**Strange Likeness** Dora Zhang, 2020-11-10 The modern novel so the story goes thinks poorly of mere description what Virginia Woolf called that ugly that clumsy that incongruous tool As a result critics have largely neglected description as a feature of novelistic innovation during the twentieth century Dora Zhang argues that descriptive practices were in fact a crucial site of attention and experimentation for a number of early modernist writers centrally Woolf Henry James and Marcel Proust Description is the novelistic technique charged with establishing a common world but in the early twentieth century there was little agreement about how a common world could be known and represented Zhang argues that the protagonists in her study responded by shifting description away from visualizing objects to revealing relations social formal and experiential between disparate phenomena In addition to shedding new light on some of the best known works of modernism Zhang opens up new ways of thinking about description more broadly She moves us beyond the classic binary of narrate or describe and reinvigorates our thinking about the novel **Strange Likeness** will enliven conversations around narrative theory affect theory philosophy and literature and reading practices in the academy

**The Secret Quest** Margaret Sutton, 2011-10-07 Judy and her young FBI husband Peter Dobbs go to the airport in Washington D C to meet Peter's sister Honey who is going to visit them for a week and take in the many interesting sights Back at the motel where the three are stopping Honey is amazed to find that accidentally she has picked up the wrong suitcase Instead of the pretty suits that she herself had designed the bag contains some very old fashioned garments an old diary dated 1847 and an old coffee mill Even more startling is Peter's discovery of a sheaf of notes on solar science stuffed inside the drawer of the coffee mill The odd clothes remind Honey of two quaintly dressed little old ladies who were on the plane with her And later when she and Judy and Peter catch a glimpse of the same old ladies in the company of the new artist whose arrival at the Dean Studios caused Honey to lose her job there the three young detectives are even more perplexed At a solar science exhibit in the Smithsonian Institution Judy picks up the first slim clue to an increasingly baffling mystery and starts on her dangerous secret quest for its solution [seriesbooks info bolton html](#)

interacting in a borderland setting Cynthia Cumfer offers a broad multiracial intellectual and cultural history of the Tennessee frontier in the Revolutionary and early national periods leading up to the era of rapid westward expansion and

Cherokee removal Attentive to the complexities of race gender class and spirituality Cumfer offers a rare glimpse into the cultural logic of Native American African American and Euro American men and women as contact with one another powerfully transformed their ideas about themselves and the territory they came to share The Tennessee frontier shaped both Cherokee and white assumptions about diplomacy and nationhood After contact both groups moved away from local and personal notions about polity to embrace nationhood Excluded from the nationalization process slaves revived and modified African and American premises about patronage and community while free blacks fashioned an African American doctrine of freedom that was both communal and individual Paying particular attention to the influence of older European concepts of civilization Cumfer shows how Tennesseans along with other Americans and Europeans modified European assumptions to contribute to a discourse about civilization one both dynamic and destructive which has profoundly shaped world history

**Fossil Poetry** Chris Jones, 2018-08-09 Fossil Poetry provides the first book length overview of the place of Anglo Saxon in nineteenth century poetry in English It addresses the use and role of Anglo Saxon as a resource by Romantic and Victorian poets in their own compositions as well as the construction and invention of Anglo Saxon in and by nineteenth century poetry Fossil Poetry takes its title from a famous passage on early language in the essays of Ralph Waldo Emerson and uses the metaphor of the fossil to contextualize poetic Anglo Saxonism within the developments that had been taking place in the fields of geology palaeontology and the evolutionary life sciences since James Hutton s apprehension of deep time in his 1788 Theory of the Earth Fossil Poetry argues that two roughly consecutive phases of poetic Anglo Saxonism took place over the course of the nineteenth century firstly a phase of constant roots whereby Anglo Saxon is constructed to resemble and so to legitimize a tradition of English Romanticism conceived as essential and unchanging secondly a phase in which the strangeness of many of the extinct philological forms of early English is acknowledged and becomes concurrent with a desire to recover and recuperate the fossils of Anglo Saxon within contemporary English poetry The volume advances new readings of work by a variety of poets including Walter Scott Henry Longfellow William Wordsworth William Barnes Walt Whitman Ralph Waldo Emerson William Morris Alfred Tennyson and Gerard Hopkins

culturally against the presence of the sea New insights from a range of fields including jurisprudence theology the history of cartography and anthropology are used to provide fresh readings of a wide range of both insular and continental writings
