Sexual Offending by Strangers Paul V. Greenall, 2024-08-01 Exploring a specific type of sexual violence committed by a specific type of sexual offender namely adult male on adult female stranger sexual violence this book provides readers with an enhanced understanding of both the offences being committed and the offenders who commit them Although acts of serious stranger sexual violence are rare they are important as they occur in the context of there being no pre existing relationship between the offender and victim meaning they present significant challenges to criminal justice practitioners who are required to investigate assess and understand such offending Arguing for the importance of adopting an ideographic perspective this book encourages readers to draw upon a variety of different theories and models as appropriate such as considering the impact of a behavioural conditioning process where sexual violence is a manifestation of prior learning or early life experiences Divided into four sections this comprehensive volume guides the reader through key concepts different types of stranger sexual violence and applications to criminal justice practice Sexual Offending by Strangers will be of use to police officers prison officers and practitioners working with offenders in either secure or community settings It will also be of value to students and scholars researching the topic of sexual violence

Rethinking Homicide Terance D. Miethe, Wendy C. Regoeczi, Kriss A. Drass, 2004-01-19 Using multiple data sources and methods this book involves a micro historical analysis of the nature of change and stability in homicide situations over time It focuses on the homicide situation as the unit of analysis and explores similarities and differences in the context of homicide for different social groups For example using Qualitative Comparative Analysis we investigate whether various social groups e g men vs women teenagers vs adults strangers vs intimates Blacks vs Whites kill under qualitatively different circumstances and if so what are the characteristics of these unique profiles The analysis of over 400 000 US homicides is supplemented with qualitative analysis of narrative accounts of homicide events to more fully investigate the structure and process underlying these lethal situations Our findings of unique and common homicide situations across different time periods and social groups are then discussed in terms of their implications for criminological theory and public policy

Imagining Criminology Frank P. Williams 3rd, 2019-05-24 First published in 1999 This concludes work on a series Current Issues in Criminal Justice Criminology The book represents another milestone in a criminologist's journey to uncover some truths about the discipline and to reflect critically on how that field has evolved This journey some of you may remember began in The Sociology of Criminological Theory Paradigm or Fad and continued in The Demise of the Criminological Imagination To date this latest work has already attracted considerable debate and in the tradition of C Wright Mills engendered somewhat heated discussion about the philosophy of criminology and the logic of its paradigms What is perhaps most exciting about this work is that it is critical in the true sense of critical a term that has been abused and overused

The Southern

Subculture of Drinking and Driving Julian B. Roebuck, Komanduri S. Murty, 2021-08-05 First published in 1996 The Southern Subculture of Drinking and Driving is part of the Criminal Justice series Volumes in the Current Issues in Criminal Justice series focus on scholarship original thought and research and readability This one is no different Julian B Roebuck and Komanduri S Murty have produced a volume that will be of vital interest to those who study and create policy on drunken driving one of the more enduring social problems of the past two decades The volume has two major components that make it unique in the drunken driving literature First Roebuck and Murty focus on drunken drivers themselves and through the use of a large dataset add to our knowledge of that group of people by describing their characteristics Second and perhaps more important Roebuck and Murty delve into the phenomenology of the drunken driver through a lengthy interview process

African Americans and the Criminal Justice System Marvin D. Free, 1996 Twenty nine collected essays represent a critical history of Shakespeare's play as text and as theater beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991 The criticism centers on three aspects of the play the love friendship debate

The Contours of Psychiatric Justice Bruce A. Arrigo, 1996 Twenty nine collected essays represent a critical history of Shakespeare's play as text and as theater beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991 The criticism centers on three aspects of the play the love friendship debate

Individualized Intervention with Young Multiple Offenders Ted Palmer, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company

Policing Change, Changing Police Otwin Marenin, 2018-10-24 First published in 1996 In keeping with the other volumes in the Current Issues in Criminal justice series this anthology is a prime example of joining readability and scholarship Editor Otwin Marenin has thoughtfully commissioned and compiled an excellent group of essays on the role of police in changing societies by a very knowledgeable group of scholars Moreover Marenin has added substantially to the collection through his own insightful contributions

Robbing Drug Dealers Bruce Jacobs, 2017-09-29 This volume fills a research gap of striking proportions by exploring the contingencies that mediate the crimes perpetrated on those who are themselves perpetrators The notion that violence is something that happens only to law abiding citizens is both widely held and inaccurate The disproportionate share of victims of crime are in reality themselves involved in crime Yet existing scholarship has failed to explore the contingencies that mediate offenses like drug robbery from the forces that inspire it to the methods used to select targets to the means employed to generate compliance down to the tactics used to thwart retaliatory attempts after the crime has ended Given that predatory behavior between and among offenders ultimately spreads to society at large the contagion effect a research gap of striking proportions has emerged The imprudence of robbing other criminals is widely assumed Yet criminologists paradoxically observe that a major benefit of robbing fellow criminals is that they cannot report the offense to the authorities Why then should offenders elect to reduce their odds of getting arrested at the cost of enhancing their chances of getting killed Drawing on candid interviews with the

perpetrators Jacobs attempts to answer such questions and fill this gap in the research agenda of criminology The result is a narrative that explores the world of street corner drugs from the vantage point of those who actually commit these high risk crimes It also introduces serious ethical issues that criminology and law enforcement tend to gloss over or ignore entirely This work is innovative and troubling at the same time It takes a theme that Hollywood films have explored in greater depth than social science and restores it as a crucial part of the ethnography of crime Research Strategies for Secondary Data

Marc Riedel,1999-11-10 Until now books on secondary data have described sources of secondary data with an emphasis on description that had little to do with crime and deviance Research Strategies for Secondary Data changes all that because it is designed specifically for secondary data users in criminology and criminal justice In addition to describing data sources available through archives and the Internet it provides a perspective on secondary data This perspective consists of discussing the role of secondary data in criminology and criminal justice its strengths limitations and the different ways that secondary data can be disaggregated and interpreted The book also discusses the nature of hypotheses and design as they relate to the constraints of secondary data There are chapters devoted to evaluation guidelines for official statistics and official records how official records such as police department files can be accessed and the legal implications of using secondary data in light of legislation like the Freedom of Information Acts **Extreme Killing** James Alan Fox,Jack

Levin,2014-04-15 Filled with contemporary and classic case studies this fascinating overview of both serial and mass murder illustrates the many violent expressions of power revenge terror greed and loyalty Throughout the book renowned experts James Alan Fox and Jack Levin examine the theories of criminal behavior and apply them to a multitude of mass and serial murderers from around the world such as Adam Lanza Newtown CT James Holmes Aurora CO cinema Anders Breivik Oslo Norway Charles Manson Helter Skelter and Dennis Rader BTK This fully updated Third Edition of Extreme Killing helps readers understand the commonalities and variations among multiple murders addresses the characteristics of both killers and their victims and in the concluding chapter discusses the special concerns of multiple murder victims and their survivors

Lawful Order Leo Carroll,2005-09-14 Prisons remain a controversial topic for debate in our society While few doubt the necessity of their existence there is considerable debate over their purpose organization and processes Do prisons exist to rehabilitate punish or simply incarcerate How do we judge prison conditions If those conditions are found to be unacceptable how do we change them What are a prisoner s rights This book charts the history of Rhode Island s Adult Correctional Institutions over the past 40 years Professor Carroll examines the radical transformation of Rhode Island prisons in response to changes in their external environment and determines that the transformation can be seen to manifest five distinct stages patriarchy anarchy restoration threat and consolidation **The Public Realm** Lyn H. Lofland,2017-07-12 This book is about

the public realm defined as a particular kind of social territory that is found almost exclusively in large settlements This particular form of social psychological space comes into being whenever a piece of actual physical space is dominated by

relationships between and among persons who are strangers to one another as often occurs in urban bars buses plazas parks coffee houses streets and so forth More specifically the book is about the social life that occurs in such social psychological spaces the normative patterns and principles that shape it the relationships that characterize it the aesthetic and interactional pleasures that enliven it and the forces anti urbanism privatism post war planning and architecture that threaten it The data upon which the book s analysis is based are diverse direct observation interviews contemporary photographs historic etchings prints and photographs and historical maps histories of specific urban public spaces or spatial types and the relevant scholarly literature from sociology environmental psychology geography history anthropology and architecture and urban planning and design Its central argument is that while the existing body of accomplished work in the social sciences can be reinterpreted to make it relevant to an understanding of the public realm this quintessential feature of city life deserves much more u it deserves to be the object of direct scholarly interest in its own right Choice noted that The author s writing style is unusually accessible and the often fascinating narrative is generously supported by well chosen photos

Understanding Corporate Criminality Michael B. Blankenship,2013-10-08 First Published in 1995 The Exxon Valdez catastrophe the savings and loan bailout defense contractor fraud and insider trading scandals have inspired a growing number of courses devoted to the subject of corporate criminality This collection of original essays treats various aspects of a wide ranging problem including the evolution of the study of corporate crime the difficulties of understanding corporate illegality the nature and extent of corporate crime financial and social costs measurement issues the regulation of corporate behavior public perceptions and the punishment of corporate crime The Rehnquist Court and Criminal Punishment Christopher E. Smith,2014-02-04 First Published in 1997 Organised in a easily readable format this book on the Supreme Court and punishment takes the reader through the sentencing and incarceration issues that have been so controversial and yet so relatively unchanged over the years **Academic Professionalism in Law Enforcement**

Bernadette Jones Palombo,1995 **The Politics of Community Policing** Wilson Edward Reed,2013-06-17 First published in 1999 As with the other volumes in this series readers will appreciate the clear and compelling way this case study is presented Reed critiques the way in which political and economic dynamics not only threaten but convolute the intended benefits of community policing Although you may not always agree with the author s interpretations he has given us a compelling look at the potential for corruption of model programs *The Management of Correctional Institutions* Marilyn D. McShane, Franklin P. Williams,1993 Section 1 pages 1 to 68 presents an overview of the literature on prison management and the results of a national survey of wardens which enquired into actual management styles problem solving techniques and decision making approaches The national survey aimed to determine how much the literature reflected the wardens management practices Findings showed that corrections management largely reflects the literature in that it has inconsistencies an emphasis on personnel experience and an inward focus These results were used to develop a perspective

focusing on a humane and caring relationship between manager and staff Section 2 pages 72 to 301 contains abstracts of the 100 most important works both essay and research on correctional institution management Media, Process, and the Social Construction of Crime Gregg Barak, 2013-10-28 First published in 1995 One of the most pervasive forms of social control in our society is the mass media The public learns from television newspapers magazines movies and books what is happening in the world and how to interpret it The problem however is that full or complete interpretations of reality are not presented In short reality itself clear and unadorned is not to be found in the information provided by the media Instead media presentations consist of those various viewpoints that succeed in capturing the minds and imaginations of the masses or in terms of the 1992 presidential campaign that successfully put the winning spin on information Barak and others believe that criminologists should participate in the various media presentations of crime and justice By bringing their knowledge to bear on media presentations criminologists can help make some news more representative and less distorted of the social reality of crime
