The Cobra Story:

The Cobra Story Carroll Shelby, John Bentley, 1974 The Cobra and the Key Sam Shelstad, 2023-10-10

The Cobra and the Key is a funny and charming satire of writing advice and the people who give it. The Paris Review. Sam Shelstad's brilliantly funny slightly unhinged creative writing guide is *How Fiction Works* by James Wood meets *Pale Fire* by Vladimir Nabokov. To the untrained eye Sam Shelstad may look a lot like a Value Village cashier who shares an apartment with his Uncle Herman and has just emerged from a failed relationship with a woman forty years his senior whom he met at his mother's book club. But Sam is a successful novelist or will be soon he's certain. The manuscript of his debut novel *The Emerald* is currently on the desk of a celebrated indie publisher. While he waits to hear back he's hard at work on two ambitious writing projects. The first is the Molly novel a fictional rendering of Sam's newly defunct relationship. The second is a guide for aspiring fiction writers like yourself. The two have much to teach one another and much to teach you. Drawing on examples from the work of greats like George Orwell, Henry James, F. Scott Fitzgerald, Alice Munro, Kazuo Ishiguro, Clarice Lispector and Sam Shelstad. *The Cobra and the Key* takes the novice through aspects of character detail, plot, style, point of view, dialogue and meaning. Before long you'll be ready to print off your first draft and embark on revisions. Then it's time to learn some of the tricks of the publishing biz. Having just been threatened with legal action by his soon-to-be publisher for stalking said publisher's son via Instagram, Sam knows a thing or two about that too. Are you ready to get serious about your writing?

Cobra Trevor Legate, 2006. This book tells the complex saga of a sports car that was created in the early 1960s as a result of an unlikely collaboration between a plain talking ex-racing driver from Texas and a conservative British automobile manufacturer funded by one of the giants of the industry, the Ford Motor Company. Carroll Shelby, AC Cars and Ford came together to create a car called the Cobra based on the AC Ace roadster that had been in production since 1954. When the Shelby Cobra was created it was far from state of the art but the use of a new series of Ford V8 engines saw the lightweight car annihilate the Chevrolet Corvette in American sports car racing. By adding aerodynamic bodywork the Daytona Cobra Coupe arrived in Europe to contest the FIA World Championship and took victory in the GT category in 1965 making Shelby American the first and only USA based manufacturer to achieve this feat. In order to capitalize on this success even greater power was required and the car was developed to take a huge 7 liter engine that proved to be a triumph of horsepower over handling thus the 427 Cobra became an overnight legend establishing new performance records and creating a reputation for being more than a little tricky to drive. The era of the Cobra was brief production ended at Shelby American during 1966 and at AC Cars in 1968 where they built their own final version the AC289 Sports. Just over 1000 Cobras were built during that time but the final cars proved difficult to sell their vintage qualities deterring potential owners. Carroll Shelby closed his company and went to Africa while AC developed other models but the Cobra was not quite finished yet. Within a matter of a few years a new market for the car was created as the demand for affordable kit cars grew. The most

popular model by far was the Cobra and many thousands were built with the result that both AC Cars and Carroll Shelby put their own versions back into production And then the arguments really started If it was an improbable car over forty years ago it is even more implausible today but the remarkable Cobra in one form or another is still with us It may be dead but it just won't lie down
