Austria in the First Cold War, 1945-55 G. Bischof, 1999-08-12 At the height of the first Cold War in the early 1950s the Western powers worried that occupied Austria might become Europe's Korea and feared a Communist takeover The Soviets exploited their occupation zone for maximum reparations American economic aid guaranteed Austria's survival and economic reconstruction Their military assistance turned Austria into a secret ally of the West Austrian diplomacy played a vital role in securing the Austrian treaty in bilateral negotiations with Stalin's successors in the Kremlin demonstrating the leverage of the weak in the Cold War

The United States, Italy and the Origins of Cold War Kaeten Mistry, 2014-05-15 This international history of the origins and nature of cold war offers the first systematic examination of the complex relationship between the United States and Italy and of American debates about warfare in the years between World War II and the Korean War Kaeten Mistry reveals how the defeat of the Marxist left in the 1948 Italian election was perceived as a victory for the United States amidst a war short of war as defined by influential planner George Kennan becoming an allegory for cold war in American minds The book analyses how political warfare sought to employ covert operations overt tactics and propaganda in a coordinated offensive against international communism Charting the critical contribution of a broad network of local religious civic labour and business groups Mistry reveals how the notion of a specific American success paved the way for a problematic future for US Italian relations and American political warfare

The Soviet Union and Europe in the Cold War, 1943-53 Francesca Gori, Silvio Pons, 1997-08-12 After the Cold War its history must be reassessed as the opening of Soviet archives allows a much fuller understanding of the Russian dimension These essays on the classic period of the Cold War 1945-53 use Soviet and Western sources to shed new light on Stalin's aims objectives and actions on Moscow's relations with both the Soviet Bloc and the West European Communist Parties and on the diplomatic relations of Britain France and Italy with the USSR The contributors are prominent European Russian and American specialists

Cold War US Foreign Policy Steven Hurst, 2019-07-31 This book provides the first comprehensive description and critique of the six most important historical interpretations of US Cold War foreign policy Traditionalism Revisionism Post Revisionism Corporatism World Systems Theory and Post Structuralism The author uses the levels of analysis approach to demonstrate how each of these perspectives can be understood as an explanatory framework combining different types of factors located at different levels of the international system This original way of explaining the work of the historians discussed helps the reader to see past the narrative and empirical elements of their writings and to grasp more clearly the underlying theoretical assumptions In each chapter a description of the perspective's underlying theoretical framework and how it explains US foreign policy is followed by a critique of that theory and explanation A central theme developed throughout the book is the difficulty of

managing the constant tension between the explanatory power of theory and the historian's desire to encompass the complex totality of historical events. This critical companion can be read alongside the works of the historians themselves showing how they have sought to explain US Cold War foreign policy and the key differences between their perspectives.

Key Features

- 1st complete discussion of the 6 schools of thought in one volume
- Discusses current issues such as corporatism, world systems theory and post-structuralism in an accessible manner
- original use of the levels of analysis framework in studying this subject
- demonstrates in practical terms how each theory explains US Cold War foreign policy
