JACKET *Olympia* Jill Bullock, 2010 Located on the southernmost point of Puget Sound the Olympia area was occupied by the Coastal Salish Indians for many generations before American settlers established a town site there in 1846 First the provisional territorial capital in 1853 incorporated as a town in 1859 it then became the permanent state capital when Washington attained statehood in 1889 The town was named for the majestic Olympic Mountains visible on a clear day The town's history and landmarks including the capitol building the waterfront the downtown businesses and the Olympia brewery as well as the surrounding areas were all visually documented by the picture postcard which gained widespread popularity at the beginning of the 20th century From Head to Hand David Levi Strauss, 2010-02-11 In his third book Strauss delves into the mysterious process whereby an idea is born in the mind and materialized through the hand in the expression of an artwork How exactly does this happen It's a question so basic an act so fundamental to art making that it has rarely received attention It makes an ideal topic for Strauss a writer with an exceptional ability to animate art's philosophical dimensions in a clear persuasive manner During this time when craft and the direct manipulation of materials by the artist appear to be in eclipse Strauss comes to their defense in a spirited cri de coeur Featuring over 35 illustrations

the book examines a wide variety of media and individual examples It explores the works of sculptors Martin Puryear Ursula von Rydingsvard and Donald Lipski painters Leon Golub and Ron Gorchov and writers Robert Duncan Robert Kelly Guy Davenport John Berger and Leo Steinberg In addition there are essays on Joseph Beuys s 7000 Oaks in Ireland contemporary Haida carvers Reg Davidson and Jim Hart Cecilia Vicu a s memory of the fingers and the influence of curators Harald Szeemann and Walter Hopps on the staging of contemporary art exhibitions Known primarily for his writings on photography and politics Strauss here focuses on the least mediated arts painting sculpture and writing His claims are supported by a series of close readings which succeed in recovering the immediacy of the hand and revitalizing contemporary art s connection to the past
