Structure and Variation in Language Contact Ana Deumert, Stephanie Durrleman-Tame, 2006-01-01 This volume presents a careful selection of fifteen articles presented at the SPCL meetings in Atlanta Boston and Hawai i in 2003 and 2004 The contributions reflect from various perspectives and using different types of data on the interplay between structure and variation in contact languages both synchronically and diachronically The contributors consider a wide range of languages including Surinamese creoles Chinook Jargon Yiddish AAVE Haitian Creole Afro Hispanic and Afro Portuguese varieties Nigerian Pidgin Sri Lankan Malay Papiamentu and Bahamian Creole English Hackert A need to question and test existing claims regarding pidginization creolization is evident in all contributions and the authors provide analyses for a variety of grammatical structures VO ordering and affixation agglutination negation TMAs plural marking the copula and serial verb constructions The volume provides ample evidence for the observation that pidgin creole studies is today a mature subfield of linguistics which is making important contributions to general linguistic theory

Creolization and Contraband Linda M. Rupert, 2012 When Cura ao came under Dutch control in 1634 the small island off South America s northern coast was isolated and sleepy The introduction of increased trade both legal and illegal led to a dramatic transformation and Cura ao emerged as a major hub within Caribbean and wider Atlantic networks It would also become the commercial and administrative seat of the Dutch West India Company in the Americas The island s main city Willemstad had a non Dutch majority composed largely of free blacks urban slaves and Sephardic Jews who communicated across ethnic divisions in a new creole language called Papiamentu For Linda M Rupert the emergence of this creole language was one of the two defining phenomena that gave shape to early modern Cura ao The other was smuggling Both developments she argues were informal adaptations to life in a place that was at once polyglot and regimented They were the sort of improvisations that occurred wherever expanding European empires thrust different peoples together Creolization and Contraband uses the history of Cura ao to develop the first book length analysis of the relationship between illicit interimperial trade and processes of social cultural and linguistic exchange in the early modern world Rupert argues that by breaking through multiple barriers smuggling opened particularly rich opportunities for cross cultural and interethnic interaction Far from marginal these extra official exchanges were the very building blocks of colonial society

Heritage Languages Suzanne Aalberse, Ad Backus, Pieter Muysken, 2019-11-28 Heritage languages such as the Turkish varieties spoken in Berlin or the Spanish used in Los Angeles are non dominant languages often with little prestige Their speakers also

speak the dominant language of the country they live in Often heritage languages undergo changes due to their special status They have received a lot of scholarly attention and provide a link between academic concerns and educational issues This book takes a language contact perspective we consider heritage languages from the perspective of their history their structural properties and their interaction with other surrounding languages

Synchronic and Diachronic Perspectives on Contact Languages Magnus Huber,Viveka Velupillai,2007-09-27 This collection of selected conference papers from three SPCL meetings brings together a cross fertilization of approaches to the study of contact languages The articles are grouped into three coherent sections dealing with respectively phonetics and phonology including Optimality Theory synchronic analyses of both morphology and syntax and diachronic tracings of language change with special focus on sound patterns as well as semantics An added value of the volume is that most of the articles are in various ways significant for more than one linguistic subgrouping and there is a significant overlap of interests the sections also cover sociolinguistic subjects give both theoretical and functional linguistic analyses of language data and discuss issues of grammaticalization Thus in discussing a number of issues relevant far beyond the study of pidgin and creole languages as well as providing a wealth of linguistic data this volume also contributes to the broader field of linguistics in general

Functional Categories in Three Atlantic Creoles Claire Lefebvre,2015-07-15 This book is about the functional categories of three Caribbean creoles Saramaccan Haitian Creole and Papiamentu with two specific goals The first one is to evaluate the respective contribution of the source languages to the functional categories of these three creoles The second is to evaluate the degree of similarity dissimilarity of the functional categories across these creoles This study is cast within the relabeling based account of creole genesis Several lexical items discussed in this book may fulfill more than one grammatical function thus raising the issue of multifunctionality No such in depth comparative work of these three creoles with their source languages and of the three creoles among themselves is available elsewhere in the literature This book is addressed to linguists including Master and PhD students interested in syntactic categories and more specifically in functional categories to creolists and to researchers interested in language contact

Trade, Globalization, and Dutch Art and Architecture Marsely Kehoe,2025-10-01 We all look to our past to define our present but we don t always realize that our view of the past is shaped by subsequent events It s easy to forget that the Dutch dominated the world s oceans and trade in the seventeenth century when it s cultural imagination conjures up tulips and wooden shoes instead of spices and slavery This book examines the Dutch so called Golden Age through its artistic and architectural legacy recapturing the global dimensions of this period by looking beyond familiar artworks to consider exotic collectibles and trade goods and the ways in which far flung colonial cities were made to look and feel like home Using the tools of art history to approach questions about memory history and how cultures define themselves this book demonstrates the centrality of material and visual culture to understanding history and cultural identity

Erlangen Gary C. Fouse, 2005-04-07. This work is a historiography of the German town of Erlangen, which lies approximately 20 kilometers north of Nuremberg in the Franconian region of Bavaria. With a current population of just over 100,000, the city is primarily noted for its university and as the headquarters of the Siemens Corporation. In this book, author Gary Fouse, who spent three years as a U.S. military policeman in Erlangen, traces the history of Erlangen from its humble beginnings as a village in 1002 to the current era. Fouse describes the city during the most important historical events in German history, including the Reformation, the Thirty Years War, the Napoleonic Wars, the Franco-Prussian War of 1870-1871, the two world wars, and post-World War II recovery. Fouse delves into the life of the city under the rule of the House of Hohenzollern, the arrival in 1686 of French Huguenot refugees, the founding of the university, and the history of the Jewish community in Erlangen. Also detailed is the history of the U.S. Army in Erlangen from 1945 to 1994. The author's personal accounts provide an interesting look into the lives of the Americans both inside and outside the caserne. Encyclopedia of Language & Linguistics E. K. Brown, 2006.
