of snakes that are going to stimulate your child's interest to learn more about these mysterious gracious creatures. You will find some interesting revelations and secrets you probably never heard about snakes. Did you know that in captivity many of the snake species can live for surprisingly very long times. The average is somewhere between 18-20 years. As a mother of 3 young children and with the experience as an elementary teacher, science researcher, writer, and publisher of many publications for kids, Kate Cruise has learned to listen to interact with kids. It is a book series inspired by kids and for kids. Kids learn about new and interesting facts so that a combination of both the curious and the new materials and facts together with the visual aspect of the pictures. Children are entertained with the coolness factor of the discovery book plus they learn some new and a little bit harder to retain facts simultaneously with the cool stuff and this is how the child is going to retain all of the information. The discovery books work in synchronization with the brain and not against the brain like some dull textbooks try to teach things. Stimulation of thought and contemplation increases intelligence and the brain power. TV kills the brain cells of your child. Parents, home schoolers alike are reporting unprecedented results with children who usually hate reading books. Suitable for kids age 5.
