Carnegie suggests that to people from the Caribbean migration is simply one of many ways to pursue a better future and to survive in a world over which they have little control Carnegie shows not only that the nation state is an exhausted form of political organization but that in the Caribbean the ideological and political reach of the nation state has always been tenuous at best Caribbean peoples he suggests live continually in breach of the nation state configuration Drawing both on his own experiences as a Jamaican born anthropologist and on the examples provided by those who have always considered national borders as little more than artificial administrative nuisances Carnegie investigates a fascinating spectrum of individuals including Marcus Garvey traders black albinos and Caribbean Ba hais If these people have not themselves developed a scholarly doctrine of transnationalism they have nevertheless effectively lived its demand and prefigured a postnational life
