Johnsgard, Jacqueline L. Canterbury, Helen F. Downing, 2013-09-01 An account of the birds of the Bighorn area of Montana including descriptions of vegetation zones and bird distributions notes on regional birding loops birding locations and site descriptions species accounts and a discussion of the zoogeographic significance and other ecological aspects of the bird life of the Bighorn Mountains **The Call of the Honeyguide** Rob Dunn, 2025-08-26 A must read David George Haskell that shows how rethinking our relationships with other species can help us reimagine the future of humankind In the woodlands of sub Saharan Africa sometime deep in our species past something strange happened a bird called out not to warn others of human presence but to call attention to herself Having found a beehive that bird a honeyguide sought human aid to break in The behavior can seem almost miraculous How would a bird come to think that people could help her Isn't life simply bloodier than that As Rob Dunn argues in *The Call of the Honeyguide* it isn't Nature is red in tooth and claw but in equal measure life works together Cells host even smaller life wrapped in a web of mutual interdependence Ants might go to war but they also tend fungi aphids and even trees And we humans work not just with honeyguides but with yeast crops and pets Ecologists call these beneficial relationships mutualisms And they might be the most important forces in the evolution of life We humans often act as though we are all alone independent from the rest of

life As The Call of the Honeyguide shows we are not It is a call to action for a more beneficent less lonely future *Saturday Review of Literature* ,1971 Catalog of Copyright Entries. New Series Library of Congress. Copyright Office,1938

Consumer Tribes in Tourism Christof Pforr,Ross Dowling,Michael Volgger,2020-11-18 This book adopts a collectivist perspective on special interest tourism consumption bringing together research on special interest tourism and niche tourism as well as more recent research into the interdisciplinary applications of the sociological concept of neo tribes It promotes a shift in perspective away from special interest tourism understood as a sum of similarly motivated individuals to a collective view of special interest tourists who share common characteristics e g shared values beliefs and mutual interests and group structures This approach provides a better understanding of groupings that are not unified by a common tourism motivation but brought together by otherwise conditioned commonalities in actual behavior triggered by supply side contexts e g Airbnb The book considers tourism micro segments as consumer tribes i e as symbolic communities in which individuals are embedded and loosely bound together As there is limited research on the collectivist perspective on special interest tourism consumption in the first part the book s conceptual theoretical discourse contributes to a better understanding of groupings in tourism behavior but also collectives that are not unified by a common tourism motivation Presenting international examples the book explores in Part 2 the group culture of a range of tourist tribes by describing emerging tourism micro segments identifying shared identities and analyzing their collective mechanisms **Cumulated Index to the Books** ,1945

MacEachren, 2022-11-22 A Geo Big Year Pandemic Retirement is for the Birds This book recounts a year long birding quest across Pennsylvania in 2021 The quest was to see at least 67 bird species in each of the state s 67 counties During the quest year the author now Professor of Geography Emeritus from Penn State University coped with the process of retiring after 42 years in academia and the challenges that the Covid 19 pandemic posed for safe travel The book chronicles the birding experiences and birds seen as well as the travel and retirement challenges The story told chronologically is focused on the search for birds It includes an account of what birds were seen or not seen in specific counties and specific sites within those counties It also recounts the quest itself as it unfolded Written by a Geographer places visited are also highlighted The narrative conveys the adventure of experiencing the mix of both popular and seldom visited places These places were mostly rural and included state and county parks game lands wildlife refuges trails and forests across the state together with less

attractive places for humans that still attract birds such as cemeteries retention ponds and county dumps The book includes 471 black and white figures most of which are photo composites of birds seen and or of the places visited In total the 471 figures consist of more than 600 photos of birds plus more than 300 other images that include landscape scenes signage non bird creatures seen maps and graphs The book is intended for a wide audience Aspects of the account should resonate with readers who are or want to be birders are retired or contemplating retirement like to travel particularly on back roads and to natural places that are off the beaten track are academics thinking about work life balance have tried or thought about trying camping after not doing any for a long time have a bucket list to pursue have experienced life changes or expect to have some soon or have ever contemplated pursuing a birding big year or any other kind of year long quest **Knowledge**

Games Karen Schrier, 2016-06-15 Are games the knowledge producers of the future Imagine if new knowledge and insights came not just from research centers think tanks and universities but also from games of all things Video games have been viewed as causing social problems but what if they actually helped solve them This question drives Karen Schrier's Knowledge Games which seeks to uncover the potentials and pitfalls of using games to make discoveries solve real world problems and better understand our world For example so called knowledge games such as Foldit a protein folding puzzle game SchoolLife which crowdsources bullying interventions and Reverse the Odds in which mobile game players analyze breast cancer data are already being used by researchers to gain scientific psychological and humanistic insights Schrier argues that knowledge games are potentially powerful because of their ability to motivate a crowd of problem solvers within a dynamic system while also tapping into the innovative data processing and computational abilities of games In the near future Schrier asserts knowledge games may be created to understand and predict voting behavior climate concerns historical perspectives online harassment susceptibility to depression or optimal advertising strategies among other things In addition to investigating the intersection of games problem solving and crowdsourcing Schrier examines what happens when knowledge emerges from games and game players rather than scientists professionals and researchers This accessible book also critiques the limits and implications of games and considers how they may redefine what it means to produce knowledge to play to educate and to be a citizen *Southwest Builder and Contractor* ,1929
