The Church Of Ireland Ecclesiastical Reform And Revolution 1800 1885:

The Church of Ireland 1869-1969 R. B. McDowell, 2017-09-06 First published in 1975 In 1869 the Church of Ireland until then part of the Church of England was disestablished and partially disendowed The author traces the changes in the Church of Ireland's organization and function and the decline of its influence and numerical size during the hundred years following disestablishment This title will be of interest to students of nineteenth and twentieth century religious and social history

The Religious Condition of Ireland 1770-1850 Nigel Yates, 2006-02-02 Nigel Yates provides a major reassessment of the religious state of Ireland between 1770 and 1850 He argues that this was both a period of intense reform across all the major religious groups in Ireland and also one in which the seeds of religious tension which were to dominate Irish politics and society for most of the nineteenth and twentieth centuries were sown He examines in detail from a wide range of primary sources the mechanics of this reform programme and the growing tensions between religious groups in this period showing how political and religious issues became inextricably mixed and how various measures that might have been taken to improve the situation were not politically or religiously possible

Era of Emancipation Brian A. Jenkins, 1988 Despite the 1800 Act of Union Ireland was not an integral part of the United Kingdom Its viceregal government the breadth and depth of its poverty and the extent persistence and savagery of peasant violence marked it as distinct This distinction was emphasized by Ireland's Protestant ascendancy in an overwhelmingly Catholic population In his examination of British administration in Ireland from 1812 to 1830 Brian Jenkins focuses on the Catholic issue which dominated Britain's Irish agenda during this period He argues that the British government attempted within the context of the time to govern Ireland in a civilized and enlightened way

Church and State in Modern Britain 1700-1850 Richard Brown, 2002-01-04 In this the second part of his history of the Industrial Revolution Richard Brown examines the political and religious developments which took place in Britain between the 1780s and 1840s in terms of the aristocratic elite and through the expression of alternative radical ideologies Opening with a discussion of the nature of history and of Britain in 1700 it goes on to consider Britain's foreign policy the emergence of the modern state and the mid century crisis of the 1840s Unlike many previous works it emphasises British not just English history It is this diversity of experience and the focus on continuity as well as change women as well as men that makes this a distinctive text Students will also find the theoretical foundations of historical narrative and analysis clearly explained

Ireland's Great Famine and Popular Politics Enda Delaney, Breandán Mac Suibhne, 2015-11-19 Ireland's Great Famine of 1845-52 was among the most devastating food crises in modern history A country of some eight and a half million people lost one million to hunger and disease and another million to emigration According to land activist Michael Davitt the starving made little or no effort to assert the animal's right to existence passively accepting their fate But the poor did resist In word and deed they defied landlords merchants and agents of the state they rioted for food opposed rent and rate collection challenged the decisions of those controlling relief works and scorned clergymen who attributed

their suffering to the Almighty The essays collected here examine the full range of resistance in the Great Famine and illuminate how the crisis itself transformed popular politics Contributors include distinguished scholars of modern Ireland and emerging historians and critics This book is essential reading for students of modern Ireland and the global history of collective action

Eighteenth Century Britain Nigel Yates, 2014-06-11 The church of the eighteenth century was still reeling in the wake of the huge religious upheavals of the two previous centuries Though this was a comparatively quiet period this book shows that for the whole period religion was a major factor in the lives of virtually everybody living in Britain and Ireland Yates argues that the established churches Anglican in England Ireland and Wales and Presbyterian in Scotland were an integral part of the British constitution an arrangement staunchly defended by churchmen and politicians alike The book also argues that although there was a close relationship between church and state in this period there was also limited recognition of other religions This led to Britain becoming a diverse religious society much earlier than most other parts of Europe During the same period competition between different religious groups encouraged ecclesiastical reforms throughout all the different churches in Britain

Waterford's Anglicans Eugene Broderick, 2009-10-02 This book explores the religious political and social fortunes of Waterford's minority Church of Ireland community during a turbulent period in Irish history In the decades under consideration an emerging and strident Catholic democracy eroded the power and social position of a once powerful ruling class Waterford's fearful and confused Anglicans took refuge and found consolation in a community which defined itself increasingly in denominational terms This denominationalism came to be characterised by its Protestant evangelicalism and loyalty to the union with Britain A unique insight is given into provincial Anglicanism with a detailed examination of the character of its religious life and practice There is a particular focus on one of the most controversial figures in the nineteenth century Anglican Church Robert Daly Bishop of Waterford 1843-1872 Described by a contemporary as a Protestant Pope this cleric inspired admiration and loathing as he strove to resist the advances of an increasingly confident and vibrant Catholic Church Studies of bishops of the nineteenth century Protestant Church have been largely conspicuous by their absence but this book makes a valuable and original contribution to a glaring hole in this area of historiography This study of Waterford's Anglicans adds significantly to our understanding of the nature of Irish Protestantism at a time of crisis and decline

Small Differences Donald Harman Akenson, 1988 Argues that there are fundamental social and economic similarities between the two groups but that taboos against intermarriage segregated schools and the nature of Protestant and Catholic religious beliefs keep the Irish at loggerheads

The Oxford Handbook of Religion in Modern Ireland, 2024-01-16 What does religion mean to modern Ireland and what is its recent social and political history The Oxford Handbook of Religion in Modern Ireland provides in depth analysis of the relationships between religion society politics and everyday life on the island of Ireland from 1800 to the twenty first century Taking a chronological and all island approach it explores the complex and changing role of religion both before and after partition The handbook's thirty

two chapters address long standing historical and political debates about religion identity and politics including religion s contributions to division and violence They also offer perspectives on how religion interacts with education the media law gender and sexuality science literature and memory Whilst providing insight into how everyday religious practices have intersected with the institutional structures of Catholicism and Protestantism the book also examines the island s increasing religious diversity including the rise of those with no religion Written by leading scholars in the field and emerging researchers with new perspectives this is an authoritative and up to date volume that offers a wide ranging and comprehensive survey of the enduring significance of religion on the island

Nineteenth-Century Ireland (New Gill History of Ireland 5)

D. George Boyce, 2005-09-27 The elusive search for stability is the subject of Professor D George Boyce s Nineteenth Century Ireland the fifth in the New Gill History of Ireland series Nineteenth century Ireland began and ended in armed revolt The bloody insurrections of 1798 were the proximate reasons for the passing of the Act of Union two years later The long nineteenth century lasted until 1922 by which the institutions of modern Ireland were in place against a background of the Great War the Ulster rebellion and the armed uprising of the nationalist Ireland The hope was that in an imperial structure the ethnic religious and national differences of the inhabitants of Ireland could be reconciled and eliminated Nationalist Ireland mobilised a mass democratic movement under Daniel O Connell to secure Catholic Emancipation before seeing its world transformed by the social cataclysm of the Great Irish Potato Famine At the same time the Protestant north east of Ulster was feeling the first benefits of the Industrial Revolution Although post Famine Ireland modernised rapidly only the north east had a modern economy The mixture of Protestantism and manufacturing industry integrated into the greater United Kingdom and gave a new twist to the traditional Irish Protestant hostility to Catholic political demands In the home rule period from the 1880s to 1914 the prospect of partition moved from being almost unthinkable to being almost inevitable Nineteenth century Ireland collapsed in the various wars and rebellions of 1912 22 Like many other parts of Europe than and since it had proved that an imperial superstructure can contain domestic ethnic rivalries but cannot always eliminate them Nineteenth Century Ireland Table of Contents Introduction The Union Prelude and Aftermath 1798 1808 The Catholic Question and Protestant Answers 1808 29 Testing the Union 1830 45 The Land and its Nemesis 1845 9 Political Diversity Religious Division 1850 69 The Shaping of Irish Politics 1 The Making of Irish Nationalism 1870 91 The Shaping of Irish Politics 2 The Making of Irish Unionism 1870 93 From Conciliation to Confrontation 1891 1914 Modernising Ireland 1834 1914 The Union Broken 1914 23 Stability and Strife in Nineteenth Century Ireland
