Basics of Religious Education Martin Rothgangel, Gottfried Adam, Rainer Lachmann, Thomas Schlag, Friedrich Schweitzer, 2014 This volume offers an introduction to all questions of teaching Religious Education as a school subject and as an academic discipline related to this subject The chapters cover most of the aspects that religion teachers have to face in their work as well as the theoretical background necessary for this task The volume is a textbook for students and teachers of religious education be it in school or in an academic context who are looking for reliable information on this field The book has proven its usefulness in German speaking countries This volume is the English translation of the German Compendium of Religious Education edited by Gottfried Adam and Rainer Lachmann The present English version is based on the 2012 edition which aims for a most current representation of the field The background of the book is Protestant but its outlook is clearly ecumenical and questions of interreligious education are considered in many of the chapters The compendium continues to be widely used in Germany Austria and Switzerland as an introduction to the field and as a handbook for students who are preparing for their final exams The English edition makes this compendium available to students and colleagues in other countries

Crisis, Controversy and the Future of Religious Education L. Philip Barnes, 2019-12-05 Crisis Controversy and the Future of Religious Education sets out to provide a much needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non confessional forms of religious education wherever practised The book is critical wide ranging and provocative giving attention to a range of responses some limited to the particular situation of religious education in England and some of wider application for example that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education It engages with a variety of positions and with recent influential reports that make recommendations on the future direction of religious education Constructively it defends both confessional and non confessional religious education and endorses the existing right of parental withdrawal Controversially it concludes that the case for including non religious worldviews in religious education and for the introduction of a statutory objective national religious education curriculum for all schools are both unconvincing on educational philosophical and evidential grounds Timely and captivating this book is a must read for religious and theological educators RE advisers classroom teachers student teachers and those interested in the field of religious education

Researching Non-Formal Religious Education in Europe Friedrich Schweitzer, Wolfgang Ilg, Peter Schreiner, 2019 The traditional focus on Religious Education at school can no longer be the only guiding principle for religious education research if this research is to do justice to the reality of religious education in general The awareness of the meaning and scope of education outside of the school has clearly grown However systematic research on non formal religious education still remains rare especially on an international level It is the intention of this volume to strengthen the awareness of educational settings outside of the school by bringing together research results and research perspectives from different European countries and by discussing the question what non formal education means in terms of religious education The book includes presentations on specific research projects carried out by the authors themselves as well as summary accounts of the pertinent research from different countries The chapters take up general questions of researching non formal religious education as well as specific references to different programs such as youth work Sunday School kindergarten confirmation work etc
