movement as most Americans recognize it black families across the U S were fighting the battle against discrimination Grant s father a lawyer and civil rights activist in St Louis in the 1950s was among the less well known resisters of segregation eventually working with more prominent figures from Thurgood Marshall to Ralph Bunche and A Phillip Randolph to fight racial inequities in St Louis Grant recalls a long line of family resisters middle class business owners who were always on the

forefront of the racial divide challenging Jim Crow laws and practices while sustaining the social and economic underpinnings of the segregated black community Grant describes growing up with the gut wrenching unknowing of whether she would be welcomed in a store or business or turned away because of her race As barriers were broken Grant went on to a 20 year career in the foreign service with the U S Information Agency This is a fascinating look at the struggles of one black family that mirrored the national struggle for civil rights Copyright 2008 Booklist Reviews      And Justice for All Mary Frances Berry,2009-01-20 This is the story of the U S Commission on Civil Rights through its extraordinary fifty years at the heart of the civil rights movement and the struggle for justice in America Mary Frances Berry the commission s chairperson for more than a decade author of *My Face Is Black Is True* An essential chapter in American history from a distinguished historian Nell Painter tells of the commission s founding in 1957 by President Eisenhower in response to burgeoning civil rights protests how it was designed to be an independent bipartisan Federal agency made up of six members with no more than three from one political party free of interference from Congress and presidents beholden to no government body with full subpoena power and free to decide what it would investigate and report on Berry writes that the commission rather than producing reports that would gather dust on the shelves began to hold hearings even as it was under attack from Southern segregationists She writes how the commission s hearings and reports helped the nonviolent protest movement prick the conscience of the nation then on the road to dismantling segregation beginning with the battles in Montgomery and Little Rock the sit ins and freedom rides the March on Washington We see how reluctant government witnesses and local citizens overcame their fear of reprisal and courageously came forward to testify before the commission how the commission was instrumental in passing the Civil Rights Act of 1964 and the Voting Rights Act of 1965 how Congress soon added to the commission s jurisdiction the overseeing of discriminating practices with regard to sex age and disability which helped in the enactment of the Age Discrimination Act of 1978 and the Americans With Disabilities Act of 1990 Berry writes about how the commission s monitoring of police community relations and affirmative action was fought by various U S presidents chief among them Ronald Reagan and George W Bush each of whom fired commissioners who disagreed with their policies among them Dr Berry replacing them with commissioners who supported their ideological objectives and how these commissioners began to downplay the need to remedy discrimination ignoring reports of unequal access to health care and employment opportunities Finally Dr Berry s book makes clear what is needed for the future a reconfigured commission fully independent with an expanded mandate to help oversee all human rights and to make good the promise of democracy equal protection under the law regardless of race color sexual orientation religion disability or national origin      *Meet Me in the Lobby* Candace O'Connor,2005      **Make Your Own History** Joseph H. **Stories from Trailblazing Women Lawyers** Jill Norgren, 2018-05-22 History told through the words of one hundred groundbreaking female lawyers Their stories are both a window into the past and a beacon for the future Virginia G Drachman author of *Sisters in Law* In 1950 Harvard Law School began to admit women But for those wanting to enter the profession the terms of engagement were clear Only a few women would be admitted each year to American law schools and after graduation their opportunities would never equal those open to similarly qualified men At many law schools well into the 1970s men told female students that they were taking a place that might be better used by a male student who would have a career not babies In 2005 the American Bar Association's Commission on Women in the Profession initiated a national oral history project named *Women Trailblazers in the Law* One hundred outstanding senior women lawyers among them such famed figures as Ruth Bader

Ginsburg Janet Reno Norma Shapiro and Catherine Roraback were asked to give their personal and professional histories in interviews conducted by younger colleagues The interviews made available to the author permit these women to be written into history in their words words that evoke pain as well as celebration humor and somber reflection These are women attorneys who in courtrooms classrooms government agencies and NGOs have rattled the world with insistent and successful demands to reshape their profession and their society They are women who brought nothing short of a revolution to the profession of law In this book award winning legal historian Jill Norgren curates these compelling stories using them to describe the profound changes that began in the late 1960s and interweaving social and legal history with the women s individual experiences An inspirational story of individual successes and even more important a historical analysis of the march toward improved gender equality in America Trial Magazine *Gateway to Equality* Keona K. Ervin, 2017-07-28 Like most of the nation during the 1930s St Louis Missouri was caught in the stifling grip of the Great Depression For the next thirty years the Gateway City continued to experience significant urban decline as its population swelled and the area s industries stagnated Over these decades many African American citizens in the region found themselves struggling financially and fighting for access to profitable jobs and suitable working conditions To combat ingrained racism crippling levels of poverty and sub standard living conditions black women worked together to form a community based culture of resistance fighting for employment a living wage dignity representation and political leadership *Gateway to Equality* investigates black working class women s struggle for economic justice from the rise of New Deal liberalism in the 1930s to the social upheavals of the 1960s Author Keona K Ervin explains that the conditions in twentieth century St Louis were uniquely conducive to the rise of this movement since the city s economy was based on light industries that employed women such as textiles and food processing As part of the Great Migration black women migrated to the city at a higher rate than their male counterparts and labor and black freedom movements relied less on a charismatic male leadership model This made it possible for women to emerge as visible and influential leaders in both formal and informal capacities In this impressive study Ervin presents a stunning account of the ways in which black working class women creatively fused racial and economic justice By illustrating that their politics played an important role in defining urban political agendas her work sheds light on an unexplored aspect of community activism and illuminates the complexities of the overlapping civil rights and labor movements during the first half of the twentieth century **A State-by-State History of Race and Racism in the United States** Patricia Reid-Merritt, 2018-12-07 Providing chronologies of important events historical narratives from the first settlement to the present and biographies of major figures this work offers readers an unseen look at the history of racism from the perspective of individual states From the initial impact of European settlement on indigenous populations to the racial divides caused by immigration and police shootings in the 21st century each American state has imposed some form of racial restriction on its residents The United States proclaims a belief in freedom and justice for all but members of

various minority racial groups have often faced a different reality as seen in such examples as the forcible dispossession of indigenous peoples during the Trail of Tears Jim Crow laws crushing discrimination of blacks and the manifest unfairness of the Chinese Exclusion Act Including the District of Columbia the 51 entries in these two volumes cover the state specific histories of all of the major minority and immigrant groups in the United States including African Americans Hispanics Asian Americans and Native Americans Every state has had a unique experience in attempting to build a community comprising multiple racial groups and the chronologies narratives and biographies that compose the entries in this collection explore the consequences of racism from states perspectives revealing distinct new insights into their respective racial histories

*Grassroots at the Gateway* Clarence Lang,2010-04-23 This is a theoretically sophisticated and thoroughly documented historical case study of the movements for African American liberation in St Louis Through detailed analysis of black working class mobilization from the depression years to the advent of Black Power award winning historian Clarence Lang describes how the advances made in earlier decades were undermined by a black middle class agenda that focused on the narrow aims of black capitalists and politicians The book is a major contribution to our understanding of the black working class insurgency that underpinned the civil rights and Black Power campaigns of the twentieth century V P Franklin University of California Riverside A major work of scholarship that will transform historical understanding of the pivotal role that class politics played in both civil rights and Black Power activism in the United States Clarence Lang s insightful engagingly written and well researched study will prove indispensable to scholars and students of postwar American history Peniel Joseph Brandeis University Breaking new ground in the field of Black Freedom Studies *Grassroots at the Gateway* reveals how urban black working class communities cultures and institutions propelled the major African American social movements in the period between the Great Depression and the end of the Great Society Using the city of St Louis in the border state of Missouri as a case study author Clarence Lang undermines the notion that a unified black community engaged in the push for equality justice and respect Instead black social movements of the working class were distinct from and at times in conflict with those of the middle class This richly researched book delves into African American oral histories records of activist individuals and organizations archives of the black advocacy press and even the records of the St Louis economic power brokers whom local black freedom fighters challenged *Grassroots at the Gateway* charts the development of this race class divide offering an uncommon reading of not only the civil rights movement but also the emergence and consolidation of a black working class Clarence Lang is Assistant Professor in African American Studies and History at the University of Illinois at Urbana Champaign Photo courtesy Western Historical Manuscript Collection University of Missouri St Louis
