Private Military and Security Companies and States Christopher Spearin, 2017-08-02 This book identifies and explains the functional and ideational boundaries regarding what states and Private Military and Security Companies PMSCs both do and possess regarding land power sea power and air power Whereas the mercenaries privateers and chartered companies of years past held similar characteristics to state military forces the PMSCs of today are dissimilar for two reasons a conventional forces norm amongst states and a state proclivity towards the offensive These factors reveal both the limitations of and the possibilities for contemporary security privatization This volume is ideal for civilian and military practitioners and students wishing to develop a detailed understanding of what the private military and security industry has to offer and why it is structured the way it is

Mercenaries Col. Michael Lee Lanning, 2007-12-18 SOLDIERS OF Privateers

contract killers corporate warriors Contract soldiers go by many names but they all have one thing in common They fight for money and plunder rather than liberty God or country Now acclaimed author and war vet Michael Lee Lanning traces the compelling history of these fighting machines from the Sea Peoples who fought for the pharaohs greater glory to today s soldiers for hire from private military companies PMCs in Iraq and Afghanistan What emerges is a fascinating account of the men who fight other people s wars the Greeks who built an empire for Alexander the Great the Nubians who accompanied Hannibal across the Alps the Irish who became the first to go global in their search for work Soldiers of fortune have always had the power to change the course of war and Lanning examines their pivotal roles in individual battles and in the rise and fall of empires As the employment of contract soldiers spreads in Iraq and America's War on Terrorism the U S paid 30 billion to PMCs in 2003 alone Mercenaries offers a valuable inside look at a system that appears embedded in our nation s future Includes eight pages of photographs **Soldiers of Fortune** Anthony Rogers, 2022-03-17 This highly illustrated title traces the development of mercenary soldiering from individuals and small units in the African wars of the 1960s 90s to today s state employed corporate military contractors. The phenomenon of mercenary soldiering has constantly recurred in the news since the 1960s and has always attracted lively interest The concept of mercenaries began in the former Belgian Congo during the 1960s when men such as Mike Hoare and Bob Denard assembled hundreds of military veterans to do the fighting for a particular leader or faction This idea soon evolved into small teams of individuals training and leading local forces with varying success wars in Rhodesia and on South Africa's borders attracted foreign volunteers into national armed forces and veterans of these conflicts later sought employment elsewhere as mercenaries The wars in the former Yugoslavia also attracted foreign fighters inspired as much by political and religious motives as by pay This picture then evolved again as former officers with recent experience set up sophisticated commercial companies to identify and fill the needs of governments whose own militaries were inadequate Most recently the aftermath of wars in Iraq and Afghanistan has seen such contractors taking on some of the burden of long term security off major national armies while the subsequent rise of ISIS Daesh has added a parallel strain of ideological volunteers The author is well placed to describe how the face of mercenary soldiering has evolved and changed over 60 years Using first hand accounts photos and detailed illustrations this book presents a compelling snapshot of the life campaigns and kit used by mercenary operatives engaged in fighting within both larger and more specific conflicts around the world Mercenaries Abdel-Fatau Musah, Kayode Fayemi, J. 'Kayode Fayemi, 2000 Second volume of Deutscher prize winning trilogy on the future of IR tracing the defining characteristics of Private Security Companies during the Irag War Scott Fitzsimmons, 2015-07-16 This book foreign encounters over time explores the use of deadly force by private security companies during the Iraq War The work focuses on and compares the activities of the US companies Blackwater and Dyncorp Despite sharing several important characteristics such as working for the same client the US State Department during the same time period the employees of Blackwater fired their weapons far

more often and killed and seriously injured far more people in Iraq than their counterparts in DynCorp In order to explain this disparity the book undertakes the most comprehensive analysis ever attempted on the use of violence by the employees of these firms Based on extensive empirical research it offers a credible explanation for this difference Blackwater maintained a relatively bellicose military culture that placed strong emphasis on norms encouraging its personnel to exercise personal initiative proactive use of force and an exclusive approach to security which together motivated its personnel to use violence quite freely against anyone they suspected of posing a threat Specifically Blackwater's military culture motivated its personnel to fire upon suspected threats more quickly at greater distances and with a greater quantity of bullets and to more readily abandon the people they shot at when compared to DynCorp's personnel who maintained a military culture that encouraged far less violent behaviour Utilizing the Private Security Company Violent Incident Dataset PSCVID created by the author in 2012 the book draws upon data on hundreds of violent incidents involving private security personnel in Iraq to identify trends in the behaviour exhibited by the employees of different firms Based on this rich and original empirical data the book provides the definitive study of contemporary private security personnel in the Iraq War This book will be of much interest to students of the Iraq War Private Security Companies Military Studies War and Conflict Studies and IR in general
