Taiwan's Security Bernard Cole,2006-06-19 This is the first explanation and evaluation of Taiwan's defence forces and infrastructure It examines not only Taiwan's armed forces but also its Ministry of National Defence personnel issues and civil military relations This book provides crucial base line data and evaluation of one of the major participants in an ongoing crisis across the Taiwan Strait that has the potential of involving China and the United States in armed conflict It examines the danger of a possibly nuclear conflict between China and the United States which would seriously disrupt all of East Asia It also shows how Taiwan's defence policies and actions do not match the threat Taipei needs to develop and pursue realistic policies This is essential reading for all students of East Asian security and Sino American relations and of international and security studies in general

Foreign Policy Making in Taiwan

Dennis V. Hickey,2006-12-05 Following President Chen Shui bian's victory in the controversial 2004 presidential election this book examines the future direction of Taiwan's foreign policy focusing on the internal and external forces that influence and shape the country's foreign policy decisions today The author suggests that four levels of analysis the international system governmental structure societal forces and individual factors pose some explanatory value when seeking to understand Taipei's foreign policy behaviour Taiwan's foreign policy decision making remains an extremely complex process involving many important variables However the author's detailed analysis reveals that external factors particularly seismic shifts in global politics and the role of China and the US have had an extraordinary degree of influence over the island's foreign relations This book highlights these factors as important considerations that continue to play a critical role in shaping Taiwan's foreign policy Providing a clear analysis of the dynamics of Taiwan's foreign policy *Foreign Policy Making in Taiwan* is an important addition to the literature on Taiwan and will be essential reading for followers of Chinese politics comparative politics and foreign policy analysis

government and non profit organizations Downloadable resources offer PowerPoint charts for use in training education and research along with tables graphs screenshots and hyperlinks Webcasting Worldwide is essential reading for academic researchers and media industry practitioners and the volume will be a useful text in advanced courses addressing media technology media management and international communication For updates about the book chapters and latest commentaries on topics related to webcasting business models please visit the Webcasting Business Models Blog at <http://webcastingworldwide.blogspot.com> Winner of The Association for Education in Journalism and Mass Communication Picard Award for Media Management and Economics 2007 The Political Economy of East Asia K. Cai, 2016-04-30 In a systematic study of the political economy of East Asia Cai adopts an historical perspective alongside a contemporary focus exploring East Asia's development since the late 19th century Following similar paths to economic development East Asian states have achieved economic success integrating themselves into a regional economy Taiwan's Democracy Robert Ash, John W. Garver, Penelope Prime, 2013-07-03 Taiwan's rapid industrialization during the 1960s and 1970s combined with the democratic revolution that began with the lifting of martial law in 1987 were of deep historic importance Over the next decade Taiwan's political miracle matched its earlier economic miracle creating a vibrant liberal democracy complete with freedom of speech association and assembly rule of law and competitive and fair multi party elections The continuation of these achievements and the new challenges that have surfaced are addressed in rich detail in the chapters of this volume by an international team of experts One of the biggest such challenges is Mainland China's economic success which has added to the complexity of Taiwan's economic and political policy options A number of the contributors to this volume consider Taiwan's response to China's economic rise and show how Taiwanese companies have strategically taken advantage of the changing economic environment by moving up the value chain of production within Taiwan while also taking the opportunity to invest overseas With chapters covering a wealth of topics including Constitutional reform National identity Party politics Taiwan's development model Industrial policy Trade and investment Globalization Sustainable development Taiwan's Democracy will be of huge interest to students and scholars of Taiwan studies Chinese politics and economics international politics and economics and development studies *No More States?* Richard N. Rosecrance, Arthur A. Stein, 2006-08-04 The twentieth century witnessed an explosion of new nations carved out of existing ramshackle empires and multiethnic states Many observers contend that the creation of new states will continue indefinitely with the two hundred of today becoming the four hundred of tomorrow as more groups seek independence This provocative and compelling book explores the impact of globalization and terrorism on this trend arguing convincingly that the era of national self determination has finally come to an end Examining the forces that determine the emergence of new nation states the distinguished contributors consider a rich array of specific cases from the Middle East Asia North America Europe and Russia where new states could be created They contend that globalization rather than expanding such opportunities is not as friendly to new weak states with limited

resources as it is to established rich nations Given the vast sums circulating in the world market few fledgling nations can be financially independent They find it more prudent to shelter within the protective embrace of existing federations Equally governments of federal states can induce restive petitioners_ such as Quebec Scotland and the Basques_ to remain inside the metropolitan boundary through a system of tangible restraints and rewards Those who reject the benefits such as rebels in Chechnya and Aceh will fail in their bids for independence Taiwan_ poised on a knife edge between integration with China and independence_ faces a series of costs and diminished returns if it seeks full statehood Finally terrorism has lost its legitimacy as a technique for gaining independence in the eyes of the international community Despite the stall in new state formation there has been no sign of successful military or imperial expansion by established countries toward consolidation into fewer larger national units Neither aggression by regional states_ such as the Iraq invasion of Kuwait in 1990 nor intervention_ such as the U S occupation of Iraq in 2003 are likely to succeed On balance the book concludes discontented national movements will have to find ways to exist within current geopolitical boundaries

Chinese Economic Coercion Against Taiwan Murray Scot Tanner, 2007 Since the early 1980s the cross strait relationship between Taiwan and mainland China has exploded driven by economic and political reforms As a result each would suffer great economic pain and dislocation in the event of a major disruption in that rapidly growing economic relationship This monograph analyzes the political impact of that relationship and evaluates the prospects for Beijing to exploit it by employing economic coercion against Taiwan
