Something In Between:

Something Between Us Krystina Rivers, 2022-04-12 In the waning days of Don't Ask Don't Tell Quinn Prescott and Kirby Davis met during military training. Despite different backgrounds, services, and plans, they fell hard and fast. However, it wasn't long before distance and the pressures of serving in silence drove them apart. Ten years later, Kirby literally runs into Quinn at Chicago Pride. Even in a city of three million, she continues to see Quinn everywhere. She can't seem to ignore the pounding in her chest that isn't always the frustration that Quinn broke her heart. Despite her best efforts to convince herself otherwise, there might still be something between them. Quinn knows she made the biggest mistake of her life when she chose her career over Kirby, and she's desperate to turn their chance meetings into a second chance for romance.

Something Between Us Anand Pandian, 2025-05-27 An anthropologist's quest to understand the deep social and political divides in American society and the everyday strategies that can overcome them. In 2016, Anand Pandian was alarmed by Donald Trump's harsh attacks on immigrants to the United States, the appeal of that politics of anger and fear. In the years that followed, he crisscrossed the country from Fargo, North Dakota to Denton, Texas, from southern California to upstate New York, seeking out fellow Americans with markedly different social and political commitments, trying to understand the forces that have hardened our suspicions of others. The result is *Something Between Us: The Everyday Walls of American Life and How to Take Them Down*, a groundbreaking and ultimately hopeful exploration of the ruptures in our social fabric and courageous efforts to rebuild a collective life beyond them. The stakes of disconnection have never been higher. From the plight of migrants and refugees to the climate crisis and the recent pandemic, so much turns on the care and concern we can muster for lives and circumstances beyond our own. But as Pandian discovers, such empathy is often thwarted by the infrastructure of everyday American life: fortified homes and neighborhoods, bulked-up cars and trucks, visions of the body as an armored fortress, and media that shut out contrary views. Home and road, body and mind, these interlocking walls sharpen the divide between insiders and outsiders, making it difficult to take unfamiliar people and perspectives seriously, to acknowledge the needs of others and relate to their struggles. Through vivid encounters with Americans of many kinds, including salesmen, truck drivers, police officers, urban planners, and activists for women's rights and environmental justice, Pandian shares tools to think beyond the twists and turns of our bracing present. While our impasses draw from deep American histories of isolation and segregation, he reveals how strategies of mutual aid and communal caretaking can help to surface more radical visions for a life in common with others, ways of meeting strangers in this land as potential kin. There is Something between Them MEHA NICK'S, 2017-03-07 THE SCENE is set in England. Elisa Watson is a strong, sexy, and understanding computer programmer from the city. Her life is going nowhere until she meets Edward Kent, a handsome, smart man with a passion for life. Elisa from then on begins to

In particular, it presents a completely new interpretation of the key word Apeiron or boundless, offering readers a deeper understanding of his seminal cosmology and with it his unique conception of the origin of the universe. Anaximander traditionally applied Apeiron to designate the origin of everything. The authors' investigation of the extant sources shows, however, that this common view misses the mark. They argue that instead of reading Apeiron as a noun, it should be considered an adjective with reference to the term physis, nature, and that the phrase physis apeiros may express the boundless power of nature responsible for all creation and growth. The authors also offer an interpretation of Anaximander's cosmogony from a biological perspective: each further step in the differentiation of the phenomenal world is a continuation of the original separation of a fertile seed. This new reading of the first written account of cosmology stresses the central role of the boundless power of nature. It provides philosophers, researchers, and students with a thought-provoking explanation of this early thinker's conception of generation and destruction in the universe.

Mapping the Edges and the In-between Nancy Nyquist Potter, 2009-06-25 Borderline Personality Disorder (BPD) is a diagnosis given to ten percent of all those seen in outpatient mental health facilities and twenty percent of those seen in inpatient psychiatric units. This is a significant number of people in the Western world. Yet many of the core concepts and symptoms that underlie this diagnosis are questionable. Many of the attitudes and actions of carers are based on assumptions about those with BPD that cry out for analysis with both cultural and gender norms interacting with clinical diagnosis and treatment to the detriment of both carers and patients. This book considers how we diagnose BPD, looking at the key constructs: identity disturbance, inappropriate or excessive anger, unstable relationships, impulsivity, self-injurious behaviour, and manipulativity. It starts by looking at the cultural and gender assumptions and norms behind BPD, drawing upon philosophical, clinical, anthropological, and sociological literature. Combining philosophical analysis with clinical experience and patients' writings, it clarifies the constructs so that the reader can understand the messiness and complexity that frames this diagnosis and treatment. After examining the current state of these constructs and their effects on carer-patient interactions, Part II sees an application of virtue theory to therapeutic treatment with BPD patients. It looks at three virtues that are particularly important for clinicians and other carers to cultivate when working with BPD patients: trustworthiness, the virtue of giving uptake, and empathy. It argues that in their absence, not only are clinicians' attitudes harmful to patients, but that the status of the diagnosis is actually compromised. **Mapping the Edges and the In Between** presents a compelling argument that Borderline Personality Disorder needs to be approached in a new light, one that will benefit patients.

Storytelling in Management Practice Stefanie Reissner,Victoria Pagan,2013-06-03 Since the early 2000s storytelling as a means of managerial communication has been

increasingly advocated with a focus on the management practices of leadership change and organizational culture. Most research on storytelling in management practice derives from practitioner experience but little is known about the specific dynamics behind storytelling as a tool for managerial communication. This book derives from one of the first research studies into storytelling in management practice which sought to evaluate the assumed but not necessarily proven effectiveness of storytelling as a management tool. Building on existing theories of narrative and storytelling in organizations, the book explores how managers use storytelling in their daily practice, revealing that it can be employed both purposively like a tool and perceptively spontaneously and intuitively. The book explains that storytelling has different functions in management practice at different levels of the organization such as: Creating direction for the organization; Translating strategic messages into operational ones; and supporting the professional development of staff. Shaping the organization's social fabric through the sharing of personal stories. Aided by a wealth of interviews and case studies, *Storytelling in Management Practice* reveals an analysis of the dynamic relationship between story, storyteller, audience, and organizational context. As such, it will be useful for students and researchers working across a variety of sub-disciplines including leadership, organizational behaviour, and business communication.
