Tacitus Bk 1 Histories:

The Histories of Tacitus, Book 1 and 2 Cornelius Tacitus, 1942 Tacitus: Histories Book I Cornelius Tacitus, 2003

The first historical work by Rome's greatest historian Tacitus Histories hold a crucial place in the history of Latin literature Book I covers the beginning of the infamous Year of the Four Emperors 69 CE which brought imperial Rome to the brink of destruction after the demise of the Julio Claudian dynasty Galba Otho and Vitellius ride the currents of senatorial politics and military sedition to power while the survivor Vespasian waits just off stage After a distinguished public career during the principates of Vespasian and his sons Tacitus in middle age embarked on a historical narrative recording the seering events of the Rome of his youth This edition provides a Latin text of Book I a commentary accessible to students of intermediate level and above and an introduction discussing historical literary and stylistic issues The chance survival of three parallel accounts permits detailed analysis of Tacitus selection and stylization of material

Livy's Roman history, book vi, with a literal interlinear tr. by H. Platt Livy, Titus Livius, 1892 *The Art of History* Vasileios Liotsakis, Scott T. Farrington, 2016-09-26 A significant trend in the study of Greek and Roman historiographers is to accept that their works are to a degree both science and fiction As scholarly interest broadens in addition to evaluating ancient historians on the basis of the reliability of the information they record and verifying the narratives against various elements of the material inscriptions excavations numismatics new studies are beginning to elaborate on the stylistic and narrative qualities of the texts themselves The present volume offers a fine collection of essays that on the whole emphasize the literary dimensions of the ancient Greek and Roman historians Offering narratological linguistic and theoretical approaches to historiography the contributors of the book elaborate on the intersections between historiography and other literary genres the literary manipulation of military events and the criteria of selectivity the reception of ancient historical texts in other genres time and space in historical narrative and plenty of other

relevant topics The shared belief of the authors is that there is a close interrelation between the literary features and the scientific value of ancient Greek and Roman historiography **A Financial History of the Netherlands** Marjolein C. 't Hart, Joost Jonker, Jan Luiten van Zanden, 1997-09-11 Overview of the financial history of the Netherlands from the sixteenth century onwards **Hope in Ancient Literature, History, and Art** George Kazantzidis, Dimos Spatharas, 2018-07-09

Although ancient hope has attracted much scholarly attention in the past this is the first book length discussion of the topic The introduction offers a systematic discussion of the semantics of Greek *elpis* and Latin *spes* and addresses the difficult question of whether hope ancient and modern is an emotion On the other hand the 16 contributions deal with specific aspects of hope in Greek and Latin literature history and art including Pindar's poetry Greek tragedy Thucydides Virgil's epic and Tacitus *Historiae* The volume also explores from a historical perspective the hopes of slaves in antiquity the importance of hope for the enhancement of stereotypes about the barbarians and the depiction of hope in visual culture providing thereby a useful tool not only for classicist but also for philosophers cultural historians and political scientists **Luke/Acts and the End of History** Kylie Crabbe, 2019-11-18 Luke Acts and the End of History investigates how understandings of history in diverse texts of the Graeco Roman period illuminate Lukan eschatology In addition to Luke Acts it considers ten comparison texts as detailed case studies throughout the monograph Polybius's *Histories* Diodorus Siculus's *Library of History* Virgil's *Aeneid* Valerius Maximus's *Memorable Doings and Sayings* Tacitus's *Histories* 2 Maccabees the Qumran War Scroll Josephus's *Jewish War* 4 Ezra and 2 Baruch The study makes a contribution both in its method and in the questions it asks By placing Luke Acts alongside a broad range of texts from Luke's wider cultural setting it overcomes two methodological shortfalls frequently evident in recent research limiting comparisons of key themes to texts of similar genre and separating non Jewish from Jewish parallels Further by posing fresh questions designed to reveal writers underlying conceptions of history such as beliefs about the shape and end of history or divine and human agency in history this monograph challenges the enduring tendency to underestimate the centrality of eschatology for Luke's account Influential post war scholarship reflected powerful concerns about salvation history arising from its particular historical setting and criticised Luke for focusing on history instead of eschatology due to the parousia's delay Though some elements of this thesis have been challenged Luke continues to be associated with concerns about the delayed parousia affecting contemporary interpretation By contrast this study suggests that viewing Luke Acts within a broader range of texts from Luke's literary context highlights his underlying teleological conception of history It demonstrates not only that Luke retains a sense of eschatological urgency seen in other New Testament texts but a structuring of history more akin to the literature of late Second Temple Judaism than the non Jewish Graeco Roman historiographies with which Luke Acts is more commonly compared The results clarify not only Lukan eschatology but related concerns or effects of his eschatology such as Luke's politics and approach to suffering This monograph thereby offers an important corrective to readings of Luke Acts based on

established exegetical habits and will help to inform interpretation for scholars and students of Luke Acts as well as classicists and theologians interested in these key questions
