Strasbourg In Transition 1648 1789:

Strasbourg in Transition, 1648-1789 Franklin Lewis Ford, 1966 Professor Ford concentrates on the critical century and a half ushered in by the Peace of Westphalia and brought to a violent close by the French Revolution. This was a period of transition in Strasbourg as French elements were introduced and combined with German tradition to produce not a national but a uniquely continental culture. Professor Ford examines in detail the political and economic life of the free Imperial city, the gradual economic and cultural changes under French rule in the early part of the eighteenth century, and the rapid cultural and social alterations during the thirty or forty years before the French Revolution when Strasbourg became a city more than half Catholic, essentially bilingual and dominated by French rather than by German standards. He has made full use of both French and German sources, published and unpublished, to provide a new interpretation of the life of early modern Europe from the vantage point of a single strategically located community. Commemorating the Dead in Late Medieval Strasbourg Charlotte A. Stanford, 2016-05-23 The Book of Donors for Strasbourg cathedral is an extraordinary medieval document dating from ca 1320-1520 with 6,954 entries from artisan, merchant, and aristocratic classes. These individuals listed gifts to the cathedral construction fund given in exchange for prayers for the donors' souls. The construction administrators of the Oeuvre Notre-Dame also built a chapel dedicated to the Blessed Virgin Mary in the nave that housed the book and showcased prayers and masses for the building benefactors. Chapel book and west front project formed a three-part commemorative strategy that appealed to the faithful of the city and successfully competed against other religious establishments also offering memorial services. Charlotte A. Stanford's study is the first to comprehensively analyze the unpublished Book of Donors manuscript and show the types and patterns of gifts made to the cathedral. It also compares these gift entries with those in earlier obituary records kept by the cathedral canons as well as other medieval obituary notices kept by parish churches and convents in Strasbourg. Analysis of the Book of Donors notes the increase of personal details and requests in fifteenth-century entries and discusses the different memorial opportunities available to the devout. This study draws a vivid picture of life in late medieval Strasbourg as seen through the lens of devotional and memorial practices and will be of particular interest to scholars of art history, memory, and medieval urban life. **The Formation of the German Chemical Community 1720-1795** Karl Hufbauer, 2023-11-15 The Formation of the German Chemical Community 1720-1795 delves into the development of the chemical discipline in Germany during the 18th century, specifically focusing on the social and institutional conditions that led to the creation of a national community of chemists. The study examines how chemists in Germany began to perceive themselves as a cohesive professional group united by shared goals and responsibilities and how this solidarity influenced their reception of revolutionary scientific ideas such as Lavoisier's theory. Through a thorough analysis of key figures, journals, and institutional histories, the book provides a nuanced understanding of the intellectual and social networks that fostered the rise of chemistry as a distinct scientific field in

Germany The book explores how the German chemical community was shaped not just by intellectual currents but also by external support from the Enlightenment including financial and moral backing from state and academic institutions It emphasizes how chemists particularly those following the rational utilitarian approach led by figures like G E Stahl distanced themselves from alchemy and iatrochemistry positioning chemistry as a rational science with wide reaching practical applications By tracing the formation of this community and its response to scientific revolutions the author argues that the evolution of chemistry in Germany during the 18th century played a crucial role in the professionalization of the science in the 19th century This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982

The Abbe Gregoire and the French Revolution Alyssa Goldstein Sepinwall,2021-06-08 In this age of globalization the eighteenth century priest and abolitionist Henri Gr goire has often been called a man ahead of his time An icon of antiracism a hero to people from Ho Chi Minh to French Jews Gr goire has been particularly celebrated since 1989 when the French government placed him in the Pantheon as a model of ideals of universalism and human rights In this beautifully written biography based on newly discovered and previously overlooked material we gain access for the first time to the full complexity of Gr goire s intellectual and political universe as well as the compelling nature of his persona His life offers an extraordinary vantage from which to view large issues in European and world history in the late eighteenth and early nineteenth centuries and provides provocative insights into many of the prevailing tensions ideals and paradoxes of the twenty first century Focusing on Gr goire s idea of regeneration that people could literally be made anew Sepinwall

argues that revolutionary universalism was more complicated than it appeared Tracing the Revolution's long term legacy she suggests that while it spread concepts of equality and liberation throughout the world its ideals also helped to justify colonialism and conquest The Early Modern City 1450-1750 Christopher R. Friedrichs, 2014-06-06 A pioneering text which covers the urban society of early modern Europe as a whole Challenges the usual emphasis on regional diversity by stressing the extent to which cities across Europe shared a common urban civilization whose major features remained remarkably constant throughout the period After outlining the physical political religious economic and demographic parameters of urban life the author vividly depicts the everyday routines of city life and shows how pitifully vulnerable city dwellers were to disasters epidemics warfare and internal strife Living with Antisemitism Jehuda Reinharz, 1987 The issues are addressed in both a historical and theoretical context several essays Center around questions which are often overlooked in similar works **Routledge Revivals: French Cities in the Nineteenth Century (1981)** John

Merriman, 2018-02-01 Originally published in 1981 French Cities in the Nineteenth Century analyses large scale processes of social change and looks at how this affected the growth of towns and cities of nineteenth century France The book addresses how this change affected the politics of life in France during the nineteenth century as well as how the city was organised Urbanization created new uses of space and new concerns for the people that lived among them and the book looks at how social change was a collective experience for the people of France and how this transformed the societies in which they lived

The Cult of the Nation in France David Avrom. BELL, David Avrom Bell, 2009-06-30 In a work of lucid prose and striking originality Bell offers the first comprehensive survey of patriotism and national sentiment in early modern France and shows how the dialectical relationship between nationalism and religion left a complex legacy that still resonates in debates over French national identity today Table of Contents Preface Introduction Constructing the Nation 1 The National and the Sacred 2 The Politics of Patriotism and National Sentiment 3 English Barbarians French Martyrs 4 National Memory and the Canon of Great Frenchmen 5 National Character and the Republican Imagination 6 National Language and the Revolutionary Crucible Conclusion Toward the Present Day and the End of Nationalism Notes Note on Internet Appendices and Bibliography Index Reviews of this book Bell delineates the history of nationalism in France tracing its origins to the 17th century He shows how in 18th century France political and intellectual leaders made perfect national unity a priority allowing the construction of the nation to take precedence over other political tasks The goal was to provide all French people with the same language laws customs and values Bell argues that while the French leaders hoped that patriotism and national sentiment would replace religion as the binding force it was actually religion that was a major but not exclusive factor in helping the French see the world around them This period of history was the beginning of the first large scale nationalist program Bell also shows how the relationship between nationalism and religion contributes to the French national identity debate today Bell's comprehensive and well documented book is written in an accessible style Recommended for

eighteenth century emancipator of the French Jews His early business providing forage for thousands of horses of the French military garrisoned in Alsace grew into a huge military supply business that earned him the profound respect of French Kings Louis XV and XVI After receiving his French naturalization papers from Louis XVI as a reward for his service to the French Crown Cerf Berr worked tirelessly on behalf of his Ashkenazi co religionists to win their political emancipation in France on September 27 1791

Law's Dominion Jay R. Berkovitz,2019-11-26 In *Law's Dominion* Jay Berkovitz offers a novel approach to the history of early modern Jewry Set in the city of Metz on the Moselle river this study of a vibrant prerevolutionary community draws on a wide spectrum of legal sources that tell a story about community religion and family that has not been told before Focusing on the community's leadership public institutions and judiciary this study challenges the assumption that Jewish life was in a steady state of decline before the French Revolution To the contrary the evidence reveals a robust community that integrated religious values and civic consciousness interacted with French society and showed remarkable signs of collaboration between Jewish law and the French judicial system In *Law's Dominion* Jay Berkovitz has gathered and meticulously mined a dazzling array of rich and complex rabbinic texts and records from Western Europe during the early modern period including the pinkas of the rabbinic court of Metz that he previously rescued from oblivion What emerges is a remarkably fresh depiction and incisive comparative treatment of central aspects of Jewish law religion and family which will have far reaching ramifications for all future studies in these disciplines Ephraim Kanarfogel E Billi Ivry University Professor of Jewish History Literature and Law at Yeshiva University *Routledge Library Editions: Historiography* Various,2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect

Absolute monarchy on the frontiers Phil McCluskey,2016-05-16 French territorial ambitions and consequent military activity during the reign of Louis XIV ensured that a number of territories bordering on France were subject to military occupation for strategic reasons from the 1660s onwards Drawing on extensive archival research this study presents the occupation of two of these territories Lorraine and Savoy from a comparative perspective It investigates the aims and intentions of the French monarchy in occupying these regions the problems of administering them and French relations with key local elite groups Absolute

monarchy on the frontiers makes a significant contribution to understanding this crucial era in the development of civil military relations. It also places the occupations of Lorraine and Savoy within the framework of recent scholarship on early modern border societies and frontiers and on the practice of absolutism at the frontiers of the French kingdom. The book will appeal particularly to scholars and students of early modern France and Europe. Louise Humann (1766-1836) Margaret R. O'Leary, 2016-08-30 Upon Mademoiselle Louise Humann's death in 1836 a distraught Abbé Thodore Ratisbonne said of his spiritual mother: Here lays this sweet strong Christian who from the depths of her quiet secluded home has exercised more influence on the world of her time than will ever be known. Yet in an era when women had few opportunities to excel or contribute to society outside the home how did this brilliant and pious French mystic help re-Christianize France following the upheaval of the French Revolution? In Louise Humann 1766-1836 Re-Christianizing Post-Revolutionary France author Margaret R. O'Leary provides a thorough and comprehensive English language exploration of the history and life of a woman whose extraordinary intellectual prowess, range of thought and curiosity helped assist a risky underground pastoral ministry during the French Revolution and rebuild the decimated Roman Catholic diocese of Mayence, France. From her early years as a youth receiving the daily light of God to the later development of her radical Christian philosophy, a philosophy that so confounded Pope Gregory XVI that he said she and her disciples had sinned by an excess of faith, the history of Louise Humann comes alive in detailed historical records, letters and biographies. Though an anachronism for her time, a woman with the mind of a man and the capabilities of a scholar, said one professor who knew her as a youth, the power of Louise Humann's apostolate is central for understanding the direction and development of the Roman Catholic Church and the Congregation de Notre Dame de Sion in the nineteenth century. Conflicting Visions of Reform Miriam Usher Chrisman, 1996 Cultural and textual analysis of 300 German propaganda pamphlets reveals lay people responding to the Protestant Reformation. They urge changes based on the perceptions and aspirations of their social class, supporting their proposals by personal interpretations of the Bible. *Enlightenment Volume 2* Peter Gay, 2013-06-26 The Science of Freedom completes Peter Gay's brilliant reinterpretation begun in *The Enlightenment: The Rise of Modern Paganism*. In the present book he describes the philosophes' program and their views of society. His masterful appraisal opens a new range of insights into the Enlightenment's critical method and its humane and libertarian vision. Privilege and Profit P. W. Bamford, 2016-11-11 This book is a volume in the Penn Press Anniversary Collection. To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1,100 titles from Penn Press's distinguished backlist from 1899-1999 that had fallen out of print. Spanning an entire century the Anniversary Collection offers peer-reviewed scholarship in a wide range of subject areas.

Europe in the Seventeenth Century Donald Pennington, 2015-12-14 As before the second edition of this widely used survey is in two main parts. The first analyses the major themes of seventeenth-century European history on a continent-wide basis. The second part moves on to outline political, diplomatic and military events in the various states and nations of the

time For the second edition all the chapters have been rewritten to take account of recent scholarship Moreover many new topics are discussed the family crime the impact of printing climate population and social mobility Islam in seventeenth century Europe Throughout the book emphasises current lines of research and controversy to illustrate that the history of the period is a process of enquiry and argument rather than incontrovertible fact
