*The Language in Science Fiction and Fantasy* Susan Mandala, 2010-10-21 The language of science fiction and of fantasy has a steep challenge that of the creation of other worlds societies and characters that are alien to us in diverse and fundamental ways but still compelling and knowable This exciting book steps away from the issues of race gender and politics that have saturated sci fi and fantasy criticism Rather it challenges two widely held but poorly substantiated beliefs circulating about science fiction and fantasy that they are written in plain and unremarkable prose and adept to present characters that are flat types rather than fully realised individuals Mandala draws on traditional syntactic categories of stylistic analysis as well as the relatively more recent pragmatic and sociolinguistic paradigms such that the original analyses here take our understanding of these two genres beyond the usual confines to consider how language is used to draw alternative worlds represent the far future and distant past and create psychologically believable characters Covering both British and American fiction and television this is a wide ranging and perceptive book

*Visions and Re-Visions* Robert M. Philmus, 2005-10-01

Renowned science fiction scholar Robert M Philmus offers in *Visions and Revisions* a fresh and provocative literary analysis of science fiction writing. He critically examines the works of some of the most prominent writers to have written in the genre including Evgeny Zamyatin, Karel Capek, Jorge Luis Borges, Italo Calvino and Stanislaw Lem along with English language authors from H G Wells to Ursula Le Guin and reveals how their works illustrate the fundamental elements of science fiction writing. The former editor of *Science Fiction Studies*, Philmus casts his expert eye on a diverse range of short stories and novels by the premier arbiters of the craft with close readings that draw upon the theories of New Criticism as well as post Modern. Featuring essays such as Stanislaw Lem's *Futurological Congress* as a Metageneric Text, Kurt Vonnegut's *Historiographer of the Absurd*, The Sirens of Titan by Ursula K Le Guin and *Time's Dispossession* and *Time Out of Joint* by Philip K Dick's *The Man in the High Castle*, the volume provides an in depth textual examination that reveals why science fiction is a revisionary genre. *Visions and Revisions* will be of immense value to scholars of literature and science fiction studies.

*The Oxford Handbook of Modern Irish Fiction* Liam Harte, 2020-10-15. The *Oxford Handbook of Modern Irish Fiction* presents authoritative essays by thirty five leading scholars of Irish fiction. They provide in depth assessments of the breadth and achievement of novelists and short story writers whose collective contribution to the evolution and modification of these unique art forms has been far out of proportion to Ireland's small size. The volume brings a variety of critical perspectives to bear on the development of modern Irish fiction situating authors' texts and genres in their social, intellectual and literary historical contexts. The Handbook's coverage encompasses an expansive range of topics including the recalcitrant atavisms of Irish Gothic fiction, nineteenth century Irish women's fiction and its influence on emergent modernism and cultural nationalism, the diverse modes of irony, fabulism and social realism that characterize the fiction of the Irish Literary Revival, the fearless aesthetic radicalism of James Joyce, the jolting narratological experiments of Samuel Beckett, Flann O'Brien and Mairéad Cadhain, the fate of the realist and modernist traditions in the work of Elizabeth Bowen, Frank O'Connor, Seán O Faoláin and Mary Lavin and in that of their ambivalent heirs, Edna O'Brien, John McGahern and John Banville, the subversive treatment of sexuality and gender in Northern Irish women's fiction written during and after the Troubles, the often neglected genres of Irish crime fiction, science fiction and fiction for children, the many hued novelistic responses to the experiences of famine, revolution and emigration and the variety and vibrancy of post millennial fiction from both parts of Ireland. Readably written and employing a wealth of original research, *The Oxford Handbook of Modern Irish Fiction* illuminates a distinguished literary tradition that has altered the shape of world literature.

[Greek Tragedy in Action](#) Oliver Taplin, 2003-10-04. Oliver Taplin's seminal study was revolutionary in drawing out the significance of stage action in Greek tragedy at a time when plays were often read purely as texts rather than understood as performances. Professor Taplin explores nine plays including Aeschylus' *Agamemnon* and Sophocles' *Oedipus the King*. The details of theatrical techniques and stage directions used by playwrights to highlight key moments are drawn out and related to the

meaning of each play as a whole With extensive translated quotations the essential unity of action and speech in Greek tragedy is demonstrated Now firmly established as a classic text Greek Tragedy in Action is even more relevant today when performances of Greek tragedies and plays inspired by them have had such an extraordinary revival around the world
