Teachers Helping Teachers Peer Observation And Assistance:

Teachers Helping Teachers Marvin Willerman, Sharon McKeely, Elaine Koffman, 1991-08-30 Peer observation and assistance POA is a method that has been designed to assist teachers in pooling their knowledge and experience and refining their skills without the threat created by a supervisor's evaluation. The first comprehensive research-based text on the subject, this book isolates behaviors and skills that are consistently shown to raise student achievement levels and describes the process by which teachers can help their peers improve performance in these important areas. Focusing on subject matter as well as instruction, classroom management, and interpersonal techniques, POA allows specific behavioral skills and techniques to be isolated, identified, observed, and recorded at the request of the teacher being observed. The authors explain the phases of POA, the types of observational techniques that may be used, and the feedback conference that follows. A chapter on action research is included as a guide to testing the effectiveness of individual teaching techniques within the teacher's own classroom. The process can be applied to any type of student from preschool through higher education professionals. Although the study is geared primarily to the process of peer observation and assistance, it also offers a wealth of new information for preservice and working teachers.

Anderson and Pellicer offer a thoughtful and fair analysis of peer review as it relates to teaching performance. This is the place to start if improving the overall quality of instruction is important in your school district. Dal Lawrence, Past President, Toledo Federation of Teachers, Toledo, OH. In their book *Teacher Peer Assistance and Review*, Anderson and Pellicer present a compelling case for involving teachers in the instructional supervision process. They also point out the challenges associated with peer assistance and review and provide the reader with a step by step guide for overcoming them. Written in a clear, straightforward style, this book is a must read for teachers, administrators, and policymakers who are serious about implementing effective peer assistance and review programs. Aretha B. Pigford, Chair, Department of Educational Leadership and Human Services, Florida A M University. Elementary and secondary educators are discovering what higher education faculty have always known: Peer Assistance and Review (PAR) programs work. Both new and veteran teachers can improve and update their knowledge and skills by linking with consulting teachers who provide support through observation, modeling, and sharing of information. PAR programs can strengthen teacher professionalism, improve teacher quality, and ultimately enhance student learning if done well. Anderson and Pellicer, two nationally renowned educators, chart a course for developing and implementing an effective PAR program based on long standing successful programs. Easy to read, sections highlight: What is teacher peer assistance and review? Ten essential questions to ask before you begin. Criteria, standards, and data. Key players and their roles, relationships, and responsibilities. Reporting and using the results. Useful Web sites, sample forms, job descriptions, and applications, and an example of an educational policy trust agreement offer practical how to help.
