Wolfgang Hofkirchner

Systemic Change Through Praxis And Inquiry:

Systemic Change Through Praxis and Inquiry Arne Collen, 2018-04-17 This new volume in the distinguished Praxiology series examines the confluence of praxiology pragmatics and systemics in the study of systemic change through human inquiry particularly small group activities human organizations and globalizing trends It covers core concepts indigenous to organizational life The author presents and subsequently integrates several conceptual schemes relevant to human beings and small groups engaged in human inquiry for systemic change in organizational settings Each key concept in the volume is covered in a chapter theme that articulates the praxiology and pragmatics of human inquiry Chapter 1 examines change as a systemic idea from a research methodologist's point of view Chapter 2 articulates numerous points to distinguish systemic from non systemic research methods to bring about systemic change Chapter 3 discusses the prevalence of hierarchy and control Chapter 4 focuses on disciplinarity viewed as one kind of quest for understanding complexity and change Chapter 5 describes praxiology in inquiry Chapter 6 elaborates on emergent forms of praxiology Chapter 7 demonstrates the viability of systemic change through praxiology Chapter 8 targets the general features of research process that are the means to effectuate systemic change while Chapter 9 elaborates on these means toward developing systemic inquiry to systemic change Chapter 10 discusses complexification in human inquiry and systemic change **Systemic Change Through Praxis and Inquiry** is a pioneering effort to attain a more integrated view of research methodology for human inquiry It will be of great interest to students of business management and organizational studies Arne Collen is a long standing member of both the Executive Faculty at Saybrook Graduate School in San Francisco and the Research and Teaching Adjunct Faculty in the California College of Organizational Studies and the California College of Professional Psychology of Alliant International University San Francisco Bay Campus He is a research methodologist who over the last three decades has applied systemic and sociocybernetic perspectives to advances in research methodology for human inquiry With Wojciech W Gasparski he is co editor of Design and Systems Volume 3 of the Praxiology series **Systemic Change Through Praxis and Inquiry** Arne Collen, This work examines the confluence of praxiology pragmatics and systematics in the study of systemic change through human inquiry particularly small group activities human organizations and globalizing trends It covers core concepts indigenous to organizational life *Systemic Change Through Praxis & Inquiry - Praxiology*, 2003

Emergent Information Wolfgang Hofkirchner, 2012 At the dawn of the information age a proper understanding of information and how it relates to matter and energy is of utmost importance for the survival of civilisation Yet attempts to reconcile information concepts underlying science and technology with those en vogue in social science humanities and arts are rather rare This book offers a new approach departing from fragmented information concepts Many academics refrain from undergoing unifications as most undertakings are reductionistic This book contends that it is the noble task of an as yet to be developed science of information to go one step in the direction of a unified theory of information without falling back

into neither reduction nor anthropomorphisation To be able to succeed in an ambitious task like this the book advocates the application of complex systems theory and its philosophical underpinnings Information needs to be interpreted in terms of self organisation to do justice to the richness of its manifestations The way the book does so will provide the reader with a deep insight into a basic feature of our world The following are discussed in the volume A Science of Information A New Way of Thinking Praxio Onto Epistemology Evolutionary Systems Design Evolutionary Systems Ontology Evolutionary Systems Methodology Capurro s Information Concept Trilemma A Multi Stage Model of Evolutionary Types of Information Pattern Formation Code Making and Constituting Sense A Triple C Model of Systemic Functions of Information Cognising Communicating and Co Operating Nine Categories of Information Capabilities Reflectivity physical Psyche biotic Consciousness human Connectivity physical Signalability biotic Languageability human Cohesiveness physical Coherency biotic Communitarity human Nine Categories of Information Response physical Flexible Response biotic Reflexion human Correspondences physical Signals biotic Symbolic Acts human Assemblage physical Assignment biotic Association human A Unified Theory of Information for about and by means of the Information Society *Systems Education for a Sustainable Planet* Ockie Bosch,Robert Y. Cavana,2018-04-24 This book is a printed edition of the Special Issue Systems Education for a Sustainable Planet that was published in Systems **Cybernetics and Systems** Sergio Barile,Raul Espejo,Igor Perko,Marialuisa Saviano,2018-12-07 Society is now facing challenges for which the traditional management toolbox is increasingly inadequate Well grounded theoretical frameworks such as systems thinking and cybernetics offer general level interpretation schemes and models that are capable of supporting understanding of complex phenomena and are not impacted by the passage of time This book serves the knowledge society to address the complexity of decision making and problem solving in the 21st century with contributions from systems and cybernetics A multi disciplinary approach has been adopted to support diversity and to develop inter and trans disciplinary knowledge within the shared thematic of problem solving and decision making in the 21st century Its conceptual thread is cyber systemic thinking and its realisation is supported by a wide network of scientists on the basis of a highly participative agenda The book provides a platform of knowledge sharing and conceptual frameworks developed with multi disciplinary perspectives which are useful to better understand the fast changing scenario and the complexity of problem solving in the present time Global Perspectives on Ethics of Corporate Governance G. Rossouw,A. Sison,2006-11-27 This volume takes a hard look at the soft practice of corporate governance It grew out of a series of contributions from the Third ISBEE World Congress on Business Ethics that took place on July 2004 in Melbourne *Games-To-Teach or Games-To-Learn* Yam San Chee,2015-08-18 The book presents a critical evaluation of current approaches related to the use of digital games in education The author identifies two competing paradigms that of games to teach and games to learn Arguing in favor of the latter the author advances the case for approaching game based learning through the theoretical lens of performance rooted in play and dialog to unlock the

power of digital games for 21st century learning Drawing upon the author s research three concrete exemplars of game based learning curricula are described and discussed The challenge of advancing game based learning in education is addressed in the context of school reform Finally future prospects of and educational opportunities for game based learning are articulated Readers of the book will find the explication of performance theory applied to game based learning especially interesting This work constitutes the author s original theorization Readers will derive four main benefits 1 an explication of the difference between game based teaching and game based learning and why this difference is of critical importance 2 an exposition of the theory of game based learning as performance 3 concrete exemplars and research outcomes relating to three game based learning curricula that have been empirically evaluated in schools and 4 an understanding of complex issues related to the human side of school change that must be effectively addressed to achieve take up of game based learning in schools

The Mobile Learning Voyage - From Small Ripples to Massive Open Waters Tom H. Brown, Herman J. van der Merwe, 2015-10-14 This book constitutes the proceedings of the 14th International Conference on Mobile and Contextual Learning mLearn 2015 held in a cruise ship leaving from and arriving to Venice Italy in October 2015 The 22 revised full papers and 6 short papers presented were carefully reviewed and selected from 81 submissions The papers deal with the topics related to the theme of the conference The mobile learning voyage from small ripples to massive open waters The conference theme paid tribute to the developments that brought mobile learning from its infancy steps in the early 2000s to maturity in 2015 while simultaneously paving the way for the broad and open waters ahead with new developments and progress in mobile learning and emerging ambient technologies

Design, Utilization, and Analysis of Simulations and Game-Based Educational Worlds Ferdig, Richard E., 2013-05-31 Games and simulations have emerged as new and effective tools for educational learning by providing interactivity and integration with online resources that are typically unavailable with traditional educational resources Design Utilization and Analysis of Simulations and Game Based Educational Worlds presents developments and evaluations of games and computer mediated simulations in order to showcase a better understanding of the role of electronic games in multiple studies This book is useful for researchers practitioners and policymakers to gain a deeper comprehension of the relationship between research and practice of electronic gaming and simulations in the educational environment
