Ellipsis and Nonsentential Speech Reinaldo Elugardo, Robert J. Stainton, 2005-08-26 The papers in this volume address two main topics

Q1 What is the nature and especially the scope of ellipsis in natural l guage Q2 What are the linguistic philosophical implications of what one takes the nature scope of ellipsis to be As will emerge below each of these main topics includes a large sub part that deals speci cally with nonsentential speech Within the rst main topic Q1 there arises the sub issue of whether nonsentential speech falls within the scope of ellipsis or not within the second main topic Q2 there arises the sub issue of what linguistic philosophical implications follow if nonsentential speech does does not count as ellipsis

I THE NATURE AND SCOPE OF ELLIPSIS A General Issue How Many Natural Kinds There are many things to which the label ellipsis can be readily applied But it s quite unclear whether all of them belong in a single natural kind To explain consider a view assumed in Stainton 2000 Stainton 2004a and elsewhere It is the view that there are fundamentally at least three very different things that readily get called ellipsis each belonging to a distinct kind First there is the very broad phenomenon of a speaker omitting information which the hearer is expected to make use of in interpreting an utterance Included therein possibly as a special case is the use of an abbreviated form of speech when one could have used a more explicit expression See Neale 2000 and Sellars 1954 for more on this idea

A Dictionary of the English Language: in Wich the Words are Deduced from Their Originals, and Illustrated in Their Different Significations by Examples from the Best Writers ... By Samuel Johnson. In Two Volumes. Vol. 1. [-2.] ,1777 Verbal-Visual Configurations in Postcolonial

Literature Birgit Neumann, Gabriele Rippl, 2020-04-23 Examining a range of contemporary Anglophone texts this book opens up postcolonial and transcultural studies for discussions of visibility and vision It argues that the preoccupation with visual practices in Anglophone literatures addresses the power of images vision and visual aesthetics to regulate cultural visibility and modes of identification in an unevenly structured world The representation of visual practices in the imaginative realm of fiction opens up a zone in which established orders of the sayable and visible may be revised and transformed In 12 chapters the book examines narrative fiction by writers such as Michael Ondaatje Derek Walcott Salman Rushdie David Dabydeen and NoViolet Bulawayo who employ word image relations to explore the historically fraught links between visual practices and the experience of modernity in a transcultural context Against this conceptual background the examination of verbal visual relations will illustrate how Anglophone fiction models alternative modes of representation that reflect critically on hegemonic visual regimes and reach out for new more pluralized forms of exchange

Words and Thoughts Robert Stainton, 2006 It is a near truism of philosophy of language that sentences are prior to words that they are the only things that fundamentally have meaning Robert s Stainton s study interrogates this idea drawing on a wide body of evidence to argue that speakers can and do use mere words not sentences to communicate complex thoughts
