Churchill's Secret War With Lenin Damien Wright,2017-07-27 An account of the little known involvement of Royal Marines as they engaged the new Bolsheviks immediately after the Russian Revolution After three years of great loss and suffering on the Eastern Front Imperial Russia was in crisis and on the verge of revolution In November 1917 Lenin s Bolsheviks later known as Soviets seized power signed a peace treaty with the Central Powers and brutally murdered Tsar Nicholas British King George s first cousin and his children so there could be no return to the old order As Russia fractured into loyalist White and revolutionary Red factions the British government became increasingly drawn into the escalating Russian Civil War after hundreds of thousands of German troops transferred from the Eastern Front to France were used in the 1918 Spring Offensive which threatened Paris What began with the landing of a small number of Royal Marines at Murmansk in March 1918 to protect Allied donated war stores quickly escalated with the British government actively pursuing an undeclared war against the Bolsheviks on several fronts in support of British trained and equipped White Russian Allies At the height of British military intervention in mid 1919 British troops were fighting the Soviets far into the Russian interior in the Baltic North Russia Siberia Caspian and Crimea simultaneously The full range of weapons in the British arsenal were deployed including the most modern aircraft tanks and even poison gas British forces were also drawn into peripheral conflicts against White Finnish troops in North Russia and the German Iron Division in the Baltic It remains a little known fact that the last British troops killed by the German Army in the First World War were killed in the Baltic in late 1919 nor that the last Canadian and Australian soldiers to die in the First World War suffered their fate in North Russia in 1919 many months after the Armistice Despite the award of five Victoria Crosses including one posthumous and the loss of hundreds of British and Commonwealth soldiers sailors and airmen most of whom remain buried in Russia the campaign remains virtually unknown in Britain today After withdrawal of all British forces in mid 1920 the British government

attempted to cover up its military involvement in Russia by classifying all official documents. By the time files relating to the campaign were quietly released decades later, there was little public interest. Few people in Britain today know that their nation ever fought a war against the Soviet Union. The culmination of more than 15 years of painstaking and exhaustive research with access to many previously classified official documents, unpublished diaries, manuscripts, and personal accounts, author Damien Wright has written the first comprehensive campaign history of British and Commonwealth military intervention in the Russian Civil War 1918-20. Allied intervention in the Russian Civil War remains forgotten. Wright's book addresses that oversight, interspersing the broader story with personal accounts of participants. *Military History Magazine*

The Christian Advocate, 1911 *Killing the Enemy* Adam Leong Kok Wey, 2015-09-28. During World War II, the British formed a secret division, the SOE or Special Operations Executive, in order to support resistance organisations in occupied Europe. It also engaged in targeted killing, the assassination of enemy political and military leaders. The unit is famous for equipping its agents with tools for use behind enemy lines, such as folding motorbikes, miniature submarines, and suicide pills disguised as coat buttons. But its activities are now also gaining attention as a forerunner to today's extra-legal killings of wartime enemies in foreign territory, for example through the use of unmanned drones. Adam Leong's work evaluates the effectiveness of political assassination in wartime, using four examples: Heydrich's assassination in Prague, Operation Anthropoid, the daring kidnapping of Major General Kreipe in Crete by Patrick Leigh Fermor, the failed attempt to assassinate Rommel known as Operation Flipper, and the American assassination of General Yamamoto.
