Today's a Great Day to Quit Cigarettes Angie Johnston,2012-05-13 Have you tried almost everything on the market to quit cigarettes and still cant quit Then you have arrived at the right place because todays a great day to quit cigarettes It doesn't matter if you have smoked for 30 years or 2 It doesn't matter if you smoke 2 a day or 30 It doesn't matter if you think you can quit right now or not or are feeling a little unsure of yourself today is a great day to quit cigarettes You can quit permanently and you can quit regardless of how many reasons why you think you might want to smoke Now you can kick your habit in the butt Do you answer yes to some of these Are you finding it harder to breathe Your fitness isn't what it used to be You're not keeping up with the kids anymore and getting out of breathe quicker You really want to stop but it just seems like you have used all your willpower up You cant stand the smell and don't like the look of other smokers You are secretly wondering how you are going to cope without them what you will do with your hands or whether you will gain weight or not In this comprehensive e book you will learn some very controversial truths about Why its impossible to quit by cutting down How much involved the government has in every cigarette you smoke How you can access your powerful unconscious mind and programme it to do anything you want How you can have no side effects of cigarettes When you realise this one simple fact

you wonder why you didn't see it all along How easy it is to quit once you see cigarettes and the smoking habit for what it really is The lies and untold stories How hard they make it for you to quit and why they do this There has never been a better time to quit than now You know now is the time because let's have an honest look at the full cost of smoking cigarettes We all know cigarettes don't just cost us money but let's have a look at this for a moment Cigarettes cost an average 25 cigs a day smoker 7300 per year Times that by 30 years 219 000 That's a house just about paid for Do you really want to continue to blow your money away in the air That same smoker would have smoked 9 100 cigarettes per year and 273 000 cigarettes over the 30 years The full impact of sucking on 273 000 cigarettes is cancer heart disease emphysema and ultimately an early death Although most cancers are curable now a days Medicare does not cover the full cost so not only are you out of pocket with cigarettes but now you are out of pocket with medical bills time off work and generally feeling unwell Loss of jobs or the ability to work at the appropriate level Quality time with your children or grandchildren Just imagine not being able to watch your children get married or have their own families because you cut your life short Lasting relationships A healthy mindset I have been told by so many smokers how they hate the fact that cigarettes control them and get this even have more of a priority than their children Avoiding going to places and plan trips around smoking areas or how long it might be before you can have another cigarette They are such a time waster Here are a list of reasons I hear from smokers who want to quit So I can take a regular holiday and have money to go Causing health issues Controls me Manage my depression easier Smoking equals failure
