Este livro um farol de esperança mostrando que mesmo nos momentos mais sombrios a arte e a auto-expressão podem ser um poderoso meio de cura e compreensão. Para quem Este livro para aqueles que estão lutando com problemas de saúde mental para os amantes da poesia lírica e para todos que buscam conforto e conexão através da partilha de experiências humanas. Um vislumbre. No silêncio da noite encontrei minha voz. No caos da minha mente encontrei minha paz. No abismo da minha dor encontrei minha arte. E você está pronto para embarcar nesta jornada de auto-descoberta e encontrar conforto nas palavras de alguém que já esteve lá.

Revista, 1911 **Contemporary Hispanic Poets: Cultural Production in the Global, Digital Age** John Burns, 2015-03-15 Poets writing in Spanish by the end of the twentieth century had to contend with globalization as a backdrop for their literary production. They could embrace it, ignore it, or potentially reimagine the role of the poet altogether. This book examines some of the efforts of Spanish language poets to cope with the globalizing cultural economy of the late twentieth century. This study looks at the similarities and differences in both text and context of poets, some major and some minor, writing in Chile, Mexico, the Mexican American community, and Spain. These poets write in a variety of styles from highly experimental approaches to poetry to more traditional methods of writing. Included in this study are Chileans Raúl Zurita and Cecilia Vicuña, Spaniards Leopoldo María Panero and Luis García Montero, Mexicans Silvia Tomasa Rivera and Guillermo Gómez-Peña, and Mexican American Juan Felipe Herrera. Some of them embrace and are even embraced by media, both old and new, whereas others eschew it. Some continue their work in the vein of national traditions while others become difficult to situate within any one single national tradition. Exploring the varieties of strategies these writers employ, this book makes it clear that Spanish language poets have not been exempt from the process of globalization. Individually, these poets have been studied to varying degrees. Globalization has been studied extensively from a variety of disciplinary approaches, particularly in the context of the Latin American region and Spain. However, it is a relative rarity to see poets being studied as

they are in this work in terms of their relationship to globalization Taken as a sample or snapshot of writing tendencies in Latin American and Spanish poetry of the late twentieth century this book studies them as part of a greater circuit of cultural production by establishing their literary as well as extra literary genealogies and connections It situates these poets in terms of their writing itself as well as in terms of their literary traditions their methods of contending with neoliberal economic models and global information flows from the television and Internet Although many literary critics attempt to study the connections and relationships between poetry and the world beyond the page few monographs go about it the way this one does It takes a transatlantic approach to contemporary Spanish language poetry focusing on poets on poets from Spain and the American continent emphasizing their connections commonalities and differences across increasingly porous borders in the age of information The relationship between text and context is explored with a cultural studies approach more often associated with media studies than with literary studies Literature is not treated as a privileged object of isolated study but rather as a system of ideas and images that is deeply interwoven with other forms of human expression that have arisen in the last decades of the twentieth century The result is a suggestive analysis of the figure of the poet in the broader globalized marketplace of cultural goods and ideas Contemporary Hispanic Poets Cultural Production in the Global Digital Age is an important book for library collections in Spanish Latin American and Iberian Studies Chicano Studies **Blessed Anastacia**

John Burdick, 2013-01-11 The weakness of Brazil's black consciousness movement is commonly attributed to the fragility of Afro-Brazilian ethnic identity In a major account John Burdick challenges this view by revealing the many layered reality of popular black consciousness and identity in an arena that is usually overlooked that of popular Christianity Blessed Anastacia describes how popular Christianity confronts everyday racism and contributes to the formation of racial identity The author concludes that if organizers of the black consciousness movement were to recognize the profound racial meaning inherent in this area of popular religiosity they might be more successful in bridging the gap with its poor and working class constituency
