Strange Landscape Journey:

Strange Landscape Christopher Frayling, 1995 The Middle Ages represented a flowering of spirituality and culture which in Europe has not been equalled since This book examines some of the great writers and thinkers of the period and the events in which they took part *Visionary Journeys* Xiaofei Tian, 2020-10-26 This book explores the parallel and yet profoundly different ways of seeing the outside world and engaging with the foreign at two important moments of dislocation in Chinese history namely the early medieval period commonly known as the Northern and Southern Dynasties 317-589 CE and the nineteenth century Xiaofei Tian juxtaposes literary historical and religious materials from these two periods in comparative study bringing them together in their unprecedentedly large scale interactions and their intense fascination with foreign cultures By examining various cultural forms of representation from the two periods Tian attempts to sort out modes of seeing the world that inform these writings These modes Tian argues were established in early medieval times and resurfaced in permutations and metamorphoses in nineteenth century writings on encountering the Other This book is for readers who are interested not only in early medieval or nineteenth century China but also in issues of representation travel visualization and modernity *The Infinite Elevator* Hugo Bainbridge, Tom our protagonist is the quintessential everyman He commutes He pays bills He dreams of winning the lottery but only if he doesn't have to work for it His life in short is as unremarkable as a beige wall Until that is he steps into an elevator that decides to redefine the meaning of vertical transport This isn't just any elevator it's an elevator that doesn't believe in limits spatial temporal or otherwise It's a vertical Rorschach test projecting the reader's own anxieties and probably a few singing vegetables onto the canvas of reality Each floor presents a new and increasingly absurd scenario one minute he's dodging opera singing onions the next he's attempting a horizontal waltz on a gravity reversed planet while engaging in a profound philosophical debate with a squirrel who claims to be the reincarnation of Socrates The humor is derived from the contrast between the utterly impossible situations and Tom's consistently relatable reactions His bewilderment his attempts to maintain some semblance of order his increasingly desperate searches for an exit or even a decent cup of coffee This is a journey into the absurd a celebration of the unexpected and a gently mocking investigation into the very nature of existence all packaged within a surprisingly fast paced and hilarious narrative So settle in reader You're in for a wild ride Just remember to leave your expectations at the door you'll need the space **Picturebooks** Evelyn Arizpe, Maureen Farrell, Julie McAdam, 2014-10-14 The picturebook is now recognized as a sophisticated art form that has provided a space for some of the most exciting innovations in the field of children's literature This book brings together the work of expert scholars from the UK the USA and Europe to present original theoretical perspectives and new research on picturebooks and their readers The authors draw on a variety of disciplines such as art and cultural history semiotics philosophy cultural geography visual literacy education and literary theory in order to revisit the question of what a picturebook is and how the best authors and illustrators meet and exceed

artistic narrative and cultural expectations The book looks at the socio historical conditions of different times and countries in which a range of picturebooks have been created pointing out variations but also highlighting commonalities It also discusses what the stretching of borders may mean for new generations of readers and what contemporary children themselves have to say about picturebooks This book was originally published as a special issue of the New Review of Children s Literature and Librarianship

The Place of Landscape Jeff Malpas, 2011 Interdisciplinary perspectives on landscape from the philosophical to the geographical with an emphasis on the overarching concept of place This volume explores the conceptual topography of landscape It examines the character of landscape as itself a mode of place as well as the modes of place that appear in relation to landscape Leading scholars from a range of disciplines explore the concept of landscape including its supposed relation to the spectatorial its character as time space its relation to indigenous notions of country and its liminality They examine landscape as it appears within a variety of contexts from geography through photography and garden history to theology and more specific studies look at the forms of landscape in medieval landscape painting film and television and in relation to national identity The essays demonstrate that the study of landscape cannot be restricted to any one genre cannot be taken as the exclusive province of any one discipline and cannot be exhausted by any single form of analysis What the place of landscape now evokes is itself a wide ranging terrain encompassing issues concerning the nature of place of human being in place and of the structures that shape such being and are shaped by it

On the Origin of Tepees Jonnie Hughes, 2012-06-19 We humans pride ourselves on our capacity to have ideas but perhaps this pride is misplaced Perhaps ideas have us After all ideas do appear to have a life of their own Many biologists have already come to the opinion that our genes are selfish entities tricking us into helping them to reproduce Is it the same with our ideas Jonnie Hughes a science writer and documentary filmmaker investigates the evolution of ideas in order to find out Adopting the role of a cultural Charles Darwin Hughes heads off with his brother in tow across the Midwest to observe firsthand the natural history of ideas the patterns of their variation inheritance and selection in the cultural landscape In place of Darwin s oceanic islands Hughes visits the mind islands of Native American tribes Instead of finches Hughes searches for signs of natural selection among the tepees From publisher description

The Grand Masters of the Knights Templar in the Kingdom of Jerusalem Albin Wallace, 2025-05-06 The Order of the Poor Fellow Soldiers of Christ and of the Temple of Solomon was established in the aftermath of the First Crusade The Templars became not only defenders but also active participants in military campaigns during the subsequent Crusades Their commitment to safeguarding pilgrims strategic

collaborations economic activities and military contributions shaped their legacy in the Middle East But internal challenges external conflicts and the changing dynamics of the Crusades ultimately contributed to their decline and the eventual loss of their presence in Jerusalem Despite their fall the Knights Templar left an indelible mark on the history of the Crusades embodying the ideals and complexities of the Crusader era Although there are many books dealing with the persecution and trial of the Templars or the supposedly esoteric aspects of the Order there are fewer publications that solely discuss the Templar Grand Masters their activities and influence in the Kingdom of Jerusalem during the peak of their power This short book focusses on that time and is intended to add to this important element of their history *City and Cosmos* Keith D. Lilley, 2009-09-01 In *City and Cosmos* Keith D Lilley argues that the medieval mind considered the city truly a microcosm much more than a collection of houses a city also represented a scaled down version of the very order and organization of the cosmos Drawing upon a **The Routledge Research Companion to Heritage and Identity** Peter Howard, 2016-03-16 Heritage represents the meanings and representations conveyed in the present day upon artifacts landscapes mythologies memories and traditions from the past It is a key element in the shaping of identities particularly in the context of increasingly multicultural societies This Research Companion brings together an international team of authors to discuss the concepts ideas and practices that inform the entwining of heritage and identity They have assembled a wide geographical range of examples and interpret them through a number of disciplinary lenses that include geography history museum and heritage studies archaeology art history history anthropology and media studies This outstanding companion offers scholars and graduate students a thoroughly up to date guide to current thinking and a comprehensive reference to this growing field

Key West Hemingway Kirk Curnutt, Gail D. Sinclair, 2016-09-13 No other work has focused so sharply and revealed so clearly the vitality of Hemingway's time in Key West Key West Hemingway shows that even as his Papa persona grew during the 1930s Hemingway continued to generate a significant body of nuanced and complex if also misunderstood experimental prose With keen scrutiny and brilliance these fresh and readable essays rediscover and give us Hemingway's multifaceted American literary voices Linda Patterson Miller editor of *Letters from the Lost Generation* This impressive and cohesive collection of essays on Hemingway's Key West works and days puts into proper critical and biographical perspective one of the least understood yet most productive periods in his life Husband lover father son fisherman political activist defender of the vets essayist and crafter of fiction it's all here close up and wide angle the American Hemingway of 1928-1940 in all his facets the rough diamond in the Florida sun Allen Josephs author of *Ritual and Sacrifice in the Corrida* Conventional wisdom holds that Hemingway's Key West years were among his least productive and many are dismissive of the works he produced during that time In this collection several leading Hemingway scholars focus on his overlooked short stories and essays especially those written for *Esquire* from 1933 to 1936 They demonstrate how the island inspired some of his most vivid work and discuss how the Hemingway industry continues to endure Kirk Curnutt is professor and chair of English at Troy

Outback and Out West Tom Lynch, 2022-11 Outback and Out West examines the ecological consequences of a settler colonial imaginary by comparing expressions of settler colonialism in the literature of the American West and Australian Outback Tom Lynch traces exogenous domination in both regions which resulted in many similar means of settlement including pastoralism homestead acts afforestation efforts and bioregional efforts at belonging Lynch pairs the two nations

texts to show how an analysis at the intersection of ecocriticism and settler colonialism requires a new canon that is responsive to the social cultural and ecological difficulties created by settlement in the West and Outback Outback and Out West draws out the regional Anthropocene dimensions of settler colonialism considering such pressing environmental problems as habitat loss groundwater depletion and mass extinctions Lynch studies the implications of our settlement heritage on history art and the environment through the cross national comparison of spaces He asserts that bringing an ecocritical awareness to settler colonial theory is essential for reconciliation with dispossessed Indigenous populations as well as reparations for ecological damages as we work to decolonize engagement with and literature about these places

Framing Famous Mountains Li-tsui Flora Fu, 2009 Treating landscape painting as yet another framing systems in both the symbolic and material sense this book examines sixteenth century paintings of famous mountains by three major artists in the light of a diachronic account of the evolution of famous mountains over time and a synchronic account of the vogue for the grand tour in late Ming society Book Jacket Comparative Law and Anthropology James A.R. Nafziger, 2017-12-29 The topical chapters in this cutting edge collection at the intersection of comparative law and anthropology explore the mutually enriching insights and outlooks of the two fields Comparative Law and Anthropology adopts a foundational approach to social and cultural issues and their resolution rather than relying on unified paradigms of research or unified objects of study Taken together the contributions extend long developing trends from legal anthropology to an anthropology of law and from externally imposed to internally generated interpretations of norms and processes of legal significance within particular cultures The book s expansive conceptualization of comparative law encompasses not only its traditional geographical orientation but also historical and jurisprudential dimensions It is also noteworthy in blending the expertise of long established acclaimed scholars with new voices from a range of disciplines and backgrounds *Cultural Turns/geographical Turns* Ian Cook, 2000 This book addresses the impact significance and characteristics of the cultural turn in contemporary geography It focuses on the development of the cultural geography subdiscipline and on what has made it a peculiar and unique realm of study It demonstrates the importance of culture in the development of debates in other subdisciplines within geography and beyond In line with these previous themes the significance of space in the production of cultural values and expressions is also developed Along with its timely examination of the health of the cultural geographical subdiscipline this book is to be valued for its analysis of the impact of cultural theory on studies elsewhere in geography and of ideas of space and spatiality elsewhere in the social sciences The scope of the book is therefore broad covering work that spans the geographical discipline and even going beyond that to touch on debates in the social sciences and humanities The book s potential readership is also broad The summary chapters which precede each section will appeal to undergraduate students whilst chapters written by individuals leading their fields will be compulsory reading for researchers at all levels of higher education Uncanny Inhumans Vol. 4 Charles Soule, 2017-05-24 Collecting Uncanny Inhumans 15 20 Join the Inhumans on

a path to war with the X Men In the depths of Black Bolt's Quiet Room a plan is being hatched that will decide the future of Inhumanity The daughters of the fallen Inhuman Auran are plotting a desperate attempt to resurrect her as well as revenge against her murderer They will reunite their family even if means the fall of their entire race because the cost of cheating death is high And as the recriminations from one battle linger a fresh conflict looms and the X Men will be fierce foes because they're fighting for their very lives

Literature and the Writer, 2016-08-09 Literature and the Writer was first conceived with the hope the essays would shed light on several dimensions of the authorial craft It was the hope of the editor that the selected essays would examine not only writers choice of vocabulary but also their deliberate selection of grammatical constructions and word order and their seamless weaving together of plots and imagery Moreover the analyses would also draw attention to how the writing process impacts the development of characters and the formulation of thematic strands in fiction Thus a wide variety of authors are deliberately selected to give the text depth writers of popular fiction as well as modern classics are included and contrasts are established between traditional writers and those who prefer to follow experimental trends Modernists are set against postmodernists absurdists vs realists minority ethnicities vs majority cultures and dominant genders appear in contrast to subordinated ones Clearly the major tenet of the collection is that the writing profession provides an unending dilemma that deserves to be explored in more detail as readers try to determine how authorial voices confuse while simultaneously elucidating their audience how texts are constructed by authors and yet deconstructed by the very words they choose to include how silence functions as inaudible yet audible discourse and how authorial self concept shapes not only itself but is also echoed in the fictional characters writers who appear in the texts
