value to researchers and practitioners in the areas of political science philosophy sociology peace studies Moreover it is a must read for everyone interested in promoting global nonviolence nonkilling peace "Hostages to Peace" Chris Albin-Lackey, Human Rights Watch (Organization), 2009 Somaliland declared its independence from Somalia in 1991 though no country in the world has recognized its existence Since then Somaliland has maintained peace and stability while laying the groundwork for democratic governance But today Somaliland is at a perilous crossroads The administration of President Dahir Riyale Kahin has repeatedly failed to hold key elections originally scheduled for mid 2008 The resulting crisis has laid bare the limits of what Somaliland has accomplished and now threatens its hard won progress Somaliland's government continues to rely on extralegal security committees to usurp the role of the courts and allow government officials to incarcerate criminal suspects including children without charge or trial While heavy handed acts of repression are rare they are not unheard of and low level harassment of journalists opposition officials and others is common The president and his government frequently flout the laws and constitution while the legislature and the courts do nothing to rein in such abuses of power Human Rights Watch urges Somaliland's government to ensure that presidential elections are held as currently scheduled in September 2009 In the longer term Somaliland's government should make a concerted effort to strengthen the rule of law and end human rights violations Somaliland's international partners whether they recognize Somaliland's independence or not should use both pressure and assistance to help ensure that this happens *Understanding Statebuilding* Rebecca Richards, 2016-02-24 Much analysis of state building focusses on dissecting specific projects and attempting to identify what has gone wrong in states such as Afghanistan and Iraq What draws less attention is what has gone right in non interventionist statebuilding projects within unrecognised states By examining this model in more depth a more successful model of statebuilding emerges in which the end goal of modern democracy and good governance are more likely to be realized Indeed states within states such as Somaliland where external intervention in the statebuilding process is largely absent can provide vital new lessons Somaliland is a functioning democratic political entity in northwestern Somalia which declared its independence from the troubled south in 1991 and then embarked on an ambitious project to create a democratic government and successful state in the post conflict environment The leaders and the people of Somaliland have since succeeded not only in maintaining peace and stability but also in building the institutions of government and the foundations for democracy that have led to a succession of elections peaceful transfers of power and a consolidation of democratization The resulting state of Somaliland is widely hailed as a beacon of success within a politically turbulent region and provides a useful framework for successful statebuilding projects throughout the world
