The Coherence Of Gothic Conventions Gothic Studies And Dissertations:

The Coherence of Gothic Conventions Eve Kosofsky Sedgwick, 2023-02-14 First published in 1986 The Coherence of Gothic Conventions makes the case that the Gothic in English literature has been marked by a distinctive and highly influential set of ambitions about relations of meaning Through readings of classic Gothic authors as well as of De Quincey and the Brontës Sedgwick links the most characteristic thematic conventions of the Gothic firmly and useably to the genre's radical claims for representation The introduction clarifies the connection between the linguistic or epistemological argument of the Gothic and its epochal crystallization of modern gender and modern homophobia This book will be of interest to students of literature cultural studies and psychology *Perils of the Night* Eugenia C. DeLamotte, 1990-02-22 This book argues that the source of Gothic terror is anxiety about the boundaries of the self a double fear of separateness and unity that has had a special significance for women writers and readers Exploring the psychological religious and epistemological context of this anxiety DeLamotte argues that the Gothic vision focuses simultaneously on the private demons of the psyche and the social realities that helped to shape them Her analysis includes works of English and American authors among them Henry James Mary Shelley Herman Melville Nathaniel Hawthorne Emily Brontë Charlotte Brontë and a number of often neglected popular women Gothicists The 1980 Bibliography of Gothic Studies, 1983 *Ecofictions, Ecorealities, and Slow Violence in Latin America and the Latinx World* Ilka Kressner, Ana María Mutis, Elizabeth Pettinaroli, 2019-11-21 *Ecofictions Ecorealities and Slow Violence in Latin America and the Latinx World* brings together critical studies of Latin American and Latinx writing film visual and performing arts to offer new perspectives on ecological violence Building on Rob Nixon's concept of slow violence the contributions to the volume explore processes of environmental destruction that are not immediately visible yet expand in time and space and transcend the limits of our experience Authors consider these forms of destruction in relation to new material contexts of artistic creation practices of activism and cultural production in Latin American and Latinx worlds Their critical contributions investigate how writers cultural activists filmmakers and visual and performance artists across the region conceptualize visualize and document this invisible but far reaching realm of violence that so tenaciously resists representation The volume highlights the dense web of material relations in which all is enmeshed and calls attention to a notion of agency that transcends the anthropocentric engaging a cognition envisioned as embodied collective and relational *Ecofictions Ecorealities and Slow Violence* measures the breadth of creative imaginings and critical strategies from Latin America and Latinx contexts to enrich contemporary ecocritical studies in an era of heightened environmental vulnerability *Murders, Madness, Monsters* Tanya González, 2004 **Gothic Evolutions** Corinna Wagner, 2014-06-23 The texts in this unique collection range from the Gothic Revival of the late eighteenth century through to the late Victorian gothic and from the poetry of Wordsworth and Coleridge to the short fiction of H G Wells and Henry James Genres represented include medievalist poetry psychological thrillers dark

political dystopias sinister tales of social corruption and popular ghost tales In addition to a wide selection of classic and lesser known texts from the eighteenth and nineteenth centuries Gothic Evolutions includes key examples of the aesthetic scientific and cultural theory related to the Gothic from John Locke and David Hume to Sigmund Freud and Julia Kristeva

Gothic writing

1750-1820 Robert Miles,2017-06-01 Now available again in paperback this provocative study by Robert Miles uses the tools of modern literary theory and criticism to analyse this very distinctive body of texts Miles introduces the reader to contexts of Gothic in the eighteenth century including its historical development and its placement within the period s concerns with discourse and gender By using texts ranging from sensational novels such as *The Monk* and *The Mysteries of Udolpho* poetic variations on Gothic by Coleridge Shelley and Keats to satirical works on the theme by Jane Austen Miles presents an intriguing overview of Gothic literature By drawing extensively on the ideas of Michel Foucault to establish a genealogy he brings Gothic writing in from the margins of popular fiction resituating it at the centre of debate about Romanticism Le Fanu's Gothic V. Sage,2003-12-18 This new study seeks to explore the relations between reader and text across the span of Sheridan Le Fanu s career placing his early work of the 1830s in context Sage concentrates on the development in Le Fanu of hybrid forms which mingle satire and comedy with Gothic horror and also discusses the early work of *Uncle Silas* and *Carmilla* giving space to the often neglected unpublished romances

When somebody should go to the book stores, search opening by shop, shelf by shelf, it is in point of fact problematic. This is why we provide the book compilations in this website. It will categorically ease you to see guide **The Coherence Of Gothic Conventions Gothic Studies And Dissertations** as you such as.
