Up Through an Empty House of Stars David Langford,2003-08-01 At last _Up Through an Empty House of Stars_ brings together the best of the never before collected SF reviews and articles that helped build David Langford s towering reputation since 1980 Complementing the review columns collected in _The Complete Critical Assembly_ and the knockabout essays and squibs in _The Silence of the Langford_ this volume s 100 glittering selections mix serious critical insight with the inimitable Langford wit In 2002 David Langford won his sixteenth Hugo award as Best Fan Writer for critical and humorous commentary on SF In the same year his occasionally scandalous SF newsletter _Ansible_ won its fifth Hugo Langford also received the 2001 Hugo for best short story and the 2002 Skylark Award Here he shines a unique light on classics like Ernest Bramah G K Chesterton Robert Heinlein and Jack Vance and analyses major SF and major clunkers and minor eccentrics of the 1980s 1990s and early 2000s continuing to the latest by such current stars as Gene Wolfe and China Mi ville Plus witty asides on crime fiction and its SF links gleeful examination of writing so bad it s almost good and even at his most serious turns of phrase to make you laugh aloud Future and Fantastic Worlds Sheldon Jaffery,1987-01-01 Future and Fantastic Worlds embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool **Things from Outer Space** Hank Davis,2016-09-06 ORIGINAL MASS MARKET STORIES OF THINGS FROM SPACE Mostly very very bad things that want to harm humans and destroy Earth Or take it for their own Original stories and reprints of classics from the scary side of science fiction THE THINGS ARE COMING As we all know in space no one can hear you scream Which doesn t

mean that anyone is safe just because they're standing on the soil of planet Earth because if a thing from out there drops in screaming probably won't save you Earth has spawned myriad unpleasant life forms which are bad news for humans ranging in size from the Ebola virus to the great white shark up to the Tyrannosaurus Rex extinct fortunately for us and that's just one planet What even more deadly life forms might the billions of planets in our galaxy have spawned And suppose the things are intelligent and capable of crossing space and coming here Considering that very possibility are the masters of science fiction starring in this book including Robert Silverberg David Drake Sarah A Hoyt James H Schmitz Fritz Leiber Robert Sheckley Murray Leinster and John W Campbell as well as classic stories of extraterrestrial horrors by H P Lovecraft George Allan England and more E T might have been happy eating Reese's Pieces but other visitors from the void might have less dainty appetites And there are probably worse things than merely being eaten At the publisher's request this title is sold without DRM Digital Rights Management Praise for previous anthologies edited by Hank Davis In Space No One Can Hear You Scream the 13 tales in this collection blend SF with horror to demonstrate the resiliency of both genres offers strong tales by the genre's best storytellers Library Journal first rate science fiction demonstrating how short stories can still entertain Galveston County Daily News A Cosmic Christmas 2 You This creative and sprightly Christmas science fiction anthology spins in some surprising directions A satisfying read for cold winter evenings a great stocking stuffer for SF fans Publishers Weekly As Time Goes By As Time Goes By does an excellent job of exploring not only romance through time travel relationships enabled or imperiled by voyaging through time but the intrinsic romance of time travel itself The range of styles and approaches is as wide as the authors' sensibilities and periods might suggest full of entertaining and poignant stories Alvaro Zinos Amaro IntergalacticMedicineShow.com
