New Approaches to Ancient Material Culture in the Greek & Roman World Catherine Cooper, 2020-11-16 New Approaches to Ancient Material Culture in the Greek Roman World is about Classical Archaeology at its broadest and is important reading to all Classicists As part of a recent movement to highlight the rich diversity of the subject it overcomes traditional disciplinary boundaries to show the variety of current approaches to the study of Classical Antiquity from the Late Bronze Age to the Late Antique period The multi disciplinary papers deal with archaeology and art history museum objects and fieldwork data ancient texts and material culture archaeological theory and historiography and technical and literary analysis The international contributors discuss a selection of methodologies currently used to study ancient material and illustrate their relevance through case studies which span the Greek and Roman world **The Routledge Companion to Strabo** Daniela Dueck, 2017-03-16 The Routledge Companion to Strabo explores the works of Strabo of Amasia c 64 BCE c CE 24 a Greek author writing at the prime of Roman expansion and political empowerment While his earlier historiographical composition is almost entirely lost his major opus of the Geography includes an encyclopaedic look at the entire world known at the time numerous ethnographic topographic historical mythological botanical and zoological details and much more This volume offers various insights to the literary and historical context of the man and his world The Companion in twenty eight chapters written by an international group of scholars examines several aspects of Strabo s personality the political and scholarly environment in which he was active his choices as an author and his ideas of history and geography This selection of ongoing Strabonian studies is an invaluable resource not just for students and scholars of Strabo himself but also for anyone interested in ancient geography and in the world of the early Roman Empire A Cultural History of Plants in Antiquity Annette Giesecke, 2023-12-14 A Cultural History of Plants in Antiquity covers the period from 10 000 BCE to 500 CE This period witnessed the transition from hunter gatherer subsistence to the practice of agriculture in Mesopotamia and elsewhere and culminated in the fall of the Roman Empire the end of the Han Dynasty in China the rise of Byzantium and the first flowering of Mayan civilization Human uses for and understanding of plants drove cultural evolution and were inextricably bound to all aspects of cultural practice The growth of botanical knowledge was fundamental to the development of agriculture technology medicine and science as well as to the birth of cities the rise of religions and mythologies and the creation of works of literature and art The 6 volume set of the Cultural History of Plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today The themes covered in each volume are plants as staple foods plants as luxury foods trade and exploration plant technology and science plants and medicine plants in culture plants as natural ornaments the representation of plants Annette Giesecke is Professor of Classics at the University of Delaware USA Volume 1 in the Cultural History of Plants set General Editors Annette Giesecke University of Delaware USA and David Mabblerley University of Oxford UK *Technology of the Ancient Near East* Jill L. Baker, 2018-10-10 Peoples of the distant

past lived comfortably in cities that boasted well conceived urban planning monumental architecture running water artistic expression knowledge of mathematics and medicine and more Without the benefits of modern technology they enjoyed all the accoutrements of modern civilization Technology of the Ancient Near East brings together in a single volume what is known about the technology behind these achievements based on the archaeological textual historic and scientific data drawn from a wide range of sources focusing on subjects such as warfare construction metallurgy ceramics and glass water management and time keeping These technologies are discussed within the cultural historic and socio economic contexts within which they were invented and the book emphasises these as the foundation upon which modern technology is based In so doing this study elucidates the ingenuity of ancient minds offering an invaluable introduction for students of ancient technology and science

*Perfects in Indo-European Languages and Beyond* Robert Crellin, Thomas Jügel, 2020-09-15 This volume provides a detailed investigation of perfects from all the branches of the Indo European language family in some cases representing the first ever comprehensive description Thorough philological examinations result in empirically well founded analyses illustrated with over 940 examples The unique temporal depth and diatopic breadth of attested Indo European languages permits the investigation of both TAME Tense Aspect Mood Evidentiality systems over time and recurring cycles of change as well as synchronic patterns of areal distribution and contact phenomena These possibilities are fully exploited in the volume Furthermore the cross linguistic perspective adopted by many authors as well as the inclusion of contributions which go beyond the boundaries of the Indo European family per se facilitates typological comparison As such the volume is intended to serve as a springboard for future research both into the semantics of the perfect in Indo European itself and verb systems across the world's languages

**From the Adriatic to the Alps: Transport and Trade Networks in Roman and Late Antique Northern Italy** James Page, 2025-03-20 Examines inland trade in Roman Northern Italy revealing complex dynamics beyond the proximity of coastlines Using datasets of amphorae finewares and marble it highlights the importance of transport costs river networks and trans mountain trade showing diverse consumption patterns and the interplay between cost and consumer choice

**The Roman Gladius and the Ancient Fighting Techniques** Fabrizio Casprini, Marco Saliola, 2023-01-06 The backbone of the Roman army was the infantry armed with a javelin or pilum and sword or gladius This study investigates not just the weapon itself and its design and manufacture but how the sword was originally conceived and how it was employed on the battlefield as an expression of the Roman state The authors start examining the early swords employed across the Italian Peninsula during the Bronze Age and how these evolved into the gladius which itself changed in the period of Monarchy with the introduction of the cross hilt During Rome's Consular period the gladius changed again and over time both the length of the blade and its width were altered Relying exclusively on historical and archaeological evidence *The Roman Gladius and the Ancient Fighting Techniques* shows how the Roman army developed into a highly disciplined body and how fundamental the gladius was to its method of fighting It also shows how the combat techniques of

the Romans evolved as did those of their enemies The training methods and tactics of the Roman infantry are fully explored and its performance at some of the great battles of the monarchical and consular periods are examined as the area under Roman rule fluctuated with victory or defeat For the Roman people the gladius was the object that better than any other showed their identity since it was a weapon that accompanied the history of the Roman people from its earliest days changing in shape and design as it was adapted to the varying social political and military needs The Roman Gladius and the Ancient Fighting Techniques is the most comprehensive study of this hugely important weapon which also provides the reader with a complete overview of Roman society which in this first volume is treated until the end of the Consular period The book is richly illustrated throughout with drawings and photographs of original weapons and equipment *London in the Roman World* Dominic Perring,2022 This original study draws on the results of latest archaeological discoveries to describe London s Roman origins It offers a wealth of new information from one of the world s richest and most intensively studied archaeological sites John, Beloved by JESUS Scott Campbell Brown,2024-11-08 You are so loved by God that he gave you his only Son that if you believe in him you will not perish but you shall have eternal life Although this is a work of fiction about the Apostle John this book focuses on the truth of the wonderful promises of God for you You is the first word of the novel and it comprises the last non biblical word And you will read that many of the promises have already been kept for as John takes his life journey he learns again and again that from Abraham to Jesus to God s Revelation to him that the Lord himself will provide the Lamb Along the way you will meet the strong women in John s life His birth mother Salome who becomes a faithful follower of Jesus but endures much heartache throughout her life Mary who by the edict of Jesus becomes John s born again mother and teaches him many lessons even as a grown man You will meet the Elect Lady referenced in the Second Letter of John and Lydia the dealer in purple cloth from the book of Acts and the first person from Europe to be baptized There will be some ups and downs You will witness the martyrdoms and the sufferings of the faithful Christians Because even the apostles are sinners you will observe some of that And you may even have a few laughs At times you may become frustrated with John or some of the others And that is a good thing Because although this book tells their stories the great promises of God through the sacrifice and resurrection of Jesus Christ are its most important message for you

*Change and Transition on Crete: Interpreting the Evidence from the Hellenistic through to the Early Byzantine Period* Jane Francis,Michael J Curtis,2023-02-09 The theme of this volume presented in honour of G W M Harrison whose academic contributions have enriched our perspective of Roman Crete is change and transition a topic that challenges some of the earlier approaches to Hellenistic and Roman Crete and which presents a different perspective on historical events and archaeological evidence **World-Changing Women** Paul Chrystal,2025-03-31 Highlights 150 influential women from pre classical civilizations ancient Egypt and Israel reshaping history by defying patriarchal norms Countless books have been written about prominent women in Greece and Rome so we know all about Medea Sappho Lucretia Boudica and Cleopatra

and their significant actions and achievements This book extends the invaluable story of women in early history to pre classical civilizations ancient Egypt and Israel to include prominent women in those civilizations as well thus introducing them and their roles and places in their respective societies and social histories to a wide audience The aim of this book is to demonstrate how 150 women most little known significantly influenced informed and changed the worlds in which they lived We show how a small disparate body of women in each of these periods united by their determination and strength of mind were able to break free from the norms and values of the patriarchal societies which confined and restricted them to make a valuable difference to their individual societies cultures politics and foreign policies in so doing they have changed perceptions of women and the role women were subsequently allowed to play Some of the women are well known others less so The book reinforces the reputations of those who have endured popularity over the centuries and where necessary realigns those reputations after years of prejudice and the vicissitudes of sexism misogyny Hollywood and sensationalist literature For those who have been written out of mainstream history and relegated to footnotes at best this is a chance to re introduce them and the impact they have made on their and our world Their relative anonymity does not mean that they are less important on the contrary they are equally significant and the more we know about them the better if we want a rounded picture of the civilizations to which they contributed so much Each chapter is followed by suggestions for further reading to encourage further research

*All About Eden* H. Hirsch Cohen, 2021-06-18 It wasn't Eve's fault All About Eden The Genesis of Sex is an intriguing exploration of the Garden of Eden story from a new perspective Eve is not responsible for the sin of the world Detailed reinterpretation of a key Hebrew word in Genesis 1:3 for the opening of the eyes offers new insight into an ancient story that has influenced how women have been viewed throughout the ages Moving from the theme of punishment to the theme of procreation with a new understanding of the Tree of Knowledge of Good and Evil as well as the creature that offered the fruit to Eve this book provides a unique perspective that lifts the burden of sin and punishment that until now has unjustly placed on Eve's daughters

**Weaving in Stones: Garments and Their Accessories in the Mosaic Art of Eretz Israel in Late Antiquity** Aliza Steinberg, 2020-02-07 This book copiously illustrated throughout studies the garments and their accessories worn by some 245 figures represented on approximately 41 mosaic floors some only partially preserved that once decorated both public and private structures within the historical geographical area of Eretz Israel in Late Antiquity

**The Bookseller**, 1917 **Resurrection of the Dead in Early Judaism, 200 BCE-CE 200 C. D.** Elledge, 2017-05-05 Resurrection of the dead represents one of the more enigmatic beliefs of Western religions to many modern readers In this volume C D Elledge offers an interpretation of some of the earliest literature within Judaism that exhibits a confident hope in resurrection He not only aids the study of early Jewish literature itself but expands contemporary knowledge of some of the earliest expressions of a hope that would become increasingly meaningful in later Judaism Christianity and Islam Elledge focuses on resurrection in the latest writings of the Hebrew Bible the Apocrypha

Pseudepigrapha Dead Sea Scrolls as well as the writings of other Hellenistic Jewish authors He also incorporates later rabbinic writings early Christian sources and inscriptions as they shed additional light upon select features of the evidence in question This allows for a deeper look into how particular literary works utilized the discourse of resurrection while also retaining larger comparative insights into what these materials may teach us about the gradual flourishing of resurrection within its early Jewish environment Individual chapters balance a more categorical comparative approach to the problems raised by resurrection definitions diverse conceptions historical origins strategies of legitimation with a more specific focus on particular pieces of the early Jewish evidence 1 Enoch Dead Sea Scrolls Josephus Resurrection of the Dead in Early Judaism 200 BCE CE 200 provides a treatment of resurrection that informs the study of early Jewish theologies as well as their later reinterpretations within Rabbinic Judaism and Christianity      **Patterns in the History of Polycentric Governance in European Cities**

Cédric Brélaz, Thomas Lau, Hans-Joachim Schmidt, Siegfried Weichlein, 2024-03-18 The autonomy granted to local communities such as towns municipalities and city states by larger central powers such as empires kings lords and central states is a recurrent feature of European history over time from Antiquity to the contemporary period This volume explores the political social and cultural aspects of this feature in a diachronic and comparative perspective from the Roman Empire to today s city partnerships To this end it uses the concept of polycentric governance Originally developed by political economist Vincent Ostrom in the 1960s and then expanded by the 2009 winner of the Nobel Prize in Economics political scientist Elinor Ostrom this concept characterises the interdependent system of relations between different actors involved in a process and for that reason it is frequently used in policy studies This volume applies the concept of polycentric governance to historical studies as a heuristic device to analyse the multilayer systems into which cities were integrated at various points in European history as well as the implications of the coexistence of different political structures Fourteen chapters examine the structures the dynamics and the discourse of polycentric governance through various case studies from the Roman Empire from medieval towns from early modern Europe and from contemporary cities The volume suggests that for extended periods of time throughout European history polycentric governance has played a pivotal role in the organisation and distribution of political power      The Archangel Michael in Africa

Ingvild Saelid Gilhus, Alexandros Tsakos, Marta Camilla Wright, 2019-08-08 This book takes an interdisciplinary approach in order to understand angels focusing on Africa and the cult and persona of the Archangel Michael Traditional methods in the study of religion including philology papyrology art and iconography anthropology history and psychology are combined with methodologies deriving from memory studies graphic design art education and semiotics Chapters explore both historical and contemporary case studies from Coptic Egypt Nubia Ethiopia and South Africa providing a comparative perspective on the Archangel Michael alongside 25 images Innovative in both its methodologies and geographical focus this book is an important contribution to the study of religion and art Christianity in Africa and Coptic studies      *The Principle of Virtual Work in the Sources of*

*Mechanical Sciences* Francesco dell'Isola, Simon R. Eugster, Maximilian Stilz, 2025-03-19 This book presents critical evaluations of various historical sources and their impact on technological development The problem of the origins of the Principle of Virtual Work is discussed and an exegesis of the Pseudo Aristotle *Mechanica Problemata* is presented Readers will also find an exploration of the criteria used to evaluate scientific works providing insight into the selection and preservation of significant scholarly contributions In particular the case of Continuum Mechanics textbooks selection in XX century is examined

The Oracle William J. Broad, 2007-01-30 A gripping modern day detective story about the scientific quest to understand the Oracle of Delphi Like Walking the Bible this fascinating book turns a modern eye on an enduring legend The Oracle of Delphi was one of the most influential figures in ancient Greece Human mistress of the god Apollo she had the power to enter into ecstatic communion with him and deliver his prophesies to men Thousands of years later Pulitzer Prize winning journalist William J Broad follows a crew of enterprising researchers as they sift through the evidence of history geology and archaeology to reveal as far as science is able the source of her visions

**Collapse or Survival** Elisa Perego, Rafael Scopacasa, Silvia Amicone, 2019-12-31 In the present day world order political disintegration the faltering of economic systems the controversial yet dramatic consequences of global warming and pollution and the spread of poverty and social disruption in Western countries have rendered collapse one of the hottest topics in the humanities and social sciences In the frenetic run for identifying the global causes and large scale consequences of collapse however instances of crisis taking place at the micro scale are not always explored by scholars addressing these issues in present and past societies while the voices of the marginal non lite subjects that might be the main victims of collapse are often silenced in ancient history and archaeology Within this framework *Collapse or Survival* explores localized phenomena of crisis unrest and survival in the ancient Mediterranean with a focus on the first millennium BC In a time span characterized by unprecedented high levels of dynamism mobility and social change throughout that region the area selected for analysis represents a unique convergence point where states rise and fall long distance trade networks develop and disintegrate and patterns of human mobility catalyze cultural change at different rates The central Mediterranean also comprises a wealth of recently excavated and highly contextualized material evidence casting new light on the agency of individuals and groups who endeavored to cope with crisis situations in different geographical and temporal settings Contributors provide novel definitions of collapse and reconsider notions of crisis and social change by taking a broader perspective that is not necessarily centred on lites Individual chapters analyze how both high status and non lite social agents responded to socio political rupture unrest depopulation economic crisis the disintegration of kinship systems interruption in long term trade networks and destruction in war

Strabo Geography S 3 5 Loeb Classical Library: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Strabo Geography S 3 5 Loeb Classical Library : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Strabo Geography S 3 5 Loeb Classical Library : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
