

Strategic Decision Making

Richard J. Arend

Strategic Decision Making:

Strategic Decision Making Niels G. Noorderhaven, 1995 This work adopts a theoretical approach and focuses on strategic decision making as a process It describes decision making as an activity performed by rational and biased individuals and places an emphasis upon group dynamics and the organizational context **Top Decisions** David John Hickson, University of Bradford. Management Centre, 1986 Based on studies carried out at the Bradford Management Centre in Britain 1970 1984 Strategic Decision Making Simon Haslam, Ben Shenoy, 2018-01-03 Making strategic decisions is a fundamental skill for leaders and managers However in a business environment that is in a constant state of change making strategic decisions has never been more difficult Strategic Decision Making addresses this challenge by providing a framework that can be used to make sound decisions in an uncertain world Structured around the core concepts of framing experimenting and scaling this book will ensure that efforts are focused where the need is greatest that interventions are tested evaluated and revised if necessary and that successful initiatives are effectively rolled out across the business Packed with real world examples and backed up by academic research Strategic Decision Making will allow today's leaders and the leaders of tomorrow to make successful and defensible business choices It shows how to avoid decision making bias overcome organizational inertia manage the difficulties of rigid organizational structures and avoid being side tracked by outdated or irrelevant experience Essential reading for business practitioners and management students alike this comprehensive guide provides a robust approach to achieving strategic success *Strategic Decision-making* Chris Gore, Kate Murray, Bill Richardson, 1992 A study of effective decision making in business at the strategic level It emphasizes how to improve decision making and provides a framework for analysis of techniques appropriate to particular organizations and circumstances Case study material is provided at the end of each chapter The Essence of Strategic Decision Making Charles R. Schwenk, 1988 **Business Strategy** Jeremy Kourdi, 2003-10-01 Jeremy Kourdi presents tools tactics and techniques for making effective strategic decisions in the complex modern business environment On these decisions hangs the future of the business how successful it is even whether it is successful Yet business history is full of strategic decisions both big and small that were weak poorly conceived and consequently disastrous This book looks at the whole process of strategic decision making the forces that influence decision makers the traps they fall into the times when a rational approach to decision making is required and those when intuition is needed the techniques that can help managers reach a strategically sound decision and the questions they should ask themselves before coming to a decision By looking at the range of strategic decisions that companies face and the techniques old and new that can help this book provides insights into how to make effective strategic decisions **Strategic Decisions** Vassilis Papadakis, Patrick Barwise, 2012-12-06 Over the past ten years there has been growing interest in the process of strategic decision making among both managers and researchers Strategic decisions are important for five main reasons They are large scale risky and hard to reverse they are a bridge between deliberate and emerging

strategies they can be a major source of organizational learning they play an important part in the development of individual managers and they cut across functions and academic disciplines Strategic Decisions summarizes the current state of the art in research on strategic decision making with chapters prepared by leading strategy researchers The editors also present implications for current application and proposed directions for future research *Business Strategy* The Economist, Jeremy Kourdi, 2015-05-26 The effectiveness of a good strategy well implemented determines a business future success or failure Yet history is full of strategic decisions big and small that were ill conceived poorly organized and consequently disastrous This updated guide looks at the whole process of strategic decision making from vision forecasting and resource allocation through to implementation and innovation Strategy is about understanding where you are now where you are heading and how you will get there There is no room for timidity or confusion Although the CEO and the board decide a company's overall direction it is the managers at all levels of the organization who will determine how the vision can be transformed into action In short everyone is involved in strategy But getting it right involves difficult choices which customers to target what products to offer and the best way to keep costs low and service high And constantly changing business conditions inevitably bring risks Even after business strategy has been developed a company must remain nimble and alert to change and view strategy as an ongoing and evolving process The message of this guide is simple strategy matters and getting it right is fundamental to business success

Decision Making and Business Performance Eric J. Bolland, Carlos J. Lopes, 2018 This breakthrough study examines how business decisions explain successful and unsuccessful performance Real world and academic research is evaluated including interviews and cases studies to create a model of how decisions and performance are connected for businesses of all sizes Recommendations are made to optimize decision making and projections about the future of decision making and performance are provided Top Decisions David John Hickson, 1986

Strategic Decisions and Weak Signals Humbert Lesca, Nicolas Lesca, 2014-05-09 An increasing number of business executives managers and political leaders are using the concept of weak signals nowadays There are also an increasing number of people trying to find out exactly what this concept means as well as when and how to use it Such questions arise particularly when it comes down to making strategic decisions To help with these questions this book defines the concept of the weak signal and then demonstrates how it would be useful in relation to strategic decisions and more precisely in relation to three moments of the strategic decision i.e. The trigger of the strategic decision what is the trigger why and when The development of the strategic decision The implementation of the strategic decision *Marketing Management* John Walker Mullins, 2005 This text has been developed in response to changing customer curriculum needs Many instructors are looking for a concise text for this course one that offers a solid core for the course but allows time to add other topics materials etc

Strategic Decision-Making. A Practical Example Based on "Tesla" Lukas Wagner, 2018-11-29 Essay from the year 2017 in the subject Business economics Business Management Corporate Governance grade 1.0 Tongji University language English

abstract Decision making is a fundamental skill for any successful executive But decisions at strategic level are hard to make They require large amounts of resources and commitments which may be irreversible They involve long term consequences that are hard to predict And they require considering multiple often conflicting strategic objectives which are difficult to balance particularly in the presence of risk and uncertainty Research and thinking about modern business strategy emerged as a field of study and practice in the 1960s Prior to that time the words strategy and competition rarely appeared in the most prominent management literature When influential academics in the USA started to think fundamentally about strategic decision making in the 1980s and 90s they made the assumption that everything works in a competitive working free market and developed thereof generic strategy tools that are supposed to work everywhere However Elmes the guest speaker argues that they are not well founded since strategies need to be developed in the respective context of an industry or market This position will be explained in more detail during this essay Especially the determinant of market efficiency meaning how competitive a market is strongly influences the development of strategic decisions There are many industries where government involvement or asymmetric competition need to be considered to make strategic decisions whereby generic strategy tools tend to be ineffective Therefore the key questions for this essay will be firstly what are the traditional concepts of strategy and how have they involved secondly what actually makes a strategy successful and lastly how does it apply in practice

Uncertainty in Strategic Decision Making Richard J. Arend, 2024-01-03 Knight 1921 defines uncertainty as an informational market failure that while being detrimental to most existing businesses presents possible profitable opportunities for others This book builds upon that classic work by providing an analysis of the alternative approaches to strategic decision making under such uncertainty It covers what uncertainty is why it is important and what connections it has to business and related fields culminating in a new and comprehensive typology and a valuable guide for how to appropriately address various types of uncertainties even under AI It clarifies the current terminological and categorical confusion about unknowns while complementing the mathematical probability based approaches that treat uncertainty as knowable i e as risk It corrects the mistaken approaches that treat unknowables as shapeable or discoverable This book widens the perspective for viewing uncertainty in terms of its impacts across humanity by offering a shrewder

understanding of what roles uncertainties play in human activity It will appeal to academics across business economics philosophy and other disciplines looking for approaches to apply test and hone for dealing with decision making under uncertainty Uncertainty and Strategic Decision Making Kristian J.
