Tactical Nuclear Weapons European Perspectives:

Tactical Nuclear Weapons SIPRI. STOCKHOLM INTERNATIONAL PEACE RESEARCH INSTITUTE, 2020-09-04 In the 1970s tactical nuclear warfare was a topical issue The introduction of the new generation of tactical nuclear weapons into Europe could have had disastrous consequences These new weapons had already been developed by nuclear weapon laboratories and pressures were growing for their deployment On first sight smaller and more accurate nuclear weapons may seem more humane and militarily preferable to the relatively high yield tactical nuclear weapons currently deployed But some of these new types of weapons would blur the distinction between nuclear and conventional weapons and their use would make escalation to strategic nuclear war extremely likely Indeed the argument for these new weapons is that their use in wartime is more credible and therefore acceptable than current types of tactical nuclear weapons This perception could easily lead to the exceedingly dangerous idea that some types of tactical nuclear war were winnable The fact has to be faced that any use of nuclear weapons is almost certain to escalate until all available weapons are used To believe otherwise is to believe that one side will surrender before it has used all the weapons in its arsenal History shows that this is most unlikely to happen Because of its importance SIPRI organized a meeting to discuss the whole question Originally published in 1978 this book is the outcome of that meeting

Tactical Nuclear Weapons and Euro-Atlantic Security Paolo Foradori, 2013-07-18 This book offers a comprehensive examination of the important security issue of tactical nuclear weapons in Europe Nuclear nonproliferation and disarmament have returned to the top of the international political agenda The issue assumes particular importance in regard to NATO given that some 150 200 US tactical nuclear weapons TNWs are still present in five countries belonging to the Alliance Belgium Germany Italy the

Netherlands and Turkey The past few years have seen animated debate in the United States and Europe on the role of such weapons in the current scenario of international security and whether they can be further reduced or completely removed from Europe Bringing together leading scholars and analysts of TNW with country specific competences this volume improves our understanding of this debate by providing in depth analysis of the presence role perceived value and destiny of TNWs in Europe The book addresses the issue in a systematic manner taking into account the perspectives of all main actors directly or indirectly involved in the debate This approach provides new and important insights that can inform both theoretical and policy work on a very critical and timely international issue especially during the ongoing review of NATO s deterrence and defence posture This book will be of much interest to students of European politics European security nuclear proliferation and IR in general *European Security, Nuclear Weapons and Public Confidence* William Gutteridge, Marian Dobrosielski, Jorma Miettinen, 1982-06-18

Securing Europe's Future Stephen J. Flanagan, Fen Osler Hampson, 2021-01-26 This book first published in 1986 analyses a number of emerging enduring and neglected issues that affected European security and the stability of the Atlantic Alliance at the end of the Cold War It provides a comprehensive review of the major political social and economic issues that shaped the course of European security It offers a thorough assessment of such critical questions as European views of the US Strategic Defense Initiative the contribution of new technologies and tactics to NATO s conventional defence capabilities and domestic factors that influenced security policy It also provides original analysis of a number of issues such as economic dimensions of security the quest for a European defence identity and protection of Western interests outside the NATO area It provides a review of the nuclear question and of the German security debate in the aftermath of the initial US INF missile deployments *Rethinking the Nuclear Weapons Dilemma in Europe* P. Terrence Hopmann, Dr. Frank Barnaby, 1988-06-18

The Nuclear Confrontation in Europe Jeffrey H. Boutwell, Paul Doty, Gregory F. Treverton, 2020-11-19 Originally published in 1985 this book explores the nuclear confrontation between East and West in Europe where we stand how we got there and what the future may hold Its concluding chapter outlines the prospects for nuclear arms control in Europe and it frames the debate over NATO strategy and the role of nuclear weapons in the years ahead Can NATO reduce its reliance on nuclear weapons Can it cope with the issues at all The chapters on NATO theatre nuclear forces and doctrine provide a rich background to current policy issues The public debate over NATO s 1979 decision to deploy new American cruise and Pershing nuclear missiles in Europe was hardly unprecedented in NATO s history similar controversy surrounded NATO deliberations in the late 1950s and early 1960s That debate however subsided in the mid 1960s the nuclear question in Europe was relegated to the wilderness though efforts largely unavailing continued within official circles to define more clearly the role of nuclear weapons in NATO s defense Against this backdrop the nuclear debate emerged again in the 1970s This title unravels the military and political considerations at play in that debate and maps the European politics surrounding it Today it can be read in its historical

context **Nuclear Notes** Sarah Weiner, 2014-04-01 Nuclear Notes is a publication of the CSIS Project on Nuclear Issues (PONI) featuring innovative thinking by rising experts in the nuclear field. Its goal is to advance the public debate about nuclear weapons, strategy, arms control, nonproliferation, disarmament, and other nuclear issues by providing a forum for sharing new analysis and insight. In particular, this publication seeks to provide an opportunity for graduate students and early career professionals to publish ideas emanating from their independent research or that are connected to their unique vantage point as analysts and implementers of nuclear policy.

Alternative Conventional Defense Postures in the European Theater: The impact of political change on strategy, technology, and arms control Hans Günter Brauch, Robert Kennedy, 1990. This volume examines NATO strategy and force posture alternatives in the light of changes that have taken place and which are taking place in Europe today. The authors offer their views on the nature of political change, changing military doctrines, and changes in technology. NATO's future role in the new Europe, which is beginning to emerge in the post-Cold War period, is analyzed. *Alternative Conventional Defense Postures In The European Theater* Hans G. Brauch, Robert F. Jr. Kennedy, 2018-10-24. First published in 1993. This volume, edited jointly by the American strategic expert Robert Kennedy and the German peace researcher Hans Günter Brauch, takes up conceptual ideas developed by Horst Afheldt and Carl Friedrich von Weizsäcker as well as others on both sides of the Atlantic since the 1960s. Our aim has been to contribute to the development of concepts that would reduce the danger of a third world war by the creation of more stable structures in the context of a defensively oriented conventional defense posture. In this volume, a variety of alternative approaches to European conventional defense, driven for the most part by similar strategic considerations, are presented by German and American experts to a larger international audience.
