Theory of Philosophical Consciencism Dompere, Kofi

Kissi,2017-09-24 In the Theory of Philosophical Consciencism Professor Dompere establishes how Nkrumah used the theory of categorical conversion housing the necessary conditions of transformation to design strategies for creating the sufficient conditions for socio political transformations The theory of Philosophical Consciencism is about the institutionally destruction creation process for socio political transformation The theory shows the scientific contributions of Nkrumah s thinking to the solution of the transformation problem in science and its application to social systemcity where Nkrumah s analytical weapons were drawn from African conceptual system The theory is developed as logico mathematical foundations that guide the internal management of the command control decision choice systems for creative destruction of socio political varieties in transformations through the development of qualitative mathematics making possible the construct of qualitative equations of motion for connecting varieties in qualitative transfers The qualitative equations of motion through the Philosophical Consciencism constitute the sufficient conditions for transformations The theory links rationality intentionality experiential information structure defective deceptive information structures in the control dynamic games of power and dominance by the duals and poles under the principle of opposites with relational continua and unity relative to decision

choice systems that induce negation negation transformations where paths are established by the history of success failure outcomes in the socially control dynamic zero sum games between the duals in any duality and between the poles of any actual potential polarity The main premise of the monograph is that there exists a set of sufficient conditions in support of the necessary conditions for internal transformation of socio natural varieties The theory is useful in understanding developmental processes and multi polar power zero sum games for global dominance The necessary conditions constitute the natural necessity that constrains cognitive freedom The sufficient conditions constitute cognitive freedom that must overcome the necessity in socio natural systems dynamics Had this conceptual system been familiar to African leaders the African transformation from colonialism to complete emancipation rather than neocolonialism would have been increasingly successful This holds for those seeking triumph over injustices oppression imperialism and social change in all systems

An Anatomy Of Ghanaian Politics Naomi Chazan,2019-02-28 The paths of African states have diverged markedly since the termination of colonial rule Nevertheless Ghana the first African state to achieve independence epitomizes both the political gyrations and the overall stagnation common to many other countries on the continent This work concentrates on the 1969 1982 period in Ghana focusing on two interrelated facets of African politics the decline of state power and authority and adjustments to political recession The author traces the dual patterns of diminution of the state and the adaptation of autonomous coping mechanisms in the separate spheres of political leadership political structures and institutions ideology and political economy The dynamic of state society interactions is then treated in terms of the rhythm of dissent conflict and disengagement Dr Chazan provides a comprehensive study of Ghanaian politics from the 1970s to the present By systematically analyzing the process of political decline and regeneration she highlights similar processes apparent elsewhere in Africa The stress on the subtleties and direction of political change has important implications for policymakers and policy analysts alike

Disentangling Consciencism Martin Odei Ajei,2016-12-06 Kwame Nkrumah is globally recognized as a foremost pan Africanist strategist and statesman He is less widely acknowledged as a philosopher in spite of his considerable philosophical training seminal contribution to African political theory and incisive critique of the ethics of international relations Consciencism has the distinctive status of being the only published book that Nkrumah consciously meant to be a work of his philosophy yet it has failed to attract the focused attention of philosophers The chapters in Disentangling Consciencism Essays on Kwame Nkrumah s Philosophy critically explore the metaphysical ethical and political thought expressed in Consciencism In doing so they broaden our understanding of his philosophical ideas and their relevance for effective African contribution to thought in a contemporary world in which Africa increasingly totters on the margins of international affairs In much of current moral and political thinking there is a tendency to universalize liberal values and neglect non Western philosophical perspectives At the same time global normative thinking is overwhelmingly applied in non Western contexts Writing from across three continents the contributors to this volume establish greater intellectual

connection among African Asian and Western academics and their chapters offer explicit perspectives on the value of Nkrumah's philosophy and on the conceptual basis of early post colonial public policy options in Africa A valuable appendix provides the text of speeches delivered at the 1964 launch of Consciencism With insights into numerous dimensions of Nkrumah's philosophy this volume will be of particular interest to students and scholars of philosophy especially of non Western metaphysical moral and political thought and to anyone working in the history of African political theory *Kwame Nkrumah's Political Kingdom and Pan-Africanism Reinterpreted, 1909-1972* A.B. Assensoh, Yvette M.

Alex-Assensoh, 2022-02-07 Kwame Nkrumah's Political Kingdom and Pan Africanism Reinterpreted 1909-1972 provides an in depth study of the life of the late Pan African leader from the former Gold Coast Kwame Nkrumah Authors A B Assensoh and Yvette M Alex Assensoh analyze Nkrumah's life from his birth on the Gold Coast through his studies in the United Kingdom and the United States his activism and political life and his exile and death Throughout Assensoh and Alex Assensoh present a twenty first century reinterpretation of Nkrumah's Pan Africanist views in the context of Black unity as well as Black liberation within the African continent and the United States and Caribbean diaspora The Theory of Categorical Conversion Dompere, Kofi Kissi, 2017-09-17 The Theory of Categorical Conversion is advanced by Professor Kofi Kissi Dompere as mathematical philosophical and game theoretic foundations to solve the problem of socio natural transformation as governed by some internal process in relation to Marx Schumpeter and Nkrumah Dompere's methodology is based on the Africentric principles of opposites made up of actual potential polarity negative positive duality with relational continuum and unity under cost benefit rationality and Asantrofi Anoma principle supported by fuzzy paradigm of thought Socio natural transformations are seen in terms of game theories in a fuzzy stochastic space admitting of defective deceptive information structures in quality quantity space within the subjective objective duality The main premise of the monograph is that there exists a set of necessary and sufficient conditions for internal self transformation The necessary conditions are made up of categorial moments and categorial transfer functions forming the domain of control instrumentation in creating the sufficient conditions for categorial conversion processes Dompere presents an important methodological framework for the study and construction of the theories of socioeconomic development and political change as well as info dynamics connecting knowledge sciences innovation and engineering to the space of knowing under qualitative quantitative transformational dynamics with defective deceptive information structures in the games for power and dominance by duals and poles in conflicts The necessary conditions of socio natural transformation are internally derived based on the relational structure of matter energy information activities within the dynamics of qualitative dispositions of dualities of actual potential polarities The theory consists of category formation showing ontological epistemological categories and categorial dynamics shows elemental conversions of categorial varieties in a continuum The logical tools and the paradigm of thought for the theoretical development of Nkrumah's framework involve self excitement self correction and self control systems induced by internal

contradictions The set of necessary conditions constitutes the natural necessity that constrains cognitive freedom in socio natural transformations Had this conceptual system been familiar to economists and social scientists the construct of the theories of socioeconomic development and transformations would have been increasingly successful **Kwame Nkrumah's Quest for Restoration** Tunde Adeleke,2025-09-04 Examining Kwame Nkrumah s time in exile Tunde Adeleke challenges existing and popular understandings of Nkrumah s ideas and struggles In Kwame Nkrumah s Quest for Restoration Nkrumaism and Pan Africanism in Exile Tunde Adeleke examines Kwame Nkrumah s life and the six years he spent in exile in Conakry Guinea exploring the extraordinary efforts and resources he invested on attempts to return and regain political power Adeleke contends that Nkrumah s overthrow and exile compelled him to reimagine revise and fundamentally alter the essence of Pan Africanism This book shows how Nkrumah spearheaded the Pan Africanist movement for greater continental unification deviating from some of the essential values and principles of Pan Africanism His time in exile exposed a personality in sharp contrast to the consummate Pan Africanist memorialized in Black Nationalist discourses Through textual analysis of Nkrumah s letters and political writings Adeleke argues that Nkrumah s fundamental change and redirection on Pan Africanism not only shaped the movement s new purpose but also impacted Ghana Reflections on Leadership and Institutions in Africa Kenneth Kalu,Toyin Falola,2020-05-22 This book contains different reflections on leadership and institutions in Africa Drawing from different ideological and methodological orientations the book highlights how leadership and institutions have shaped and continue to shape the trajectory of Africa s political and economic development The book explores different epochs in Africa s history from the era of colonialism to the period of nationalist movements and up to post colonial Africa Essays in the volume engage with major actors and important institutions that defined each era By presenting various reflections and representations of leadership and institutions in Africa this book attempts to make the connection between leadership and institutions on the one hand and between these variables and Africa s development on the other Similar to most studies on Africa s political economy the book considers the role of external forces whether operationalized through direct interventions as was the case during the colonial era or through subtle imposition of policies as has been the new model in post colonial times Drawing from these lenses issues around Africa s dependency on external interventions neo colonialism neoliberalism and disregard for Africa s culture are explored and contextualized within the framework of leadership and institutions The Case against Afrocentrism Tunde Adeleke,2011-01-05 Postcolonial discourses on African Diaspora history and relations have traditionally focused intensely on highlighting the common experiences and links between black Africans and African Americans This is especially true of Afrocentric scholars and supporters who use Africa to construct and validate a monolithic racial and culturally essentialist worldview Publications by Afrocentric scholars such as Molefi Asante Marimba Ani Maulana Karenga and the late John Henrik Clarke have emphasized the centrality of Africa to the construction of Afrocentric essentialism In the last fifteen years

however countervailing critical scholarship has challenged essentialist interpretations of Diaspora history Critics such as Stephen Howe Yaacov Shavit and Clarence Walker have questioned and refuted the intellectual and cultural underpinnings of Afrocentric essentialist ideology Tunde Adeleke deconstructs Afrocentric essentialism by illuminating and interrogating the problematic situation of Africa as the foundation of a racialized worldwide African Diaspora He attempts to fill an intellectual gap by analyzing the contradictions in Afrocentric representations of the continent These include multiple conflicting and ambivalent portraits of Africa the use of the continent as a global unifying identity for all blacks the de emphasizing and nullification of New World acculturation and the ahistoristic construction of a monolithic African Diaspora worldwide

African Philosophy, Second Edition Paulin J. HOUNTONDJI, 1996-11-22 Hountondji contends that ideological manifestations of this view that stress the uniqueness of the African experience are protonationalist reactions against colonialism conducted paradoxically in the terms of colonialist discourse Hountondji argues that a genuine African philosophy must assimilate and transcend the theoretical heritage of Western philosophy and must reflect a rigorous process of independent scientific inquiry

Left Universalism, Africentric Essays Ato Sekyi-Otu, 2018-08-06 Left Universalism Africentric Essays presents a defense of universalism as the foundation of moral and political arguments and commitments Consisting of five intertwined essays the book claims that centering such arguments and commitments on a particular place in this instance the African world is entirely compatible with that foundational universalism Ato Sekyi Otu thus proposes a less conventional mode of Africentrism one that rejects the usual hostility to universalism as an imperialist Eurocentric hoax Sekyi Otu argues that universalism is an inescapable presupposition of ethical judgment in general and critique in particular and that it is especially indispensable for radical criticism of conditions of existence in postcolonial society and for vindicating visions of social regeneration The constituent chapters of the book are exhibits of that argument and question some fashionable conceptual oppositions and value apartheid This book will be of great interest to students and scholars in the fields of social and political philosophy contemporary political theory postcolonial studies African philosophy and social thought

Polyrhythmicity Kofi Kissi Dompere, 2006-03-31 The modern works on African philosophy have not been integrated and fully connected to Africa's antiquity in order to provide a foundational unity for further intellectual refinement The philosophical dimensions of humanism Nkrumah's concept of categorial conversion African concepts of duality polarity unity continual creation and democratic ideals must be shown their African centered origins In considering African philosophy there arise conceptual and logical gaps that require the development of fundamental cognitive unity from the available data with judicious interpretation and restructuring in order to define the parameters of African philosophical unity that will allow these gaps to be closed for intellectual continuity This monograph is devoted to the establishment of the foundations for the development of Africa's intellectual continuity and cognitive unity from antiquity to the present Its main premise is that there is African philosophy with its own method of reasoning analysis and synthesis The monograph initiates

self contained philosophical foundations for African intellectual unity that is required to support African cultural unity African personality African essence and humanism needed for the creation of Greater Africa that is implied by African Union These philosophical foundations it is argued formed the thinking system for Africa s social construct law economics politics and governance of empires kingdoms and social units that have come to pass These philosophical foundations constitute the thinking system that must guide current and future Africa s socioeconomic dynamics The monograph discusses also Africa s contributions to the global intellectual heritage by showing the relationships among foundations of African philosophical tradition and other philosophical systems that lead to rediviva Africana It presents the principles of cognitive unity and continuity on the held position that without clearly developed Africa s philosophical foundations from its antiquity providing intellectual unity and cognitive continuity complete emancipation of Africa will be a mere mimicking of intellectual faults of other nations and philosophical systems The research by African scholars and others on specific philosophical thoughts from different areas of Africa is useful materials that must be integrated into cognitive unity by accepting those that fit and rejecting those that do not fit by a defined logical process Mindful of this a case is thus made in this monograph for African cognitive unity and supporting reasoning methods The system of ideas and perceptive interpretations of relevant data is here referred to as Africentricity and its philosophical foundations that project thought as polyrhythmicity while the study of logic of reasoning about methodological and epistemic problems of polyrhythmicity and Africentricity is referred to as polyrhythmics On practical level these philosophical foundations are shown to support the conceptual basis of Nguzo Saba the Seven Principles of Kwanzaa The monograph would be of interest to philosophers in general professionals researchers and students engaged in African philosophy African studies Black studies socio political philosophy and those interested in knowing the thinking system on the basis of which African essence arises and African social formations were constructed and governed from antiquity **Colonialism, Independence, and the Construction of Nation-States** Forrest D.

Colburn,2020-09-29 This book investigates studies on colonialism and anti colonialism from Africa the Middle East Asia and Latin America The author begins by recounting the deleterious impact of colonialism and then focuses on the heady days of anti colonialism nationalism He traces how the system fell apart leaders especially those of the second generation often turned out to be inept and corrupt structural obstacles led poor countries to continue to depend on the export of commodities advanced countries promised to help but did not prove useful when growth was possible here and there the fruits of development were seldom distributed widely This project will appeal to the academics researchers and students in the fields of comparative politics development studies government and economics *LASU Social Sciences Journal* ,1990 **Taking African Cartoons Seriously** Peter Limb,Tejumola Olaniyan,2018-10-01 Cartoonists make us laugh and think by caricaturing daily events and politics The essays interviews and cartoons presented in this innovative book vividly demonstrate the rich diversity of cartooning across Africa and highlight issues facing its cartoonists today such as sociopolitical trends censorship
