Management Capacity Building Beth Walter Honadle,Arnold M. Howitt,1986-01-01 Perspectives on Management Capacity

Building provides a lively spectrum of views on the problems and prospects of improving the management and performance of municipal governments in the United States Leading specialists in public administration probe the management needs of local governments and explore ways in which they can improve their capacity to manage Today state and local governments are caught in the transition between the expansionism of the post World War II years and the retrenchment era of the late seventies and eighties Improved management capacity has emerged as the most effective way for local governments to ride out the economic and political pressures confronting them This book first investigates the meaning of the term management capacity It then considers how management needs have changed in the post war period and how these needs vary among large cities suburbs and rural communities Two of the contributions explore the organizational politics of management improvement while others look at the functional areas of computers and financial management The book also addresses human resource problems such as labor relations management development and training of municipal legislators and concludes with several viewpoints on federal efforts to improve local management capacity

American Hometown Renewal Gary

Mattson,2016-09-13 Before the interstates Main Street America was the small town s commercial spine and served as the linchpin for community social solidarity Yet during the past three decades a series of economic downturns has left many of the great small cities barely viable American Hometown Renewal is the first book to combine administrative budgetary and

economic analysis to examine the economic and fiscal plight currently facing America's small towns. Featuring a blend of theory, applications and case studies, it provides a comprehensive single source textbook covering the key issues facing small town officials in today's uncertain economy. Written by a former public manager, university professor and consultant to numerous small towns in the Heartland, this book demonstrates the ways in which contemporary small towns throughout the nation are facing economic challenges brought about by the financial shocks that began in 2008. Each chapter explores a theme related to small town revival and provides a related tool or technique to enable small town officials to meet the challenges of the 21st Century. Encouraging local small town officials to look at the economic orbit of communities in a similar manner as a town's budget or a family's personal wealth, examining its specific competitive advantages in terms of relative assets to those of competing communities, this book provides the reader with step by step instructions on how to conduct an asset inventory and apply key asset tools to devise a strategy for overcoming the challenges and constraints imposed upon spatially fixed communities. *American Hometown Renewal* is an essential primer for students studying city management, economic community development and city planning and will be a trusted handbook for city managers, geographers, city planners, urban or rural sociologists, political scientists and regional microeconomists. **UGC NET Paper**
