**UNCOVERING CORRUPT SCIENCE** PSJ (Peet) Schutte, 2013-07-17 Modern science or what I call Newtonian science is altogether wrong Nothing can stand still in the Universe and remain a part of the Universe The Universe is the movement thereof Everything in the Universe has to move should it wish to be and everything in the Universe moves and in circles but everything moves There is no mass but only movement and movement is

gravity and gravity is time forming space But how does this system work and how does this system form an entire Universe as big as the one we have Read this and see how the Universe is truly stitched together by nature and not by Newton's fantasy It works exactly as Kepler said it does in the tables Kepler left us to study Space by three forms a circle by two that moves straight by one and that forms the six sided Universe we enjoy as a reality Imagining Outer Space Alexander C.T. Geppert, 2018-04-25 Imagining Outer Space makes a captivating advance into the cultural history of outer space and extraterrestrial life in the European imagination How was outer space conceived and communicated What promises of interplanetary expansion and cosmic colonization propelled the project of human spaceflight to the forefront of twentieth century modernity In what way has West European astroculture been affected by the continuous exploration of outer space Tracing the thriving interest in spatiality to early attempts at exploring imaginary worlds beyond our own the book analyzes contact points between science and fiction from a transdisciplinary perspective and examines sites and situations where utopian images and futuristic technologies contributed to the omnipresence of fantasmatic thought Bringing together state of the art work in this emerging field of historical research the volume breaks new ground in the historicization of the Space Age *UFO Cover-up* Bill Fawcett, Lawrence Fawcett, Barry J.
