Story of Libraries Fred Lerner, 2001-02-01 This work describes the crucial role libraries played in ancient Egypt Han dynasty China the ancient Western Classical world the great library of Alexandria which was lost to us in stages over many years the Baghdad of Harun al Rashid and medieval and Renaissance Europe It continues with the libraries of colonial America the Library of Congress university libraries and today s large public library system The Story of Libraries Transferred Illusions Marilyn Deegan, Kathryn Sutherland, 2016-02-24 This is a study of Frederick Andrew Lerner. 2009 the forms and institutions of print newspapers books scholarly editions publishing libraries as they relate to and are changed by emergent digital forms and institutions In the early 1990s hypertext was briefly hailed as a liberating writing tool for non linear creation Fast forward no more than a decade and we are reading old books from screens It is however the newspaper for around two hundred years print s most powerful mass vehicle whose economy persuasively shapes its electronic remediation through huge digitization initiatives dominated by a handful of centralizing service providers funded and wrapped round by online advertising The error is to assume a culture of total replacement The Internet is just another information space sharing characteristics that have always defined such spaces wonderfully effective and unstable loaded with valuable resources and misinformation that is both good and bad This is why it is important that writers critics publishers and librarians in modern parlance the knowledge providers be critically engaged in shaping and regulating cyberspace and not merely the passive instruments or unreflecting users of the digital tools in our hands Through the Ages Frederick Andrew Lerner, 1999-01-01 A history of libraries throughout the world from those of the ancient Sumerians and Egyptians to the comprehensive libraries of today International Dictionary of Library Histories David H. Stam, 2001-11-01 Following the format of Fitzroy Dearborn's highly successful International Dictionary of Historic Places and International Dictionary of University Histories the International Dictionary of Library Histories provides basic information for each institution location and holdings followed by an extensive 1 000 5 000 word essay on its history as well as a Further Reading list In addition the dictionary includes introductory articles on the history of various types of libraries and a library history in various regions of the world The dictionary profiles more than 200 institutions from around the world including the world's most important research libraries and other libraries with globally or regionally notable collections innovative traditions and significant and interesting histories. The essays take advantage of the growing scholarship of library history to provide insightful overviews of each institution including not only the traditional values of these libraries but their innovations as well such as developments in automated systems and electronic delivery The profiles will emphasize the unique materials of research in these institutions archives manuscripts personal and institutional papers The introductory articles on types of libraries include topics ranging from theological libraries to prison libraries from the ancient to the digital An international team of more than 200 leading scholars in the field have contributed essays to the project The New

Downtown Library Shannon Christine Mattern, 2007 The past twenty years have seen a building boom for downtown public libraries From Brooklyn to Seattle architects civic leaders and citizens in major U S cities have worked to reassert the relevance of the central library While the libraries primary functions as public spaces where information is gathered organized preserved and made available for use have not changed over the years the processes by which they accomplish these goals have These new processes and the public debates surrounding them have radically influenced the utility and design of new library buildings In The New Downtown Library Shannon Mattern draws on a diverse range of sources to investigate how libraries serve as multiuse public spaces anchors in urban redevelopment civic icons and showcases of renowned architects like Rem Koolhaas Cesar Pelli and Enrique Norton Mattern's clear and careful analysis reveals the complexity of contemporary dialogues in library design highlighting the roles that staff the public and other special interest groups play Mattern also describes how the libraries manifest changing demographics new ways of organizing collections and delivering media and current philosophies of librarianship By identifying unifying themes as well as examining the differences among various design projects Mattern brings to light the social forces as well as their architectural expressions that form the essence of new libraries and their vital place in public life Featured libraries are located in Brooklyn Cincinnati Cleveland Chicago Denver Los Angeles Minneapolis Nashville New York Phoenix Salt Lake City San Antonio San Francisco Seattle and Toledo Shannon Mattern is assistant professor of media studies and film at The New School **Everything** Judith Flanders, 2020-10-20 From a New York Times bestselling historian comes the story of how the alphabet ordered our world A Place for Everything is the first ever history of alphabetization from the Library of Alexandria to Wikipedia The story of alphabetical order has been shaped by some of history s most compelling characters such as industrious and enthusiastic early adopter Samuel Pepys and dedicated alphabet champion Denis Diderot But though even George Washington was a proponent many others stuck to older forms of classification Yale listed its students by their family s social status until 1886 And yet while the order of the alphabet now rules libraries phone books reference books even the order of entry for the teams at the Olympic Games it has remained curiously invisible With abundant inquisitiveness and wry humor historian Judith Flanders traces the triumph of alphabetical order and offers a compendium of Western knowledge from A to Z A Times UK Best Book of 2020 Foundations of Information Policy Paul T. Jaeger, Natalie Greene Taylor, 2019-07-03 Foreword by Alan S Inouye Afterword by Nancy Kranich The first of its kind this important new text provides a much needed introduction to the myriad information policy issues that impact information professionals information institutions and the patrons and communities served by those institutions In this key textbook for LIS students and reference text for practitioners noted scholars Jaeger and Taylor draw from current authoritative sources to familiarize readers with the history of information policy discuss the broader societal issues shaped by policy including access to infrastructure digital literacy and inclusion accessibility and security elucidate the specific laws regulations and policies that impact information including net neutrality filtering privacy openness and much more use case studies from a range of institutions to examine the issues bolstered by discussion questions that encourage readers to delve more deeply explore the intersections of information policy with human rights civil rights and professional ethics and prepare readers to turn their growing understanding of information policy into action through activism advocacy and education This book will help future and current information professionals better understand the impacts of information policy on their activities improving their ability to serve as effective advocates on behalf of their institutions patrons and communities **How to Launch an Author** Awards Program at Your Library Julianne T. Stam, Elizabeth Clemmons, 2015-12-07 Establishing an awards program for self published authors offers libraries new ways to bolster their relevance and expand upon their roles as curators and keepers of story This guide shows you how For many reasons up until now librarians have ignored the nearly half million self published books available for purchase This book details how to find and promote librarian curated self published books covering every step in the process from assembling a committee and recruiting judges to soliciting submissions handling the nominated authors judging the entries and promoting the contest and contest winner Written by the founding members of the Soon to be Famous Illinois Author Project the first librarian curated award for self published works this book shows you how to use the process outlined by these library marketing professionals to run a successful author awards program You can also apply their proven methods and tools to evaluate self published books written by local authors that you are considering adding to your collections Metadata for Transmedia Resources Ana Vukadin, 2019-07-13 Transmedia is a technique of delivering a single piece of content in individual parts via different media and communication platforms books films TV shows games live performances etc In the book transmedia is considered as a case in point for the need to rethink library cataloguing and metadata practices in a new heterogeneous information environment where the ability to bring together information from various sources into a meaningful whole becomes a critical information skill Transmedia sheds new light on some of the long existing questions of bibliographic information organisation the definition of work modelling of bibliographic relationships subject analysis of fiction etc and introduces libraries to new transient and interactive media forms such as interactive fiction gaming events or performances. The book investigates how various theories and practices of bibliographic information organisation can be applied to transmedia focusing on the solutions provided by the new bibliographic conceptual model IFLA LRM as well as linked open data models and standards It strongly advocates collaborative practices and reuse of knowledge that underpin an emerging vision of the library catalogue as a mediation tool that assembles links and integrates information across a variety of communication contexts Explores transmedia from the point of view of information organisation Presents one of the first extensive analyses of the IFLA LRM bibliographic conceptual model Uses examples of recent publishing practices to assess current bibliographic data models standards formats and technologies The Apocalypse Is Everywhere Anne Rehill, 2009-11-12 This wide ranging exploration of the apocalypse in Western

culture seeks to understand how we have come to be so preoccupied with spectacular visions of our own annihilation offering abundant examples of the changing nature of our imagined destruction and predisposing readers to discover many more all around them The Apocalypse Is Everywhere A Popular History of America's Favorite Nightmare explores why apocalyptic thinking exists how it has been manifested in Western culture through the ages and how it has woven itself so thoroughly into our popular culture today Beginning with contemporary apocalyptic expressions the book demonstrates how surprisingly widespread they are It then discusses how we inherited them and where they arose Author Annie Rehill surveys the ancient belief systems from which Christianity evolved including ancient Judaism and other faiths She explores the vision outlined in the Book of Revelation and traces the apocalyptic thread through the Middle Ages across the Reformation and Enlightenment and to the Americas Finally to prove that the Apocalypse is indeed everywhere Rehill returns to the present to consider the idea of apocalypse as it occurs in movies books comics and graphic novels games music and art as well asin televangelism and even presidential speeches Her fascinating scholarship will surely have readers looking about them with new eyes

Selecting and Implementing an Integrated Library System Richard M Jost, 2015-10-20 Selecting and Implementing an Integrated Library System The Most Important Decision You Will Ever Make focuses on the intersection of technology and management in the library information world As information professionals many librarians will be involved in automation projects and the management of technological changes that are necessary to best meet patron and organizational needs As professionals they will need to develop numerous skills both technological and managerial to successfully meet these challenges This book provides a foundation for this skillset that will develop and acquaint the reader with a broad understanding of the issues involved in library technology systems Although a major topic of the book is integrated library systems a fundamental cornerstone of most library technology the book also explores new library technologies such as open source systems that are an increasingly important component in the library technology world Users will find a resource that is geared to the thinking and planning processes for library technology that emphasizes the development of good project management skills Embraces both technology and management issues as co equals in successful library migration projects Based on the experiences of a 20 year career in libraries including three major automation project migrations Includes increasingly relevant subject matter as libraries continue to cope with shrinking budgets and expanding library demands for services Contains the direct experiences of the University of Washington system in the Orbis Cascade Alliance project a project uniting 37 libraries across two states that combined both technical and public service functions Introduction to the Library and Information Professions Roger C. Greer, Robert J. Grover Professor Emeritus, Susan G. Fowler, 2013-06-11 This comprehensive book prepares readers for a changing profession in the library and information field presenting a holistic approach that examines theories and models and utilizes creative problem solving strategies In this rapidly changing knowledge based society library and information professionals require a broad understanding of the profession Introduction

to the Library and Information Professions Second Edition presents a toolbox of models that enable this essential understanding for undergraduate and graduate students in library and information science programs as well as practicing professionals seeking continuing education The materials in this second edition reflect the latest trends in the library and information profession including services and issues that stem from new advances in technology The authors present big picture information that will allow readers to better plan and implement client entered services discussing topics such as the life cycle of information the role of library and information professionals as change agents models of information transfer the national information infrastructure and important trends and developments. The contents provide readers with clear guidance and a carefully explained rationale for lifelong careers as information professionals Foundations of Information Literacy Natalie Greene Taylor, Paul T. Jaeger, 2021-11-15 It's not hyperbole to conclude that in today's world information literacy is essential for survival and success and also that if left unchecked the social consequences of widespread misinformation and information illiteracy will only continue to grow more dire Thus its study must be at the core of every education But while many books have been written on information literacy this text is the first to examine information literacy from a cross national cross cultural and cross institutional perspective From this book readers will learn about information literacy in a wide variety of contexts including academic and school libraries public libraries special libraries and archives through research and literature that has previously been siloed in specialized publications come to understand why information literacy is not just an issue of information and technology but also a broader community and societal issue get an historical overview of advertising propaganda disinformation misinformation and illiteracy gain knowledge of both applied strategies for working with individuals and for addressing the issues in community contexts find methods for combating urgent societal ills caused and exacerbated by misinformation and get tools and techniques for advocacy activism and self reflection Universal Access and Its Asymmetries Harmeet Sawhney, Hamid R. Ekbia, 2022-12-13 A throughout one s career framework for understanding the totality of costs and benefits of universal access that will foster honest appraisal and guide the development of good policies Universal access the idea that certain technologies and services should be extended to all regardless of geography or ability to pay evokes ideals of democracy and equality that must be reconciled with the realities on the ground The COVID 19 pandemic raised awareness of the need for access to high speed internet service in the United States but this is just the latest in a long history of debates about what should be made available and to whom Rural mail delivery electrification telephone service public schooling and library access each raised the same questions as today s debates about health care and broadband What types of services should be universally available Who benefits from extending these services And who bears the cost Stepping beyond humanitarian arguments to conduct a clear eyed diagnostic analysis this book offers some surprising conclusions While the conventional approach to universal access looks primarily at the costs to the system and the benefits to individuals Harmeet Sawhney and Hamid Ekbia provide a holistic perspective that also

accounts for costs to individuals and benefits for systems With a comparative approach across multiple cases Universal Access and Its Asymmetries is an essential exploration of the history costs and benefits of providing universal access to technologies and services With a fresh perspective it overturns common assumptions and offers a foundation for making decisions about how to extend service and how to pay for it The Rise of Western Power Jonathan Daly, 2013-12-19 The West s history is one of extraordinary success no other region empire culture or civilization has left so powerful a mark upon the world The Rise of Western Power charts the West's achievements representative government the free enterprise system modern science and the rule of law as well as its misdeeds two frighteningly destructive World Wars the Holocaust imperialistic domination and the Atlantic slave trade Adopting a global perspective Jonathan Daly explores the contributions of other cultures and civilizations to the West's emergence Historical geographical and cultural factors all unfold in the narrative Adopting a thematic structure the book traces the rise of Western power through a series of revolutions social political technological military commercial and industrial among others. The result is a clear and engaging introduction to the history of Western civilization Written Word in the Medieval Arabic Lands Konrad Hirschler, 2011-12-20 Winner of the 2012 BRISMES book prize How the written text became accessible to wider audiences in medieval Egypt and Syria Medieval Islamic societies belonged to the most bookish cultures of their period Using a wide variety of documentary narrative and normative sources Konrad Hirschler explores the growth of reading audiences in a pre print culture The uses of the written word grew significantly in Egypt and Syria between the 11th and the 15th centuries and more groups within society started to participate in individual and communal reading acts New audiences in reading sessions school curricula increasing numbers of endowed libraries and the appearance of popular written literature all bear witness to the profound transformation of cultural practices and their social contexts **The Library** Stuart A.P. Murray, 2009-07-09 Throughout the history of the world libraries have been constructed burned discovered raided and cherished and the treasures they ve housed have evolved from early stone tablets to the mass produced bound paper books of our present day The Library invites you to enter the libraries of ancient Greece early China Renaissance England and modern day America and speaks to the book lover in all of us Incorporating beautiful illustrations insightful quotations and many marvelous mysteries of libraries their books patrons and keepers this book is certain to provide you with a wealth of knowledge and enjoyment I've Seen It All at the Library Jonathan M. Farlow, 2015-04-16 Most people think of libraries as solemn places filled with dusty books and dustier people This memoir and more of a career librarian explodes that misconception Recounting his years behind the reference desk with an emphasis on the strange behavior of patrons the author shows that public libraries are anything but staid and guiet The history of libraries as long as the history of the written word itself is also discussed That libraries have grown as colorful as the society they serve is proof that these essential institutions are as vital as ever Unsettling Science and Religion Whitney Bauman, Lisa Stenmark, 2018-05-24 This book borrows from the intellectual labor of gueer

theory in order to unsettle or queer the discourses of religion and science and by extension the science and religion discourse Drawing intellectual and social cues from works by influential theorists such as Michel Foucault Judith Butler and Eve Sedgwick chapters in this volume converge on at least three common features of queer theory First queer theory challenges givens that on occasion still undergird religiously and scientifically informed ways of thinking Second it takes embodiment seriously Third this engagement inevitably generates new pathways for thinking about how religious and scientific truths matter These three features ultimately lend support to critical investigations into the meanings of science and religion and the relationships between the two
