Zu, 2025-03-18 Just Awakening uncovers a forgotten philosophy of social democracy inspired by Yog c ra an ancient nondualistic Buddhist philosophy that claims everything in the perceptible cosmos is mere consciousness and consists of multiple karmically connected yet bounded lifeworlds This Yog c ra social philosophy emerged in the late nineteenth and early twentieth centuries among Chinese intellectuals who struggled against the violent Social Darwinist logic of the survival of the fittest Its proponents were convinced that the root cause of crisis in both China and the West was epistemic an unexamined faith in one common objective world and a subject object divide This dualistic paradigm in their view had dire consequences including moral egoism competition for material wealth and racial war Yog c ra insights about plurality interdependence and intersubjectivity however had the capacity to awaken the world from these deadly dreams Jessica X Zu reconstructs this account of modern Yog c ra philosophy arguing that it offers new vocabularies with which to reconceptualize equality and freedom Yog c ra thinking she shows diffracts the illusions of individual identity social categories and material wealth into aggregated recurring karmic processes It then guides the reassembly of a complex society through nonhierarchical noncoercive and collaborative actions sustained by new behavior patterns and modes of

thought Demonstrating why Chinese Buddhist social philosophy offers powerful resources for social justice and liberation today Just Awakening invites readers to think with modern Yog c ra philosophers about other ways of building egalitarian futures
