Strange Connection U S Intervention In China 1944 1972

Dale Walton

Strange Connection U S Intervention In China 1944 1972:

The Strange Connection Bevin Alexander, 1992-03-23 This book provides an analysis of American intervention in China from World War II to the rapprochement Richard Nixon began in 1972 One of the major themes of the work is that the United States should avoid judging China by Western standards The United States learned this after twenty eight years of attempting to impose its own standards of democratic representative government on China Alexander also contends that the United States acted against its own interests when it supported the Nationalists and that the United States accused the Chinese Communists of aggressive policies in East Asia when in fact they did not pursue aggressive policies The book traces the origins of the American interest in China based on Roosevelt s hope to use China as a partner of the United States to preserve the peace in East Asia It covers the U S failure to realize that most Chinese people supported the Communist revolution and the U S attempt to keep the reactionary Nationalists in power after they lost the Civil War Next the work considers the misconception that Red China was an instigator of the Korean War the U S attempt to destroy the North Korean state and China s decision to intervene to prevent American forces from proceeding to its frontier The text also traces the adoption of Taiwan as an American protectorate the flirtation with atomic war to protect the Nationalist held islands of Quemoy and Matsu and the decades long U S policy of denying Communist China a seat at the UN The work concludes with Nixon s decision to recognize China because U S policy was threatening world peace and order

Resistance in Colonial and Communist China, 1950-1963 R. B. E. Price, 2019-01-04 The history of colonial East Asia is a human anatomy describing beneficial organs of foreign rule Proclaiming itself a schematic diagram open to inspection the anatomy of the late British Empire nevertheless obscured much more than it revealed This analogy in Price s provocative Cold War history is not presented only as an insight on imperialism but deciphers competing nationalist ideologies too The Kuomintang contended vigorously against communist rule in southern China for a decade after the end of the civil war in 1949 and Chinese communists disparaged British colonialism in Hong Kong in a war of words peaking in 1956 1957 These clashes of will did not produce new rulers in either place They informed a period of Sino British strategic partnership based on recognition that a capitalist enclave in southern China had its uses By focusing on the Hong Kong region *Resistance in Colonial and Communist China* compares anatomies of the British colonial government the Chinese communists and stateless members of the remnant Kuomintang 1950 1963 Price asserts that after 1949 the colonial government of Hong Kong politically favoured the Kuomintang organised crime societies over their communist nationalist adversaries despite historiographical explanation that it favoured neither This book challenges traditional concepts of the British colonial government and its attitude towards communist China It engages in current debates surrounding Britain s past by presenting a particularly devious episode of late colonial history

Perceptions of China and White House Decision-Making, 1941-1963 Adam S.R. Bartley, 2019-11-26 This book assesses and evaluates the decision making behavior of United States presidents and their

chief advisers from Roosevelt to Kennedy pertaining to China Seeking to dispel with the notion that each administration sought policy outcomes on the basis of a rational decision making model Bartley highlights the contradictions of adopted presidential decision making processes and the nature of domestic politics as playing prejudicial and debilitating roles The book demonstrates that elite decision making processes interacted with assumptions made about Chinese behavior interests and attitudes only superficially and in some cases not at all Misinformation and misperception were the natural outcomes Reinforced by the politics of McCarthyism at home intellectual debate on China policy was squashed parochialism and nuance were shunned and information was closed off Ultimately a divorce between the norm of behavior and the search for rational policy was registered in each administration The net result was a lasting and destructive cognitive dissonance to fit expectations of a China reality constructed information was ignored overlooked and distorted Offering new insights into the China policies of consecutive administrations from 1941 to 1963 this volume will be of great interest to scholars and students of American foreign policy security studies and international relations *FDR's Ambassadors and the Diplomacy of Crisis* David Mayers, 2013 What effect did personality and circumstance have on US foreign policy during World War II This incisive account of US envoys residing in the major belligerent countries Japan Germany Italy China France Great Britain USSR highlights the fascinating role played by such diplomats as Joseph Grew William Dodd William Bullitt Joseph Kennedy and W Averell Harriman Between Hitler's 1933 ascent to power and the 1945 bombing of Nagasaki US ambassadors sculpted formal policy occasionally deliberately other times inadvertently giving shape and meaning not always intended by Franklin D Roosevelt or predicted by his principal advisers From appeasement to the Holocaust and the onset of the Cold War David Mayers examines the complicated interaction between policy as conceived in Washington and implementation on the ground in Europe and Asia By so doing he also sheds needed light on the fragility ambiguities and enduring urgency of diplomacy and its crucial function in international politics *A Companion to Dwight D. Eisenhower* Chester J. Pach, 2017-04-10 *A Companion to Dwight D Eisenhower* brings new depth to the historiography of this significant and complex figure providing a comprehensive and up to date depiction of both the man and era Thoughtfully incorporates new and significant literature on Dwight D Eisenhower Thoroughly examines both the Eisenhower era and the man himself broadening the historical scope by which Eisenhower is understood and interpreted Presents a complete picture of Eisenhower's many roles in historical context the individual general president politician and citizen This Companion is the ideal starting point for anyone researching America during the Eisenhower years and an invaluable guide for graduate students and advanced undergraduates in history political science and policy studies Meticulously edited by a leading authority on the Eisenhower presidency with chapters by international experts on political international social and cultural history **The China-Burma-India Campaign, 1931-1945** Eugene L. Rasor, 1998-03-19 The China Burma India campaign of the Asian Pacific war of World War II was the most complex if not the most controversial theater of the entire war Guerrilla warfare commando and special intelligence

operations and air tactics originated here The literature is extensive and this book provides an evaluative survey of that vast literature A comprehensive compilation of some 1 500 titles the work includes a narrative historiographical overview and an annotated bibliography of the titles covered in the historiographical section Following an introductory historical essay and a chronology the historiographical narrative covers land water underwater air and combined operations intelligence matters diplomacy and logistics and supply It also examines the memoirs diaries autobiographies and biographies of the personnel involved Such cultural topics as journalism fiction film and art are analyzed and existing gaps in the literature are looked at The bibliography provides both descriptive and evaluative annotations

The Soviet Union and Communist China

1945-1950: The Arduous Road to the Alliance Dieter Heinzig, 2015-06-18 Drawing on a wealth of new sources this work documents the evolving relationship between Moscow and Peking in the twentieth century Using newly available Russian and Chinese archival documents memoirs written in the 1980s and 1990s and interviews with high ranking Soviet and Chinese eyewitnesses the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino Soviet alliance An appendix contains translated Chinese and Soviet documents many of which are being published for the first time The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950 It also looks at China's relationship with Moscow from 1920 to 1945 as well as developments from 1950 to the present The author reevaluates existing sources and literature on the topic and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion He also shows that the relationship between the two Communist parties was based on national interest politics and not on similar ideological convictions

The Cold War Ronald E. Powaski, 1997-09-25 For half of the twentieth century the Cold War gripped the world International relations everywhere and domestic policy in scores of nations pivoted around this central point the American Soviet rivalry Even today much of the world's diplomacy grapples with chaos created by the Cold War's sudden disappearance Here indeed is a subject that defies easy understanding Now comes a definitive account a startlingly fresh clear eyed comprehensive history of our century's longest struggle In *The Cold War* Ronald E. Powaski offers a new perspective on the great rivalry even as he provides a coherent concise narrative He wastes no time in challenging the reader to think of the Cold War in new ways arguing that the roots of the conflict are centuries old going back to Czarist Russia and to the very infancy of the American nation He shows that both Russia and America were expansionist nations with messianic complexes and the people of both nations believed they possessed a unique mission in history Except for a brief interval in 1917 Americans perceived the Russian government whether Czarist or Bolshevik as despotic Russians saw the United States as conspiring to prevent it from reaching its place in the sun U S military intervention in Russia's civil war with the aim of overthrowing Lenin's upstart regime entrenched Moscow's fears Soviet

American relations difficult before World War II when both nations were relatively weak militarily and isolated from world affairs escalated dramatically after both nations emerged as the world's major military powers Powaski paints a portrait of the spiraling tensions with stark clarity as each new development added to the rivalry the Marshall Plan the communist coup in Czechoslovakia the Berlin blockade the formation of NATO the first Soviet nuclear test In this atmosphere Truman found it easy to believe that the Communist victory in China and the Korean War were products of Soviet expansionism He and his successors extended their own web of mutual defense treaties covert actions and military interventions across the globe from the Caribbean to the Middle East and finally to Southeast Asia where containment famously foundered in the bog of Vietnam Powaski skillfully highlights the domestic politics diplomatic maneuvers and even psychological factors as he untangles the knot that bound the two superpowers together in conflict From the nuclear arms race to the impact of U S recognition of China on detente to Brezhnev's inflexible persistence in competing with America everywhere he casts new light on familiar topics Always judicious in his assessments Powaski gives due credit to Reagan and especially Bush in facilitating the Soviet collapse but also notes that internal economic failure not outside pressure proved decisive in the Communist failure Perhaps most important he offers a clear eyed assessment of the lasting distortions the struggle wrought upon American institutions raising questions about whether anyone really won the Cold War With clarity fairness and insight he offers the definitive account of our century's longest international rivalry State, 1994 *Newsletter* United States. Department of State, 1994 The Myth of Inevitable US Defeat in Vietnam Dale Walton, 2013-01-11 This book offers a dispassionate strategic examination of the Vietnam conflict that challenges the conventional wisdom that South Vietnam could not survive as an independent non communist entity over the long term regardless of how the United States conducted its military political effort in Indochina **How Hitler Could Have Won World War II** Bevin Alexander, 2007-12-18 From an acclaimed military historian a fascinating account of just how close the Allies were to losing World War II Most of us rally around the glory of the Allies victory over the Nazis in World War II The story is often told of how the good fight was won by an astonishing array of manpower and stunning tactics However what is often overlooked is how the intersection between Adolf Hitler's influential personality and his military strategy was critical in causing Germany to lose the war With an acute eye for detail and his use of clear prose Bevin Alexander goes beyond counterfactual What if history and explores for the first time just how close the Allies were to losing the war Using beautifully detailed newly designed maps *How Hitler Could Have Won World War II* exquisitely illustrates the important battles and how certain key movements and mistakes by Germany were crucial in determining the war's outcome Alexander's harrowing study shows how only minor tactical changes in Hitler's military approach could have changed the world we live in today Alexander probes deeply into the crucial intersection between Hitler's psyche and military strategy and how his paranoia fatally overwhelmed his acute political shrewdness to answer the most terrifying question Just how close were the Nazis to victory **The Pacific Basin since 1945** Roger C.

Thompson,2014-09-25 The nations of the Pacific Basin in East and Southeast Asia Australasia the Pacific islands and the Americas make up the world s largest economic zone and its most culturally diverse region In recent years its Asian Tiger Economies have suffered economic collapse and unfinished business from the Cold War has produced continuing conflict and instability The new edition of this pioneering book traces the postwar inter relationships of all the rim and island nations It gives a unique impression of the make up of the region and the tensions within it The book integrates a wide range of information from books and articles from published and unpublished sources including recently opened Russian and American archives and from the first hand experiences of participants including those of the author in Pacific Basin affairs Vigorously written and strongly argued no other account brings together all the threads of the development of international relations in this complex and fascinating region **Historical Dictionary of the Chinese Civil War** Christopher R.

Lew,Edwin Pak-wah Leung,2013-07-29 The Chinese Civil War which lasted several years or several decades depending on how you define it was one of the most momentous wars of the 20th century for it determined the fate of the world s most populous country and was bitterly fought with millions of combatants involved and hundreds of millions of civilians affected More to the point it was won by the Chinese Communist Party under Mao Zedong who imposed Communist rule while the Nationalists retreated to Taiwan It also heated up the Cold War for quite some time as the Communists were supported by the Soviet Union and the Nationalists by the United States This second edition of the Historical Dictionary of the Chinese Civil War studies the longer broader war and its chronology carefully tracks the major events The introduction then provides a broad overview describing the contending forces and showing how the Communists come out on top The details and these are crucial are laid out in over 200 cross referenced dictionary entries dealing with the opposing forces and parties the major campaigns and battles the Long March and of course the leadership on both sides This book one of few such in English provides a very solid basis for study but that can be accomplished more effectively by consulting the titles listed in an extensive bibliography How Maoism Was Made Aaron William Moore,Jennifer Altehenger,2024-12-26 How Maoism Was

Made features new scholarship on the early years after the Chinese Communist revolution showing how ordinary people in China built socialism through their contributions to industry science and the arts **Historical Dictionary of the Chinese Civil War** Edwin Pak-wah Leung,2002-10-16 The Chinese Civil War has been regarded by many as an important subject in the study of modern Chinese history as this protracted struggle ultimately led to the Communist victory on the Mainland and the Nationalist government s retreat to the island of Taiwan in 1949 Considered an extremely important turning point in modern Chinese history the Civil War is also of great international significance This resource the first of its kind written in English details the microscopic and macroscopic views of the Chinese Civil War people events places and institutions

American Defence Annual, 1994 Charles F. Hermann,1998-06-03 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com) *The Journal of American-East Asian Relations* ,2001 Restless

Empire Odd Arne Westad, 2012-08-28 As the twenty first century dawns China stands at a crossroads The largest and most populous country on earth and currently the world's second biggest economy China has recently reclaimed its historic place at the center of global affairs after decades of internal chaos and disastrous foreign relations But even as China tentatively reengages with the outside world the contradictions of its development risks pushing it back into an era of insularity and instability a regression that as China's recent history shows would have serious implications for all other nations In *Restless Empire* award winning historian Odd Arne Westad traces China's complex foreign affairs over the past 250 years identifying the forces that will determine the country's path in the decades to come Since the height of the Qing Empire in the eighteenth century China's interactions and confrontations with foreign powers have caused its worldview to fluctuate wildly between extremes of dominance and subjugation emulation and defiance From the invasion of Burma in the 1760s to the Boxer Rebellion in the early 20th century to the 2001 standoff over a downed U S spy plane many of these encounters have left Chinese with a lingering sense of humiliation and resentment and inflamed their notions of justice hierarchy and Chinese centrality in world affairs Recently China's rising influence on the world stage has shown what the country stands to gain from international cooperation and openness But as Westad shows the nation's success will ultimately hinge on its ability to engage with potential international partners while simultaneously safeguarding its own strength and stability An in depth study by one of our most respected authorities on international relations and contemporary East Asian history *Restless Empire* is essential reading for anyone wishing to understand the recent past and probable future of this dynamic and complex nation

Another Such Victory Arnold A. Offner, 2002 This book is a provocative and thoroughly documented reassessment of President Truman's profound influence on U S foreign policy and the Cold War The author contends that Truman remained a parochial nationalist who lacked the vision and leadership to move the United States away from conflict and toward detente Instead he promoted an ideology and politics of Cold War confrontation that set the pattern for successor administrations

Right here, we have countless book **Strange Connection U S Intervention In China 1944 1972** and collections to check out.
