Taiwan In A Time Of Transition:

Taiwan in a Time of Transition Harvey Feldman, Ilpyong J. Kim, Michael Y. M. Kau, 1988 **Taiwan in Dynamic Transition** Ryan Dunch, Ashley Esarey, 2020-02-28 Following a remarkable transition from authoritarian rule to robust democracy Taiwan has grown into a prosperous but widely unrecognized nation state for which no uncontested sovereign space exists Increasingly vigorous assertions of Taiwanese identity expose the fragility of relationships between the United States and other great powers that assume Taiwan will eventually unite with China Perhaps because of their precarious international position the Taiwanese have embraced cosmopolitan culture and democratic institutions The 2014 Sunflower Movement thrust Taiwan's politics into the global media spotlight as did the resounding electoral victory of the once illegal Democratic Progressive Party in 2016 Taiwan in Dynamic Transition provides an up to date assessment of contemporary Taiwan highlighting Taiwan's emergent nationhood and its significance for world politics Taiwan's path has important implications for broader themes and preoccupations in contemporary thought such as consideration of why political transitions in the aftermath of the Arab Spring have sputtered or failed while Taiwan has evolved into a stable and prosperous democratic society Taiwan serves as a test case for nation and state building the formation of national identity and the emergence of democratic norms in real time *Foreign Policy Making in Taiwan* Dennis V. Hickey, 2006-12-05 Following President Chen Shui-bian's victory in the controversial 2004 presidential election this book examines the future direction of Taiwan's foreign policy focusing on the internal and external forces that influence and shape the country's foreign policy decisions today The author suggests that four levels of analysis the international system governmental structure societal forces and individual factors pose some explanatory value when seeking to understand Taipei's foreign policy behaviour Taiwan's foreign policy decision making remains an extremely complex process involving many important variables However the author's detailed analysis reveals that external factors particularly seismic shifts in global politics and the role of China and the US have had an extraordinary degree of influence over the island's foreign relations This book highlights these factors as important considerations that continue to play a critical role in shaping Taiwan's foreign policy Providing a clear analysis of the dynamics of Taiwan's foreign policy *Foreign Policy Making in Taiwan* is an important addition to the literature on Taiwan and will be essential reading for followers of Chinese politics comparative politics and foreign policy analysis **Economic Development Of Taiwan: Early Experiences And The Pacific Trade Triangle** Frank S T Hsiao, Mei-chu Wang Hsiao, 2015-03-26 Taiwan's economic growth since the 1970s has roots in its pre war development and post war formation of the Pacific trade triangle By highlighting the historical perspective of the Japanese linkages and the geographic vantage point of Taiwan Japan USA trade triangle *Economic Development of Taiwan* features a collection of papers by Frank S T Hsiao and Mei Chu Wang Hsiao Published mostly between 1989 and 2002 their analyses on Taiwan's pre war and post war early economic history debunk the myth of the country's post war rags to riches story and

revalue the myth of wise government policy Timely and accessible this unique volume shows how early Taiwanese experiences of economic development can be valuable paradigms for emerging economies of Asian African and Latin American countries in this age of globalization The Military and Transitions Toward Democracy in Chile and Taiwan Tzu-yang Chang,1995 **Taiwan in Net-Zero Transition** Kuei Tien Chou,2025-03-04 Chou explores the structural dilemmas mindsets challenges and solutions of the net zero transition in Taiwan Using Taiwan as a representative example of the structural challenges faced by East Asian countries in achieving the global net zero carbon emission goal the book examines the proposition of developmental environmentalism in the context of East Asia Taiwan faces diverse challenges such as internal and external net zero carbon emission pressures geopolitical socioeconomic competition an internal carbon intensive industrial structure and the path dependence of the brown economy Within this framework the developmental net zeroism perspective from the vantage point of developmental environmentalism and the distinctive characteristics of Taiwan offers insights into the climate governance particularities of East Asian countries as high carbon manufacturing systems and as part of the global supply chain A valuable read for researchers and policymakers concerned about the political economic and social situations in Asia and Taiwan affecting the net zero transition *Queer Kinship and Family Change in Taiwan* Amy Brainer,2019-01-11 In *Queer Kinship and Family Change in Taiwan* Amy Brainer provides an in depth look at queer and transgender family relationships in Taiwan Brainer is among the first to analyze first person accounts of heterosexual parents and siblings of LGBT people in a non Western context **China (the Mainland and Taiwan) in Transition** David Decker,1997 **A Question of Time** Michael Allen Hunzeker,Alexander Lanoszka,Brian Davis,Matthew Fay,Erik Goepner,Joe Petrucelli,Erica Seng-White,2018-11 Taiwan is a flourishing liberal democracy and a key player in the global economy Yet it is far from secure China considers it a renegade province and has not renounced its right to use force to resolve the dispute Taiwan must therefore deter China s aggression by convincing Chinese leaders that the costs using force against Taiwan will outweigh any possible benefits In this monograph a team of researchers from George Mason University and the University of Waterloo suggest a holistic strategy that Taiwan can use to enhance its conventional deterrence posture Their conclusions are simple but radical instead of organizing its defenses around a small inventory of conventional jets ships and tanks Taiwan should acquire large numbers of cheap asymmetric weapons It should also transform its massive reserve command into a territorial defense force trained to wage guerrilla warfare By threatening to wage a never ending war of denial against an invader Taiwan can more credibly impact China s cost benefit calculus *Taiwan: A New History* Murray A. Rubinstein,2015-02-12 This is a comprehensive portrait of Taiwan It covers the major periods in the development of this small but powerful island province nation The work is designed in the style of the multi volume Cambridge History of China
