The Church For Others Protestant Theology In Communist East Germany:

The Church for Others Gregory Baum,1996 **Protestants in Communist East Germany** Wendy R.

Tyndale,2016-04-15 This is the story of how the Protestants in the GDR struggled to survive while striving to put their theology into practice and remaining true to their vision of what the role of the church should be a church for others as Dietrich Bonhoeffer put it Having taken the reader from the foundation of the GDR through the peaceful revolution to the unification of Germany the story ends with some reflections on the church s past as well as on the challenges it faces in present day Europe Protestants in Communist East Germany makes a unique contribution to existing literature by drawing not only on written sources but on a series of first hand interviews with theologians pastors and lay people of different ages whose experiences views and analyses bring the story to life The East German church s relationship to the state will probably always remain controversial and the vision for a different socialism in the GDR espoused by those involved in the peaceful revolution may now be considered illusory Nevertheless many of the issues raised by the Protestants in the GDR remain as vital challenges to the churches in Europe today Foreword by Paul Oestreicher Religion and the Secular in Eastern

Germany, 1945 to the Present Esther Peperkamp, Małgorzata Rajtar,2010 The most common explanations view either the socialist past or larger scale processes of modernization to be the cause of eastern German secularization The volume attempts to discover historically variable reconfigurations of religion and the secular at the local level **Protestants in Communist East Germany** Dr Wendy R Tyndale,2013-06-28 This is the story of how the Protestants in the GDR struggled to survive while striving to put their theology into practice and remaining true to their vision of what the role of the church should be a church for others as Dietrich Bonhoeffer put it Having taken the reader from the foundation of the GDR through the peaceful revolution to the unification of Germany the story ends with some reflections on the church s past as well as on the challenges it faces in present day Europe Protestants in Communist East Germany makes a unique contribution to existing literature by drawing not only on written sources but on a series of first hand interviews with theologians pastors and lay people of different ages whose experiences views and analyses bring the story to life The East German church s relationship to the state will probably always remain controversial and the vision for a different socialism in the GDR espoused by those involved in the peaceful revolution may now be considered illusory Nevertheless many of the issues raised by the Protestants in the GDR remain as vital challenges to the churches in Europe today Foreword by Paul Oestreicher

Imprisoned Religion Irene Becci,2016-05-13 This book explores the profound transformations that prisons and offender rehabilitation programmes in Eastern Germany have undergone with respect to religion Drawing on participant observation and interviews of inmates ex prisoners chaplains and prison visitors this book connects the institutional to individual focusing on the religious changes individuals experience when they are imprisoned and released Including comparative studies from Italy and Switzerland Becci reveals that despite diverse local historical denominational political and social contexts the

transformation patterns of individuals relationship to religion and their use of religious resources are strongly shaped by the total character of prisons Becci also explores the difficulties faced by released people in keeping their religious life alive under the harsh conditions of social stigma in a highly secular outside society **Doing Theology when God is Forgotten** Philip Gordon Ziegler, 2007 Wolf Kr tke is widely acknowledged to be the most important theologian to emerge from the struggle of the churches in the former East Germany Working creatively in the tradition of Karl Barth and Dietrich Bonhoeffer he reconsiders the contours of Christian faith in face of the challenges posed by the regnant atheism and cultural disestablishment that continue to shape the cultural landscape of Eastern Germany This book explores in detail Kr tke s contributions to contemporary reflection upon the identity of God humanity and the Christian church and in so doing sheds light upon questions of theological method important in any context *The Crucified Nation* Alan Davies, 2010-08-19 Examines the nexus between religion and politics This title investigates the way in which fundamental Christian concepts are distorted and corrupted in the process and points to the inherent dangers of this form of political self glorification **The Reluctant Revolutionary** John Anthony Moses, 2009 Dietrich Bonhoeffer was a uniquely reluctant and distinctly German Lutheran revolutionary In this volume the author an Anglican priest and historian argues that Bonhoeffer s powerful critique of Germany s moral derailment needs to be understood as the expression of a devout Lutheran Protestant Bonhoeffer gradually recognized the ways in which the intellectual and religious traditions of his own class the Bildungsb rgertum were enabling Nazi evil In response he offered a religiously inspired call to political opposition and Christian witness which cost him his life The author investigates Bonhoeffer s stance in terms of his confrontation with the legacy of Hegelianism and Neo Rankeanism and by highlighting Bonhoeffer s intellectual and spiritual journey shows how his endeavor to politically reeducate the German people must be examined in theological terms *The Oil Has Not Run Dry* Gregory Baum, 2017-01-01 Born to a Jewish mother and Protestant father in 1923 Berlin Gregory Baum devoted his career to a humanistic approach to Catholicism In *The Oil Has Not Run Dry* Baum shares recollections about his lifelong commitment to theology his atypical views and his evolving understanding of the Catholic Church s message Baum reflects on his groundbreaking work with the Second Vatican Council 1962-65 and how it helped to open the Church to a new understanding of outsiders one that advocated cooperation with world religions in support of peace and justice and respected secular philosophies committed to truth and social solidarity Later embracing Latin American liberation theology he became a leading thinker of the Catholic Left in Canada adopting radical positions that initially earned support from Canadian bishops in the 1970s Diverging from official Catholic doctrines regarding women and sexual ethics Baum eventually left the priesthood but continued to teach theology and remained active in the Church *The Oil Has Not Run Dry* also discusses the contrast between Catholicism in Quebec and English speaking North America and the ways in which Baum sees Quebec s culture as more marked by social solidarity This significant difference has inspired his own writings which present the original development of Catholic

thought in Quebec to an English speaking readership *Ethics and Justice for the Environment* Adrian C. Armstrong, 2012

Examining the issues of ethics and justice as they apply to the environment this book starts from the observation that the parallel expositions of environmental ethics and environmental justice appear to have few points of contact Environmental justice is highly politicized and concerned with human access to the environment and the unequal exposure to environmental pollution It grew out of the US civil rights movement the liberal tradition of rights and Rawls description of justice as fairness It is thus almost exclusively anthropocentric and does not address the question of justice for the environment By contrast environmental ethical studies are a wide ranging collection of approaches that are concerned with caring for the earth and the justifications for it but rarely consider the issue of justice Although the two movements do not come together at the theoretical level they do so at the grass roots activist level An essential component of this study is thus to consider both the issues of grass roots action and the application of the methods to actual case studies This book finds a common ground between these two strands and so to develop a unified statement of justice for the environment that includes the insights of both approaches particularly based on the capability ideas of justice developed by Martha Nussbaum
