The Classical Attempt At Theoretical Synthesis Max Weber Theoretical Logic In Sociology Vol 3:

Theoretical Logic in Sociology Jeffrey C. Alexander, 1985 *Theoretical logic in sociology. vol. 3* Jeffrey C. Alexander, 1983 **Theoretical Logic in Sociology** Jeffrey Alexander, 2021-03-11 This four volume work originally published in the 1980s and out of print for some years represents a major attempt to redirect the course of contemporary sociological thought Jeffrey Alexander analyses the most general and fundamental elements of sociological thinking about action and order and their ramifications for empirical study He insists that sociological thought need not choose between voluntary action and social constraint The four volumes can be read independently of one another as each presents a distinctive theoretical argument in its own right The first volume is directed at contemporary problems and controversies not only in theory but in the philosophy and sociology of science The last three volumes make interpretations confronting the individual theorists and the secondary literature on their own terms *Theoretical Logic in Sociology* Jeffrey C. Alexander, 1982 **Max Weber on Economy and Society (Routledge Revivals)** Robert Holton, Bryan Turner, 2010-10-22 First published in 1989 this re issue concerns itself with the relevance of Max Weber's sociology for the understanding of modern times The book outlines key tenets of Weber's sociology and points to the valuable legacy of Weber's thought in contemporary intellectual debate particularly with regard to secularization and rationalization of global cultures the crisis of Marxism the rise of the New Right and the emergence of post modernism This book offers an authoritative and insightful study which brings to light not only the contemporary relevance of Weber's social theory but also offering a broad perspective for the analysis of social questions **Classical Attempt at Theoretical Synthesis** Jeffrey Alexander, 2014-04-24 The limits of one dimensional theory are strikingly revealed in the schools that the founders of the major sociological traditions established In this volume Max Weber is presented as the theorist who laid out new starting points and the author considers his work as a response in part to the idealist tradition which in Volume 2 he maintains that Durkheim represents As Weber was less able to avoid ambiguity the author examines the weaknesses and efforts at paradigm revision **Max Weber, Rationality and Modernity** Sam Whimster, Dr Scott Lash, 2014-04-04 This book brings together leading figures in history sociology political science feminism and critical theory to interpret evaluate criticize and update Weber's legacy In a collection of specially commissioned pieces and translated articles the Weberian scholarship recognizes Max Weber as the figure central to contemporary debates on the need for societal rationality the limits of reason and the place of culture and conduct in the supposedly post religious age In Part 1 Wolfgang Mommsen Wilhelm Hennis Guenther Roth and Wolfgang Schluchter provide a full and varied account of the theme of rationalization in the world civilizations In Part 2 Pierre Bourdieu and Barry Hindess critically examine Weber's social action model and Johannes Weiss and Martin Albrow address the putative crisis of Western rationality In Part 3 Jeffrey Alexander Ralph Schroeder Bryan Turner Roslyn Bologh and Sam Whimster scrutinize Weber's understanding of modernity with its characteristic plurality of gods and

demons they focus on its implications for individuality and personality the body and sexuality feminism and aesthetic modernism Part 4 turns to politics law and the state in the contemporary world Colin Gordon on liberalism Luciano Cavalli on charismatic politics Stephen Turner and Regis Factor on decisionism and power and Scott Lash on modernism substance rationality and law This book was first published in 1987 Max Weber: From History to Modernity Profesor Bryan S Turner,2002-09-11 This wide ranging and assured book written by one of the leading Weber scholars in the English speaking world shows us the many sides of Max Weber The book provides an authoritative guide to the current burning issues in social theory religion rationalization the body modernization and capitalism It will be essential reading for anyone interested in Weber s claim that the aim of sociology must be to explain what is distinctive about the times in which we live □□□□□□□□
