

Advances in spatial spectral and temporal resolution over the past several years have greatly expanded opportunities for practical applications of remote sensing data To explore the implications of these possibilities the NRC held a series of three workshops on different facets of remote sensing applications This report is on the third of those workshops the development and use of remote sensing data and information by state local and regional governments The steering committee was asked to examine the opportunities potential challenges and policy issues associated with the application of remote sensing data in the public sector including approaches and procedures for government agencies to use such data and barriers to development and use of the applications The resulting report is addressed primarily to non technical managers and decisions makers at all levels of government below the federal level
