Bee Gees

La canción 'Someone Belong To Someone' de los Bee Gees es una profunda reflexión sobre la soledad y la búsqueda del amor verdadero. La letra expresa un sentimiento de aislamiento y desolación, especialmente en la oscuridad de la noche, cuando el protagonista se siente más vulnerable. La frase 'There can be no love for me now' sugiere una desesperanza profunda, una sensación de que el amor es inalcanzable en su situación actual. *Strugglebook* Robert Thornborough, 2008-08-05 *Strugglebook* A Logical Search for the Truth of GOD explores the probability for the existence of God based primarily on the logic derived from science While it addresses issues applicable to theology it is not a theological work There are literally hundreds of books on this subject most detailing a standard set of arguments This book follows that pattern for the first part but then extends itself into a series of coalescing arguments built on the latest science all of which results in a unique presentation on the subject Forming a conclusion respecting the reality of God on something as cold as logic is contrary to approaches generally considered acceptable to religious organizations that favor perhaps more ephemeral means based on redemption and faith Those approaches based on other than logic have proven very successful for many individuals That notwithstanding the author is representative of that very large group of people who live in environments replete with corporate missions budget building and spreadsheets strength weakness opportunity and threat exercises performance yields compensation management management by objective measuring outcomes and mini MBA courses The resulting objectivity built through vocation results for many individuals including the author in a need to question the rationale behind faith and God This book is the record of a search for the reality of God consistent with satisfying the needs dictated by the logic often demanded by the modern mind Do world and personal events result in a questioning of your faith Do you wonder about a God that could allow 9 11 or the deaths of tens of thousands in a cyclone Have you watched as someone you love suffers and as a result questioned the very existence of God Have the truths of modern science served to displace your belief in God Does your working life consumed with spreadsheets schedules logical analysis objectives investment returns getting the job done on time and all the other appendages of working life impose an atmosphere that works against belief in God Do you feel unsure about sharing your beliefs with others because you may be ridiculed Have you been exposed to the views of Richard Dawkins through his book *The God Delusion* or other well known atheists who attempt seemingly with some success to use science to prove God doesn't

exist and in so doing relegate your beliefs as unworthy These questions and situations imposed themselves on the author of this book an educator and computer application designer who decided to take a year out of his life and find the answers This book chronicles his search for the truth of God Calling on history and using the very latest scientific knowledge coupled with related philosophy and sometimes delivered somewhat irreverently the book delves into the issues presenting positive and dissenting views respecting the existence of God and then argues the case from the data presented The reader shares the full rationale for decisions made After Globalization LIT Verlag,2024-10-01 After several decades of significantly increasing
