

A collection of stories, ranging from novelettes to short short stories, centered around sexual themes, the once forbidden land of science fiction. Nineteen talented authors present their views of human (and alien) sexuality as seen through the special eyes of the science fiction writer. Both traditional and New Wave are equally represented in tales ranging from the completely irreverent to moods of black terror.

Strange Bedfellows is neither an erotic nor a dirty book. It is an honest attempt to explore the sexual in science fiction, and if the science fiction approach is occasionally hilarious, ask yourself sometimes what is the funniest activity with which human beings consistently are concerned.
