Something Of Value:

Something of Value Rawland Storm, 2014-05-21 The poems within my book have been accumulating over a span of sixty six years Perhaps the thoughts words and feelings were not immediately stored anywhere except my mind and heart but eventually they were written down on paper so I would not forget them Through these poems I have hopefully managed to express the Christian feelings and beliefs I have always felt should be shared with others As I have often said to myself Words are just words until they are heard or read by someone else I have always written and posted my poems on line with only black letters on a white background No colors pictures or music to distract the reader or affect their reaction to my words I grew up listening to the lyrics of songs before music videos began to influence our feelings and thoughts about the words being sung I liked my mental images much better I still do I just want the reader of my words to supply apply some of their own thoughts feelings and images and in doing so make each poem their own **The Practice of Value** Joseph

Raz, Christine Marion Korsgaard, Robert B. Pippin, Bernard Arthur Owen Williams, 2005 The Practice of Value is an exploration of a pervasive but puzzling aspect of our world value The starting point is the Berkeley Tanner Lectures delivered in 2001 by the leading moral theorist Joseph Raz His aim is to make sense of the dependence of value on social practice without falling back on cultural relativism The lectures are followed by discussions from three eminent philosophers Christine Korsgaard Robert Pippin and Bernard Williams and a response from Raz The result is a fascinating debate accessible to readers throughout and beyond philosophy about the relations between **The Value of Humanity** L. Nandi Theunissen, 2020-02-07

L Nandi Theunissen develops a non Kantian account of the value of human beings Against the Kantian tradition in which humanity is absolutely valuable and unlike the value of anything else Theunissen outlines a relational proposal according to which our value is continuous with the value of other valuable things She takes the Socratic starting point that good is affecting and more particularly that good is a notion of benefit If people are bearers of value the proposal is that our value is no exception Theunissen explores the possibility that our value is explained through reciprocal relations or relations of interdependence as when as daughters or teachers or friends we benefit others by being part or constitutive of relationships with them She also investigates the possibility that we can be said to stand in a valuable relationship with ourselves Ultimately in The Value of Humanity she proposes that people are of value because we are constituted in such a way that we can be good for ourselves in the sense that we are able to lead flourishing lives Intuitively a person matters because she matters to herself in a very particular sort of way to appropriate a phrase she is a being for whom her life can be an issue

Something of Value Robert Chester Ruark, 1968 **Sidney Poitier** Aram Goudsouzian, 2011-01-20 In the first full biography of actor Sidney Poitier Aram Goudsouzian analyzes the life and career of a Hollywood legend from his childhood in the Bahamas to his 2002 Oscar for lifetime achievement Poitier is a gifted actor a great American success story an intriguing personality and a political symbol his life and career illuminate America s racial history In such films as Lilies of the Field In

the Heat of the Night and Guess Who's Coming to Dinner Poitier's middle class mannered virtuous screen persona contradicted prevailing film stereotypes of blacks as half wits comic servants or oversexed threats His screen image and public support of nonviolent integration assuaged the fears of a broad political center and by 1968 Poitier was voted America's favorite movie star Through careful readings of every Poitier film Goudsouzian shows that Poitier's characters often made sacrifices for the good of whites and rarely displayed sexuality As the only black leading man during the civil rights era Poitier chose roles and public positions that negotiated the struggle for dignity By 1970 times had changed and Poitier was the target of a backlash from film critics and black radicals as the new heroes of blaxploitation movies reversed the Poitier model In the 1970s Poitier shifted his considerable talents toward directing starring in and producing popular movies that employed many African Americans both on and off screen After a long hiatus he returned to starring roles in the late 1980s More recently the film industry has reappraised his career and Poitier has received numerous honors recognizing his multifaceted work for black equality in Hollywood As this biography affirms Poitier remains one of American popular culture's foremost symbols of the possibilities for and limits of racial equality

Personal Value Toni Rønnow-Rasmussen, 2011-06-23 Certain things like justice have impersonal value Other things like your parents carry personal values they have value for you Besides whatever value they have they are valuable to you The philosophical literature as well as non philosophical literature is inundated with suggestions about the kinds of thing that are good for us or if it is a negative personal value what is bad for us This is a stimulating and vivid area of philosophical research but it has tended to monopolize the notion of good for linking it necessarily to welfare or well being Since these more or less well grounded pieces of advice are seldom accompanied by an analysis of the notion of good for there is a need for such an analysis Rønnow Rasmussen remedies this need by offering a novel way of analyzing the notion of personal value He defends the idea that we have reason to expand our classical value taxonomy with these personal values By fine tuning a pattern of value analysis which has roots in the writings of the Austrian philosopher Franz Brentano this sort of analysis will come to cover personal values too In addition Rønnow Rasmussen makes substantial contributions to a number of issues including hedonism vs preferentialism subjectivism vs objectivism value bearer monism vs value bearer pluralism and the wrong kind of reason problem all of which are much debated among today's value theorists

Intersections of Value Robert Stecker, 2019-04-24 *Intersections of Value* investigates the universal human need for aesthetic experience It examines three appreciative contexts where aesthetic value plays a central role art nature and the everyday However no important appreciative context or practice is completely centered on a single value Hence the book explores the way the aesthetic interacts with moral cognitive and functional values in these contexts The account of aesthetic appreciation is complemented by analyses of the cognitive and ethical value of art the connection between environmental

ethics and aesthetics and the degree to which the aesthetic value of everyday artefacts derives from their basic practical functions Robert Stecker devotes special attention to art as an appreciative context because it is an especially rich arena where different values interact There is an important connection between artistic value and aesthetic value but it is a mistake to reduce the former to the latter Rather artistic value should be seen as complex and pluralistic composed not only of aesthetic but also ethical cognitive and art historical values

Research Handbook on Unjust Enrichment and Restitution Elise Bant,Kit Barker,Simone Degeling,2020-07-31 This comprehensive yet accessible Research Handbook offers an expert guide to the key concepts principles and debates in the modern law of unjust enrichment and restitution

The Nature of Intrinsic Value Michael J. Zimmerman,2001-08-21 At the heart of ethics reside the concepts of good and bad they are at work when we assess whether a person is virtuous or vicious an act right or wrong a decision defensible or indefensible a goal desirable or undesirable But there are many varieties of goodness and badness At their core lie intrinsic goodness and badness the sort of value that something has for its own sake It is in virtue of intrinsic value that other types of value may be understood and hence that we can begin to come to terms with questions of virtue and vice right and wrong and so on This book investigates the nature of intrinsic value just what it is for something to be valuable for its own sake just what sort of thing can have such value just how such a value is to be computed In the final chapter the fruits of this investigation are applied to a discussion of pleasure pain and displeasure and also of moral virtue and vice in order to determine just what value lies within these phenomena

Any Man Do Anything Ronnie Bo,2016-09-15 Is the value of money determined by the Value Of The Vagina Are all women worthy of worship Could one woman change the whole world The answer is yes Yes and YES Why would you allow any man to use you and abuse you like a pet when you could be the master of every man and make them all your puppets Why allow your emotions to be played with like a game when you could be worshipped as a goddess Why allow any man to treat you like trash when you are truly every man s treasure The answer is you don t know your worth You Don t Know Your Worth and YOU DON T KNOW YOUR WORTH Close your legs and open your mind This book contains the key to unlock the psychological chains on your mind so that you could open the doors to freedom fortune and fame This is a man s world But before it was a man s world it was a woman s world And now with this guide available to women worldwide this world will soon be ruled by women once again **The Palgrave Handbook of Applied Ethics and the Criminal Law** Larry Alexander,Kimberly Kessler Ferzan,2019-12-02 This handbook consists of essays on contemporary issues in criminal law and their theoretical underpinnings Some of the essays deal with the relationship between morality and criminalization Others deal with criminalization in the context of specific crimes such as fraud blackmail and revenge pornography The contributors also address questions of responsible agency such as the effects of addiction or insanity and some deal with punishment its mode and severity and the justness of the state s imposition of it These chapters are authored by some of the most distinguished scholars in the fields of applied ethics criminal law and jurisprudence **Rebirth of Value** Frederick Turner,1991-01-30 Rebirth of Value takes as its starting point the emerging scientific view of the universe as a free unpredictable self ordering evolutionary process in which our own cultural history plays a leading part It outlines some of the startling implications of this view for contemporary art literature theater ecological ethics human studies religion and education Turner goes beyond the current fashions of postmodern eclecticism deconstructive critique and self consciousness about genre and ideology Instead he seeks out the creative and positive forces in contemporary culture that underlie the surface features and identifies potent new themes and ideas that drive the trends Among these are the recovery of a pan cultural human nature beauty as a real evolutionary tendency the efficacy and reality of values in general the reunion of the arts sciences and technology a new science including the theory of non linear and self organizing systems top down as well as bottom up causality and a broader conception of causality in general Other themes and ideas discussed are a new environmental ethic in which humans can play a constructive and leading part in the evolution of nature a conception of history as driven by values cybernetic technology as a spiritual development a new religious consciousness including a rich syncretism and a renewal of ritual eternity as a more intense form of time and the essential unity coherence and fertility of knowledge Subjective Morals Steve F. Sapontzis,2012-02-15 Is morality a good thing Is moral relativism a bad thing Traditionally moral philosophers have presumed that the answers to both questions must be yes In today s world however many moralists feel obligated to ban gay marriage or censor whatever they deem offensive and others feel morality

commands them to bomb abortion clinics and fly planes into buildings Unfortunately it has become all too common for such true believers to use moral values to justify their often destructive behavior Today's moral zealotry leaves the value of morality questionable and makes traditional moral philosophy feel pale and irrelevant Subjective Morals breaks with tradition to provide a careful analysis of moral values and the goods and evils they produce This work explores the subjective and objective bases of moral values and details the kinds of truth and justification of which they are and are not capable After analyzing the concepts and categories that structure our moral practice Sapontzis concludes with recommendations for how we may enjoy the benefits of moral values while minimizing their evils

Wrongs and Crimes Victor Tadros, 2016-12-06 The Criminalization series arose from an interdisciplinary investigation into criminalization focussing on the principles that might guide decisions about what kinds of conduct should be criminalized and the forms that criminalization should take Developing a normative theory of criminalization the series tackles the key questions at the heart of the issue what principles and goals should guide legislators in deciding what to criminalize How should criminal wrongs be classified and differentiated How should law enforcement officials apply the law's specifications of offences The sixth volume in the series offers a philosophical investigation of the relationship between moral wrongdoing and criminalization Considering the justification of punishment the nature of harm the importance of autonomy inchoate wrongdoing the role of consent and the role of the state the book provides an account of the nature of moral wrongdoing the sources of wrongdoing why wrongdoing is the central target of the criminal law and the ways in which criminalization of non wrongful conduct might be permissible

Intentionality, Deliberation and Autonomy Sandro Nannini, 2016-05-23 Many important thinkers in the philosophical tradition like Aristotle or Hume have used an explicit theory of action as the basis of their respective normative theories of practical rationality and morality The idea behind this architecture of theories is that action theory can inform us about the origin bonds reach and limits of practical reason The aim of this book is to revive this direct connection between action theory and practical philosophy in particular to provide systematic action theoretical underpinnings for the discussion about the normative structure of practical reason This book brings together a collection of specially commissioned essays from internationally prestigious scholars in the field and represents the state of the art in contemporary philosophy of action The book is divided into three parts i conceptual work about what actions intentions and intentional actions are ii empirical theory of practical deliberation and iii theories about the action theoretic features of autonomy The volume significantly advances these three lines of research and offers important new contributions to each of them

The Oxford Handbook of Value Theory Iwao Hirose, Jonas Olson (College teacher), 2015 Value theory or axiology looks at what things are good or bad how good or bad they are and most fundamentally what it is for a thing to be good or bad Questions about value and

about what is valuable are important to moral philosophers since most moral theories hold that we ought to promote the good even if this is not the only thing we ought to do This Handbook focuses on value theory as it pertains to ethics broadly construed and provides a comprehensive overview of contemporary debates pertaining not only to philosophy but also to other disciplines most notably political theory and economics The Handbook s twenty two newly commissioned chapters are divided into three parts Part I Foundations concerns fundamental and interrelated issues about the nature of value and distinctions between kinds of value Part II Structure concerns formal properties of value that bear on the possibilities of measuring and comparing value Part III Extensions finally considers specific topics ranging from health to freedom where questions of value figure prominently **Engineering Magazine** ,1911
